RUSSIA JOINS WITH JAPAN

Very Important Political 'Alliance Believed to Have Been Made.

IS A BLOW AT GREAT BRITIAN

The Mikado May Now Dictate Terms to China Whether John Bull Likes Them or Not-War Feeling Runs High-

New York, March 24.-A special from Yokohama says: From officials of the state department it is learned that Japan has decided on peace, although military and naval preparations go on as though the original plan of marching on Peking were still unaltered. Both the Emporer and Count Ito fear the effect of any announcement that the government is willing to grant peace. The common peole are still insane over the war, and they will be satisfied with nothing short of the Mikado dictating terms of peace at Peking.

The most important recent occurrence here is the alliance between Russia

and Japan. The terms of this compact cannot be given definitely, though they are, broadly, that Russla will not oppose any cession of Chinese territory to Japan and that Japan, in return, will permit Russia to occupy one Corean port, with right of way to the trans-Siberian railway, and the use of Japanese dockyards and coaling stations. If this alliance has been formed, as good authorities believe, it puts Japan in position to defy England, and refuse any British suggestion during peace negotiations.

LI HUNG'S NARROW ESCAPE.

A Would-Be Assassin Vainly Snaps a Pistol in flis Face.

London, March 24-The Central News correspondent in Tokio says that an attempt was made to assassinate Ll Hung Chang in a street of Simonoseki this afternoon. Li was returning from the peace conference, in which he conducts negotiations in behalf of the Chinese mission, and was accompanied by several of his suite.

When he was a short distance from his apartments, a young Japanese ran up to him and fired a pistol in his face. The young man was seized and disarmed at once by the police. At the station house he gave his name as Koyama and his age as 21. According to the short report received in Tokio, LI's wound is not dangerous.

There is no such wall between the churches, either in a special or a refall. ligious way, in America as there is in England.

The difficulty in the United States is in their new and mixed population. The enrollment of a million tramps in a great and distinct army, and a host of criminals, all working in colonies under the Salvation army plans, is one of General Booth's remedles for the evils he seeks to eradicate.
