Some Events of the Day on the West Side of the City Noted.

MR. DANIELS' SLOW MEMORY

Falls Him in Discussing that Hypothetical Board of Trade Resolution.

The West Side correspondence of the Tribune could not contain a greater tissue of falsehood than those penned against the secretary of the West Side Board of Trade, who is also a "Truth reporter." Thus wrote C. E. Daniels in last night's West Side department of the Truth, referring to the criticism on his action in withholding board of trade resolutions from the morning papers that he might use them himself.

Now let us see who is telling the truth in this matter. Mr. Daniels further says: "Correspondent Griffiths early Wednesday evening asked the secretary for the resolution. As the board is a public organization, Mr. Griffiths was told that the resolution would be left for him at a certain drug store on Main avenue. As a matter of fact, the resolution was in that drug store before 8 o'clock in the evening." Right there is where Mr. Daniels told a brazen, unqualified lie. It is a lie that is inexcusable and is evidently conjured up for the purpose of getting him out of a very disagreeable hole.

At 7:30 The Tribune representative met Mr. Daniels at Davis' drug store and requested the permission of securing a copy of the resolutions. "Don't you think I want anything for my own paper," replied Mr. Daniels. That was a question that had no particular bearing on the case and again Mr. Daniels was asked for the resolutions.

"I will probably see you about them again," said Mr. Daniels, evasively, as he looked down the street. That was another lie. The resolutions were in the drug store Mr. Daniels refers to when they were in his pocket, where he evidently was very anxious to keep them.

According to the testimony of those employed about the drug store Mr. Daniels was not afterwards seen about that establishment during the evening. The Tribune representative was there as late as 9 p. m., but nothing had been seen of the resolutions up to that hour. Inquiries made yesterday developed the information that neither Mr. Daniels nor his resolutions put in an appearance after that.

Mr. Daniels need at any time "chase around the avenues" for to furnish The Tribune with news. His representative is willing and able to do all the chasing necessary to give the people of the West Side a good news service. He does not propose, however, to any longer endure the obstacles that the Truth representative endeavors to throw in the way of the workers on the morning papers.

It is not entirely the matter of the resolutions in question that the writer contends for. It is the principle involved. Mr. Daniels has no right to confabulate, without any justification whatever, news that belongs to the morning papers, and he might as well know right here and now that such sharp practices will not be tolerated in the future. As secretary of the board of trade, and in other official capacities, he has on innumerable occasions strained courtesy to the bursting point to hinder the morning newspaper workers that he might favor his own paper. This is well known in newspaper circles and out.

The Tribune prints the news when it is news and it will not longer allow Mr. Daniels to hamper it. He must act in an official capacity as any newspaper would or step down and take his seat at the press table on an equal footing with his fellow workers.

Well Known People Buried. The funeral of Mrs. Mary Harris, wife of Morgan Harris, and who died at her home on North Rebecca avenue Tuesday, took place at 2:30 o'clock yesterday afternoon. Owing to the serious illness of the deceased's sister, no services were held at the family home. The services were conducted in the Jackson Street Baptist church by the pastor, Rev. C. C. Hughes, and Rev. W. S. Jones, of the First Wesleyan Baptist church. Dr. Hughes paid a high tribute to the qualities of Mrs. Harris. There were many floral offerings. Undertaker Tague removed the remains to the Washburn Street cemetery, where interment was made. The pall-bearers were Christopher Robertson, Eddie Jones, David Argus, Benjamin Hughes, Thomas Joseph and John Lloyd.

A very large funeral was that of Roger Haggerty, who died Tuesday at his home on Scranton street. The friends of the family assembled yesterday morning at the home, where the remains, which rested in a costly black casket, were viewed. A solemn high mass was celebrated in St. Patrick's church on Jackson street by Rev. P. P. McNally, who preached an eloquent sermon. Father Dunne was deacon, and Father Fricker, of St. John's church, was sub-deacon. Branch 44, Catholic Mutual Benefit association; Division No. 1, Ancient Order of Hibernians, Board of America, and the Oxford Mine Accidental fund were in attendance. Interment was made in the Hyde Park Catholic cemetery. The pall-bearers were Thomas Judge, James Mulligan, Anthony McAndrew, Michael Coleman, Anthony Martin and Patrick Gallagher.

Two Evening Parties. A very pleasant evening party was held on Thursday evening at the home of Mr. and Mrs. George Fellows, on Tenth street, in honor of their young daughter, Bertha. The young people indulged in various amusements and at a seasonable hour refreshments were served. Those present were Misses Maud Chambers, Ella Chambers, Sallie McCrackers, Lulu Fellows, Bessie McCrackers, Jessie Cavell, Hannah Edwards, Emma Fellows, Hattie Wade, Bessie Daniels, Ethel Doud, Elsie Harris, Carrie Carr, Nettie Davis, Ethel Woodruff, Ruth Fellows, Lois Becker, Lucy Fellows, Lydia Fellows, Ella Shaw, Bertha Fellows and Archie Saxe, Frank Carr, Eddie Walker, Henry Miller, Walter Coleman, Arthur Chalmers, Warren Acker, Frank Fellows and Wendell Evans.

A surprise party was tendered Miss Jessie Beavers, on Thursday evening, at her home on Scotland street. Those who attended were: Misses May Richards, May Jones, Grace Snow, Daisy Wade, Ruth Williams, Jessie Beavers, Gertie Beavers, Lena Davis, Ellen Fowler, Bertha Powell, Thiel Dawkins, Gertie Dawkins, Lizzie Huber, Edith Beavers, Carrie Paulin, and Harry Hartman, George Daniels, John Farrell, Elmer Hughes, H. J. Griffiths, George Evans, Harrold Evans, Charles Carpenter, George Carpenter, Alie Shafer, Reese Powell, Eddie Beavers, Will Edwards.

Told in a Few Lines. Edward Howells, of North Lincoln avenue, is ill. Richard E. Jones, janitor at No. 14 school, is ill with quinsy. The condition of Peter Morton, who is ill at his home, on Keyser avenue, is dangerous. Thomas Thomas, a shoemaker on South Main avenue, has removed his shop to Bellevue. The Welsh Philosophical society will meet this evening in their rooms, on South Main avenue. A meeting of the Young People's Literary society was held last evening in the First Welsh Baptist church. A raffle for a watch for the benefit of Daniel Williams will be held in the Eagle hotel, on South Main avenue, on March 23.

London services were conducted last evening in the St. David's Episcopal and German Presbyterian churches. The services were well attended. Division No. 1, Ancient Order of Hibernians, held a meeting in their rooms last evening to make final arrangements for parading on St. Patrick's Day. Levi Daniels, a boarder at the home of Richard Davis, on North Filmore avenue, was removed yesterday to the Moses Taylor hospital. He is afflicted with blood poisoning. The funeral of the young child of Mr. and Mrs. W. H. Fuller, of Eynon street, occurred yesterday afternoon. Services were conducted by Rev. Thomas A. Bell, pastor of the Plymouth Congregational church. Interment was made in the Washburn Street cemetery.

West Side Business Directory. PHOTOGRAPHER--Cabinet Photos, 3140 per dozen. They are guaranteed complete. E. C. King, 164 and 166 South Main avenue. SHOEING--N. Bush, practical shoemaker. Work done only in a first-class manner and guaranteed satisfactory. Shop, Price street, close to North Main avenue. GROCERIES--Revere Standard Java Coffee is unexcelled. The leading coffee of the world. For sale at F. W. Mason & Co. Fine Groceries, 116 South Main avenue. SECOND HAND FURNITURE--CASH for anything you have to sell. Furniture, Stoves, Tools, etc. Call and see the stock of J. C. King, 164 and 166 Jackson street. WALL PAPER--Go to Fred Reynolds, 246 North Main avenue, and see his complete line of Wall Paper, Paints and Window Shades. Just opened with new stock. PLUMBING--William D. Griffiths, 113 North Main avenue, does first-class Plumbing, Steam Heat and Gas Fitting. Satisfaction guaranteed. OYSTERS--R. E. Davis, market house. Dealer in Foreign and Domestic Fruits. Oysters served in every style. 310 North Main avenue, next to Clark's.

CHRISTIAN ENDEAVOR NOTES. An important business meeting of the city union, comprising Miss Della Evans, E. P. Fuller, A. C. Smith and H. R. Lathrop, 123 Washington avenue. Communications are to be sent to the members not later than each Thursday. A pleasant evening was spent by the members of the Dunmore Presbyterian church society on Tuesday last at the residence of Miss Pickett, when the March business meeting was also held. The social committee had arranged a pleasant musical programme, which was highly appreciated by the members. There are now seventy members in the society of the Adams Avenue mission of the Second Presbyterian church. Although the society was established but twelve months ago it has made great progress and assists considerably in a financial manner, in keeping the chapel in repair. The following officers have been elected by the Christian Endeavor society of the First Presbyterian church: President, F. M. Bouton; vice president, Miss Mary Thompson; recording secretary, Miss Grace Little; corresponding secretary, W. W. Inglis; treasurer, August Kraft. This society has also voted \$10 for the relief of the poor in the city.

When Baby was sick, we gave her Castoria. When she was a Child, she clung to Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

NEWS OF THE SOUTH SIDE

Abnormal Amount of Sickness Demands Caution and Judgment.

MALIGNANT CASE OF TYPHOID

In the Family of E. W. Glaser, on Elk Street--Case Is Isolated--Firemen of All Companies Supporting R. J. Farrell for District Engineer.

Typoid fever has broken out on the South Side in the family of Ernest W. Glaser, of 638 Elk street, whose little daughter, Lena, 6 years of age, is very dangerously attacked with the dread plague. Dr. J. A. Manly is the attending physician, and he gives it as his opinion that it is the first malignant case that has appeared on this side in several months. This is an unhealthy season of the year and the spread of the contagion would work havoc, the doctor thinks, to the general health of the community. However, he believes, that the case is an isolated one and not liable to unfold and effect the community.

Influenza is floating in the air and scarcely a family is free from it. This, with typhoid fever, would accentuate the condition of the people to such an extent that they would have very good cause for alarm. The advice of the doctors to those who are in good health and desire to retain it is to shun houses where sickness prevails, keep warmly clothed, and take daily exercise. The last traces of whooping cough among children have disappeared. Measles have broken out occasionally, but lagrippe is the representative of mortality that holds arbitrary sway.

Candidate for District Engineer. In this column a few days ago was mentioned a few thoughts in relation to the most available member of the South Side fire companies who would be put forward for district engineer. The term of Louis Schwass, the present official, expires next month, and while not one person ever whispered a word detrimental to his course as district engineer, but on the contrary, all spoke in the highest terms of him, yet the general feeling is that the William Connell Hose company has waited long and patiently enough and is now entitled to the honor. Therefore the name of Richard J. Farrell, the present foreman of the company, and an active and attentive fireman, is put forward. His petition is signed by every member of his own company and by most members of the other companies.

Shorter Paragraphs. S. S. Spruks is ill at his home on Pittston avenue. Mrs. Stephen Guthrie, of Cedar avenue, is quite seriously ill. Patrick Walsh, of Blairville, is visiting friends on the South Side. Peter Snyder, of New York City, is visiting friends on the South Side. A boy was born to Mr. and Mrs. John Kuhn, of Cherry street, yesterday morning.

The North works resumed early yesterday morning and for how long it is not certain. One of the Moosic street cars was derailed and damaged at supper time yesterday evening and prevented the South Side cars from making schedule time. Miss S. C. Krigbaum will lead Sabbath exercises at the rooms of the Young Women's Christian association tomorrow. Special music has been prepared.

Martin Kelly, of Birch street, a young man 25 years of age, whose mother died a week ago from an illness of pneumonia, is so seriously ill of pneumonia that his life is despaired of. The funeral of Michael Sweeney, of 842 Hemlock street, will take place at 9 o'clock today with a high mass of requiem at St. Peter's cathedral. Interment will be made in Hyde Park cemetery.

The funeral of Miss Minnie Gibbons, of Prospect avenue, will take place at 9 o'clock this morning. A high mass of requiem will be celebrated at St. Peter's cathedral, and interment will be made in Hyde Park Catholic cemetery.

Martin, the 6-year-old son of John J. Lavelle, of Pittston avenue, was injured two months ago while coasting, and then it was thought that his leg would have to be amputated. Under the skillful treatment of Dr. Manly the lad has recuperated and is doing well.

If you want a good plumber telephone 232. W. G. Doud & Co., 509 Lackawanna avenue.

Just Has 'Em. From Good News. Little Girl--Does you mother talk much about woman's rights? Little Boy--No, she jus' has 'em without any talkin'.

Perseverance and Grit. Lincoln, Centre, Me.--"I thank God that I used Dr. David Kennedy's Favorite Remedy. Such were the words of Asa T. Griffin of this place, and any one acquainted with the benefit he derived from its use, knows that he has great reason to feel thankful. The history of Mr. Griffin's case is of so much interest that your correspondent obtained full particulars.

"For ten years past," to use Mr. Griffin's own words, "I have suffered with constant pain in my back which was brought about by a diseased condition of my kidney's. The suffering I endured at times is beyond words. I doctored and took all manner of medicines, but to no purpose. I began to be despondent for having was coming on and I wanted to get to work. One day I was reading of Dr. David Kennedy's Favorite Remedy, and I told my wife I would try it, and I am thankful that I did so. I had used it but a short while when the pain disappeared; and I then started in and worked all through haying and helped to get in twenty-three acres of grain, and am feeling better than I have for years. My wife, who has also taken Favorite Remedy for the sickness women are usually troubled with, has induced many others to try this valuable medicine, and in every case it has cured, where a cure was possible." One of our local physicians recently said: "Dr. Kennedy's Favorite Remedy has cured more people of dyspepsia, rheumatism, kidney, liver and urinary troubles, and women who are suffering from illness peculiar to their sex, than any known treatment. The great value of Favorite Remedy lies in the fact that it dissolves the excess of uric acid in the blood, expels it from the system, thus curing the disease."

In diabetes, Bright's disease and gravel, it has cured where all else failed. Dr. David Kennedy's Favorite Remedy can be purchased of any dealer of medicines at \$1 a bottle.

NEWS OF THE RAILROADS.

Rev. F. J. Collins will preach at the afternoon meeting tomorrow.

A good story comes from Carbondale, where the trains were late starting out on Thursday. A number of crews failed to report in time, and, upon investigating, it was found that the professional caller had called at a saloon where he chatted so much liquor that he could "call" no more. In the meantime the boys slept, unconscious of the fleeing hours. A special call had to be made before the train service could be regulated.

Considerable discussion has been heard relative to the transformation in engine No. 9, the W. F. Hallstead, which will be turned out of the Lackawanna shops, today. All the boys are proud of their handiwork in converting this engine into the finest locomotive in this part of the country. No. 9 was well known when pulling the New York and Buffalo express, No. 1, between Scranton and Binghamton, and for the best work ever has been handled by Engineer Whitmore. Previously this locomotive was built for burning anthracite coal, but during the past few months while it has been in the shops it has been changed to a culm burner, as it is considered that the culm-burners possess superior steaming abilities. The painting work reflects great credit on Fred Sheldon, foreman of the paint shop. Superintendent David Brown also deserves commendation for the superior workmanship of his department. It is claimed that No. 9 will easily be able to run 60 miles an hour. Up to the present, engine 18 has been used, and one holding the best record on the Lackawanna system, but the position may now be given No. 9.

UGHT TO BE A JURYM.

An Astonishing Example of Blissful Ignorance Furnished by Susquehanna County.

"I was recently a witness and took part in a conversation which, in this enlightened age not only dumbfounded me but without discount showed ignorance in a malignant form," said an old acquaintance to a Tribune reporter at the Valley House yesterday. "It had special bearing on the recent eclipse and happened in a small town in Susquehanna county, I was in a store there where they sold everything from codfish to pongee silk, when the person with a party of ideas entered. He had a crock of butter and his son a large basket of eggs. They were the regulation garb of the Pennsylvania farmer. The proprietor with several others, was discussing the eclipse of the night previous, when Jake, as he was called, came near.

"Eclipse? What's an 'eclipse'?" "Why," said one of the party, "the earth comes between the sun and the moon and casts its shadow on the moon so it gives no light."

"You can't fool me," said Jake; "how kin they tell 'bout such things? I don't believe there's no such word."

"There certainly is," said the proprietor, "and we all saw it last night."

"How'd you know 'bout it?" asked Jake. "Every paper in the country gave the information--told the hour and minute it would start and when the moon would be entirely eclipsed and also at what time it would end," said one. "Yes, and every almanac had the same thing, just as they tell of the moon's phases, the tides, the hour of sunrise and sunset and all such information, and they are right in every case." I ventured to remark.

"Moon's phases, tides 'n' sunrise 'n' sunset," said Jake. "What be they?" "A few of the peculiar phenomena of nature which science has solved," I replied.

"What's science?" he asked. "Science," I replied, "is the immediate result of accumulated tuition of gray matter of the brain judiciously applied upon phenomena and matters in general with the purpose of ascertaining the ultimatum."

"Wall I swash, fenomener an' solution; you are tryin' to make fun of me with all your highfalutin dictionary words, but you can't do it."

"Now," said I "you are entirely mistaken when you imagine that, I am certainly not trying to ridicule you, but on the other hand, supposed you were trying to make game of me. You see the eclipse is an important event to astronomers. They are enabled by observations to further enlightenment and sometimes when the sun is eclipsed men get to the utmost parts of the earth where they can get a better view of it. The eclipse is one proof that the earth is round, for its shadow on the moon shows the arc of a circular body."

"The earth round?" Jake said incredulously. "No stree; it can't be. Its flatter'n a pancake; why, how could it stand?"

I tried in vain to explain how gravity kept things going and of the earth's daily revolution and annual trip around the sun--even secured an almanac and showed him a wood cut giving the entire matter, and as a final clincher, told him that I had been around the world and knew it was round like a baseball. This seemed to please him but he said:

"You foller the snake creek road from here to Binghamton and she's flat."

"The earth was reasonably true and I was forced to admit it."

"Now, it is 95,000,000 of miles from the earth to the moon, and the recent telescopes of great power bring the moon apparently within thirty miles of the earth," said I.

"How do you know it's so many miles, and I don't believe no man can see thirty miles. How you get up on top of a hill and you can't see no more'n four miles. This idea of men havin' telescopes an' newfangled--'paraphernalia,' I suggested. "What's that, more solution or fenomeny?" he said sharply. "I don't care; these fellers go to squintin' round and say the earth's round an' it's so many miles from here to the moon an' they'll know north'n 'bout it--them fellers don't know out of what."

"Jake," said a man who had said nothing up to this point, "how do you account for sunrise and sunset and how can these learned scientists predict over a year ahead the different changes which will occur?" "Well, as to sunrise an' sunset them fellers kept time last year an' put it down just the same this year an' so far as the 'eclipse, solutions an' your fenomeny, they guess at them things an' if they do hit it all right once in a while 'tain't their fault."

JUDGE'S FAMOUS CARTOONIST

Bernard Gillam Recommends Paine's Celery Compound for Exhaustion.

The Buffalo News, in a recent article remarks upon the fact that "Bernard Gillam, the cartoonist of Judge, is one of the few living men whose cartoons have ever changed a vote in the U. S. senate."

Bernard Gillam is a young man, but he received his art education in England. He is today the foremost cartoonist of America.

In 1889 he came to Harper's Weekly as the colleague of the immortal Noddy. His work afterward for Frank Leslie's and Puck well fitted him for bringing Judge to its present success. In 1886 Mr. Gillam went into partnership with W. J. Arkell, and bought Judge. The special province on Judge, equal the remarkable efforts of the great Keppler, in Judge's older rival.

There is probably no form of brain work that is so exhausting, so exacting and so intense as the work of the great artist on the large comic papers. To turn out brilliant ideas with the regularity of machinery and yet keep their work up to the high standard set by their splendid reputation, makes fearful demands upon their nervous vitality. Mr. Gillam knows what severe work means.

The nervous strain of his responsible position has at times brought him near to prostration and the giving up of his work. He says in a letter dated New York, Nov. 13, 1884:

"No tonic that I have taken has done me so much good as Paine's Celery Compound. When I am run down or exhausted after particularly exacting occupations, I have found a dose of the compound exceedingly beneficial as a restorative for the nerves."

The racing speed of the marvelous new processes for swiftly carrying out men's ideas is taxing to their utmost the nervous systems of countless men and women.

A cry of protest is going up all over the country from medical men against the suicidal waste of nerve force. Preachers, editors, lawyers, even doctors themselves, form their daily round of hard, anxious work--every brain worker, in fact, who labors draws heavily upon his nervous vitality, must take alarm at the first sign of brain-tire, pressure, fullness or tension in the head or nervous fatigue.

In every city in the United States physicians every day are not only prescribing, but themselves using, Paine's Celery Compound for weakness and nervous debility, for curing the effect of poor and unhealthy blood, disorders

of liver, kidneys, stomach, heart and the nervous system.

An effective remedy must first enter the blood to cure rheumatism. Local treatment for a constitutional disorder will do no good. Rheumatism, gout, blood-poisoning, scrofula, etc., are diseases in the blood.

Just why Paine's Celery Compound cures, while other remedies fail, is because all its ingredients effectually attack the system to rid itself of any poisonous humors in the blood.

Hundreds of cases have within this year been reported directly from persons, between the ages of 45 and 65, suffering from acute Bright's disease, who have been permanently cured by Paine's Celery Compound. It stops the gradual structural changes in the kidneys, restores their vigor and removes such alarming symptoms as the gradual loss of strength, pallor of the face, shortness of breath, pain in the back and sides, drowsy and a puffing condition of the skin. As a spring medicine it is absolutely without a rival.

Every overworked man and woman, reduced in strength, flesh and nervous vigor, will find a powerful restorative in Paine's Celery Compound. It is food for the brain and nerves. It sends new, healthy blood through the arteries. It makes people well.

Headquarters Thirteenth Regiment, Third Brigade, National Guard of Pennsylvania. Scranton, Pa., March 15, 1895.

Regimental orders No. 1. In compliance with special order No. 21, dated headquarters Third brigade, National Guard of Pennsylvania, Lebanon, Pa., March 12, 1895, an election will be held in the quarters of Company H, Thirteenth regiment, National Guard of Pennsylvania, for captain, to fill vacancy caused by the resignation of Captain William B. Rockwell, and to fill any other vacancy that may result from said election, on Tuesday, March 26, 1895, at 8 o'clock p. m.

Major George H. Whitney is hereby detailed to hold the above election, and make prompt returns direct to Third brigade headquarters.

By order of Colonel Ezra H. Ripple, W. S. Millar, Adjutant.

Headquarters Thirteenth Regiment, Third Brigade, National Guard of Pennsylvania. Scranton, Pa., March 15, 1895.

Regimental orders No. 1. In compliance with general order No. 6, adjutant general's office, Harrisburg, Pa., Feb. 28, 1895, the several companies of the command will be inspected by Major J. Ridgeway Wright, inspector, Third brigade, as follows:

Field and staff, non-commissioned staff and Companies A and B, Monday, May 13, 1895. Scranton City guard armory, 7:45 p. m. Companies C and D, Tuesday, May 14, 1895. Scranton City guard armory, 7:45 p. m.

Company E, Wednesday, May 15, 1895. Homestead, 8 p. m. Company G, Thursday, May 16, 1895. Montrose, 8 p. m. Company F, Friday, May 17, 1895. Hyde Park (Scranton), 8 p. m. Company H, Saturday, May 18, 1895. Providence (Scranton), 8 p. m.

Attention is called to general order No. 6, circular No. 1, adjutant general's office, and circular No. 1, current series, these headquarters, for instructions.

By order of Colonel Ezra H. Ripple, W. S. Millar, Adjutant.

of liver, kidneys, stomach, heart and the nervous system.

An effective remedy must first enter the blood to cure rheumatism. Local treatment for a constitutional disorder will do no good. Rheumatism, gout, blood-poisoning, scrofula, etc., are diseases in the blood.

Just why Paine's Celery Compound cures, while other remedies fail, is because all its ingredients effectually attack the system to rid itself of any poisonous humors in the blood.

Hundreds of cases have within this year been reported directly from persons, between the ages of 45 and 65, suffering from acute Bright's disease, who have been permanently cured by Paine's Celery Compound. It stops the gradual structural changes in the kidneys, restores their vigor and removes such alarming symptoms as the gradual loss of strength, pallor of the face, shortness of breath, pain in the back and sides, drowsy and a puffing condition of the skin. As a spring medicine it is absolutely without a rival.

Every overworked man and woman, reduced in strength, flesh and nervous vigor, will find a powerful restorative in Paine's Celery Compound. It is food for the brain and nerves. It sends new, healthy blood through the arteries. It makes people well.

Headquarters Thirteenth Regiment, Third Brigade, National Guard of Pennsylvania. Scranton, Pa., March 15, 1895.

Regimental orders No. 1. In compliance with special order No. 21, dated headquarters Third brigade, National Guard of Pennsylvania, Lebanon, Pa., March 12, 1895, an election will be held in the quarters of Company H, Thirteenth regiment, National Guard of Pennsylvania, for captain, to fill vacancy caused by the resignation of Captain William B. Rockwell, and to fill any other vacancy that may result from said election, on Tuesday, March 26, 1895, at 8 o'clock p. m.
