OUR FIRE ALARM SYSTEM. complaints About the Difficulty of Send-

Numerous complaints have recently been made to the chief of the fire department concerning the key service in onnection with fire alarm boxes. It is claimed that in many instances, particularly at night, and in the business districts, too, alarms are carried to the fire company houses or sent in by telephone before the alarm is sent from a

This state of things has for some time received the consideration of fire department officials and it is probable that a new style of box will be considago Chief Ferber conceived the idea of taining the location of keys. These

were to supplant the present antiquated Later, however, it was decided that the new key notices would not offset the difficulty in some instances in securing keys, and then the fire department officlais conceived the probability of adopting a new style of box for the business district and which can be operated without the use of a key. Meanwhile the matter is resting and it is not likely that anything tangible will come of it until available means of appropriation is found.

A TRIBUTE OF SCIENCE

Synopsis of a Most Remarkable Lecture Delivered Before the Ninth Medical Congress, by Dr. A. L. A. Toboldt, of the University of Pennsylvania,

"The famous fountain of health at Carlsbad, in Bohemia, which has been the refuge of invalids for five centuries, is certainly well worthy of a careful study. My experience with this remedial agent has been such that I may truly say that no remedy which I ever employed has given me so much pleasure and profit as this particular one. Selecting a number of chronic hypochondriacs whose afflictions have baffled all my previous efforts as my subjects, I was truly astonished to note that, although no rigid diet was prescribed, and only a limited amount of exercise was indulged in, I obtained most remarkable results—the complexion, even after a week's use, began to clear up, the step became more firm and elastic, and, what was more, the entire host of hypochondriacal complaints seemed to vanish like mist."

Mr. C. W. Campbell—Dear Sir: I have given my boy, Freddie, 7 years old, some of Dr. Campbell's Magic Worm Sugar and Tea, and to my surprise this afternoon about 2 o'clock he passed a tapeworm measuring about 35 feet in length, head and all. I have it in a bettle and any person wishing to see it can do so by calling at my store. I had tried numerous other remedies recommended for taking tapeworms, but all failed. In my estimation Dr. Campbell's is the greatest worm remedy in existence.

Yours were respectfully.
