Working Effectively in the Interest of Industrial Pittston-Arrest of Alleged White Cap Recruits-Tramp Naisance at the Junction.

Special to the Scranton Tribune.

Pittston, March 17.—"Industrial Pittston is situated in the Wyoming valley, midway between Scranton and Wilkes-Barre, in the center of the anthracite coal field, has a population both sides of the river, of 25,000. In this practical age railroads and manufactories form the backbone of a city. Pittston has already five great lines of railroads, which, with several branches, is more than many cities of greater pretentions can boast. Within two miles of our business center are fifteen gigantic coal breakers, in and around which are employed about 5,129 persons, furnishing for shipment, daily, over 10,150 tons of best quality anthracite coal; and yet these operations are in their infancy. Manufacturers, to whom coal is transported at distant places, must soon realize that much money can be saved by removing their plants to this section, where the desired fuel is pro-The board of trade will render valuable assistance to all manufacturing plants desiring to locate in our midst .- F. H. Banker's Real Estate

The interest taken by Mr. Banker in the re-organization of the board of trade, of which institution he is acting as secretary, has been of an unselfish character. He has communicated with several parties wishing to come within range of our abundance of fuel and our railroad facilities, and has donated time from his private business to show such people the advantages and de strable location of our city. The above quotation is from his paper, which he distributes monthly.

Gymnasium Exhibition.

Thirty-three members of the Young Men's Christian association of this place, attended the annual gymnasium exhibition of the State Normal school, at Bloomsburg, Friday night. It was one of the largest events ever held at the school, and was largely attended by students and others. The Pittston class participated in the entertainment by rendering the fancy march and German dumb drill, in which they are very proficient. The most exciting feature of the evening was the basket ball game between the Pittston and Bloomsburg teams, which was hotly contested. Score, Pittston, 2; Bloomsburg, 1. Each half was to have been of fifteen minutes duration, but the home team having advantage of the timekeepers, prolonged the second half to thirty-five mintes in hopes of gaining another basket and deciding the game a draw.

The Tramp Nuisance. Our town is infested with tramps this winter, especially at the Upper End, mear the Junction. The boiler houses of the several shafts in that vicinity have made very comfortable winter quarters for the knights of the road, who have made themselves very troublesome of late. The city authorities will be able to make good use of all vagrants shortly, when the construction of our new sewer is to be commenced and the streets are to be graded for paving. Other cities make use of vagrants in such a manner and Pittston should not be behind the tim

Y. M. C. A. Basket Ball Game. The regular league basket ball game of the Young Men's Christian association was played last night between Wilkes-Barre and Kingston teams at Dymond & Lewis' hall, Kingston. The game was decided a draw. The teams succeeded in tossing three baskets each The standing of the league is as fol lows: Scranton won 3, lost 3; Pittston on 3, lost 2; Wilkes-Barre won 3, lost 2: Kingston won 1, lost 3. Chamberlain, S. D., March 17.-A ragedy occurred near the mouth of Willow Creek, which for humor and ouching pathos has yet to be equaled n the history of this section of country. Paul Medicine Body, a Sioux warrior, becoming tired of life and disgusted with the perfidy of the weaker sex, attempted spicide at the end of a rope, and his aged father brought the instrument of destruction to Fort derre, appealing to the coroner to go ut and "sit" upon the body of his son, who, he averred, was "much heap dead gulp a heap." As there was not sufficient evidence that the man was dead however, the coroner declined to go. On Oct. 20 last Paul Medicine Body

and Martha Head wended their way happily over the hills and down through the canons of Bad river to Fort Pierre. They were to be married and all the pent-up joy of sizzling love could be seen spreading itself over their swarthy features as they realized that the fruition of their hopes and desires was soon to be consummated. No more of the aimless life of a bachelor for Medicine Body. No more rude awakenings from long and blissful reams of hunting grounds, of fabulous wealth, to the dull, prosaic necessity of building a fire and cooking breakfast. The cobwebs which had accumulated in the apex of his tepee would no longer impede the blue smoke from his wigwam fire as it curled heavenward to be lost in the clear atmosphere of his beloved Dakota land.
