Weak Nerves

Indicate as surely as any physical symptom shows anything, that the organs and tissues of the body are not satisfied with their nourishment. They draw their sustenance from the blood, and if the blood is thin, impure or insufficient, they are in a state of revolt. Their complaints are made through the nervous system, and the result of the general dissatisfaction is what we call Nervousness.

HOOD'S Sarsaparilla

This is a concise, reasonable explanation of the whole matter. The cure for Nervousness, then, is simple. Purify and enrich your blood by taking Hood's Sarsaparilla, and the nerves, tissues and organs will have the healthful nourishment they crave. Nervousness and Weakness will then give way to strength and health.

That this is not theory but fact is proven by the voluntary statements of thousands cured by Hood's Sarsaparilla. Read the next column.

were arrested on Saturday on the charge of selling liquor without a license at Lake Popponoming last summer. An exciting runaway occurred on Monday morning at the near approach to the bridge, when a lady in a carriage lost control of her horse, which was traveling at the Stroudsburg Passenger railway's "dummy." The horse reared and plunged and finally made a lunge to one side, and started on a lively gallop up the sidewalk. The walk was lined with trees and electric light poles, and the accident might have been a costly one had not Daniel Callahan, of the Metropolitan Life Insurance company, of East Stroudsburg, seen and pluckily caught the infuriated animal. By so doing he ran the risk of his life, as he was wedged in between two trees and could not turn either way. The lady was not hurt, although badly frightened, but the buggy was broken in several places.

The services in the East Stroudsburg Methodist Episcopal church on Sunday evening were of a very interesting nature and were conducted by the Epworth league of the church.
