DANIELS CONTINUES TO LIE

Sticking Religiously to His Text, Although No One Believes Him, for He Runs Counter to All the Testimony in the Case-News of the Day.

Charles Evader Daniels is still at it Having unfortunately started out by telling falsehoods he is forced to conduct his case with a reckless disregard for the truth that must be very gratifying to the father of lies.

When Mr. Daniels denied that he told The Tribune representative that he wanted something for his own paper when asked for the resolutions, he knew that he told an untruth, just as well as the writer and a reputable resident of Bellevue, who heard him make the remark, do. As to the fairy tale about having left the document in the drug store it is one of the boldest assertions that could possibly have been

Mr. Daniels strikes out in his choser field of falsehood with a dash and vigor, which shows that he has a genius for that sort of romancing. It is a bit of good, cold nerve and bluff that is admirable in its way. But it won't do. At least five persons can testify that Mr. Daniels did not leave the resolutions in the place he says he did. This case has been thoroughly and impartially investigated with a view to ascertaining the exact facts. We were at first loath to believe that Mr. Daniels would wilfully pervert the truth, but our inquiries only proved beyond doubt or cavil that he not only lied in the beginning to cover up an act of selfishness, but has persisted in falsifying in order to make himself appear clean handed before the public.

With such a person The Tribune representative has no desire to have further dealings and be dismisses the erstwhile "star of hope" of this part of the city to the ignoble obscurity he merits, with the parting injunction to mend his ways. The world was not made simply to minister to his wants There are others who have equally as when the expansion of his cranium is a thing of the past.

Appropriate to the day was the sermon delivered at the late mass in St. Peter's cathedral yesterday. Rev J. H. McHugh, of the cathedral, was the celebrant of the holy sacrifice and Rev. P. J. Gough preached an eloquent and impressive discourse on the life and works of Ireland's patron saint, St. Patrick. The memory of this holy man is cherished not only among the Irish as the founder of their faith, but in the calendar of saints in the Catholic church, his works and teachings are held sacred and shine with luster and devotion.

Father Gough referred to the wide influence and great power for good wielded by St. Patrick and his disciples in Ireland at a period in the history of the world when all Europe was steeped in barbarism and the continent was disturbed by barbarous upheavals and invasions

In this turbulent condition of affairs the Gospel the light of Christianity dawned and the era of enlightenment began. History records how victorious St. Patrick and his disciples were in dispelling the dense clouds of barbarity that overshadowed the Eastern hemisphere. His disciples went from one province to another through the countries of Europe and by them the influonce and teachings of the saint were ex-

If he run it at sixty-five miles an hour, he is then only making up one minute in every thirteen miles, and if he runs at seventy miles an hour, he make up one minute in every seven miles. He is probably timed to make it necessary to do the ten miles about as fast as he can every day, so that trying to gain even a couple of minutes in this length is out

of the question. Again; if he relaxes the speed ten miles, say, to fifty, he is losing time at the rate of one minute in every five miles. Thus, from a speed of sixty an increase of ten miles only gains one minute in every seven miles, but a decrease of ten miles loses one minute in

The election for captain of Company H will be held March 26. For this posttion the only name mentioned is that of First Lieutenant Corwin. His election will no doubt be made unanimous Second Lieutenant Benjamin, it is said, prefers to remain where he is, so that, in all probability, Sergeant Huff will succeed Lieutenant Corwin.

For colonel no other name is mentioned but that of Lieutenant Colonel Coursen. His successor will be elected by the line officers, but when no one knows. The order will likely be published in a short time, calling an election. Major Mattes is in line of promotion to lieutenant colonel, and it is not believed that Captain Barnard will oppose Mattes in the election, as they are good friends, and Captain Barnard aspires to be major. It is also true that should Captain Barnard oppose Major Mattes his own chances for election to the office of major would be somewhat weakened, for in that case, Captain Chase, Captain Stillwell and Captain Fellows will make an effort to capture the position.
