Most of the Work of Tuesday Had to Be Undone Yesterday.

THE BILL AS IT NOW STANDS

Retail Liquor Dealers Want Brooks Law Amended So That License Charges May Be Graded and Official Inspection of Saloons Assured.

Special to the Scranton Tribune.

Harrisburg, March 27.-The house took a step backward today on the Quay county bill. The amendment carrying with it the creation of Monongahela county, which was inserted yesterday, was stricken out and the vote reconsidered by which the bill passed second reading. This sudden change of front on the part of the people interested in the movement for more counties is attributed to their apprehension of the defeat of the Quay county bill, in the form in which it passed second reading. Many members who were friendly to the bill in its original form refused to support it as amended, and there was nothing left for its friends to do but change it or run the risk of defeat, and they choose

the former. The bill was taken up at noon on a special order for third reading. Mr. Jeffrey, of Luzerne, who has the measure in charge, moved to go into committee of the whole for the purpose of striking out the amendment. Mr. Schurwz, of Monroe, raised the point that an amendment inserted in second reading cannot be eliminated on third reading, and was sustained by the speaker. Mr. Jeffrey then moved to reconsider the vote by which the bill passed second reading. This was adopted and then a motion prevailed to strike out the amendments. The opposition the Quay county movement objected and demanded a vote. This was taken April 28, 1874, which have since accepted the provisions of said act; providing for the provi The bill then passed second read-

Bills on second reading was the order today in the house. One of the first bills reached on the calendar was the Cotton measure taxing building and loan associations 4 mills on their prepaid stock paying a dividend. Almost the entire morning session was devoted to consideration of the proposition. The friends of the domestic associations, under the lead of Mr. Clarency, of Philadelphia, made a strong fight against it, but it went through by a vote of 78

The amendment to the Brooks act provides for the appointment of inspectors, whose sworn duties will be to ascertain the amount of sales in their respective districts, the salaries of the inspectors to be paid out of a fund provided for by those engaged in the liquor business. The license fee in cities of the third class is fixed at \$350.

WORK OF THE HOUSE.

Opponents of Quay County Wasted the Day in Filibustering.

Harrisburg, March 27.-The house met at 10 o'clock. By unanimous consent the congressional apportionment bill was read in place. The bill amending the oleomargarine act of 1885 passed second reading. It provides that onehalf of the fines to be collected shall go to the department of agriculture for use by the dairy and food commission in enforcing the act. The bill repealing

Within a Week a Dictatorship May Prevail in Old Madrid.

GROVER DECLINES TO PROD 'EM

Since Spaniards Are so Unsettled, He Will Not Pursue the Allianca Incident with the Engerness That First Seemed to Prevail.

Washington, March 27 .- Official advices this morning indicate the possibility of a coup d' etat in Spain before the close of the week. It is believed that the queen will within a few days issue a decree dissolving the chambers, and that this will be followed by a coup d'etat on the part of the military, which will result for the time, at least, in a practical dictatorship. This movement, it is believed, will be headed by General Campos, who reflects the prevalent military hostility to the editors of the Madrid papers, which recently so severely criticised both the

army and the navy. If the coup d'etat should be effected, it will be probably followed by the withdrawal of the Canovas ministry from power. In these circumstances the state department is not likely to hear from the Spanish foreign office re garding the Allianea incident for some

The only news obtainable at the Spanish legation regarding the Allianca is that the naval commander at Havana is at present engaged in taking the affidavits of the crew of the gunbout Venedito, with a view to incorporating them in his report, which he will make to the Spanish government. Cubon Insurrection Rising.

Madrid March 27.-The latest dispatches from Havana have alarmed the government, as they indicate that the insurrection is spreading rapidly and is already beyond the control of the local commanders. The decision was made last night, therefore, to send Martinez De Campos to Cuba with embark with him. He will start probably on April 2. The torpedo gunboats Filipinas and Martin Alonzo Pinzon and the cruiser Castilla have received orders to proceed with all possiole speed to Cuban waters.

The publication of this news, which completely contradicts the former sanguine dispatches from official sources, has caused keen excitement here. It is announced this evening that Primo

CAUSED THE DEATH OF BAHEN

to Injure Georgetown Players in the Thanksgiving Day Game. Bohen's Injuries the Result.

Special to the Scranton Tribune. Washington, March 27 .- The co ners' inquiry into the death of Halfback George Bahen resulted in a verdict to the effect that death was the result of foul play, and the jury recommended the indictment on the charge of strong reinforcements. Today it is re-ported that 9.700 additional troops will club players whose names have not as manslaughter of Columbia Athletic yet been divulged.

The faculty and student body of Georgetown, in conjunction with Bah-en's relatives, had made all arrangements for the funeral services to take place today. Before the remains could be conveyed to Richmond, where interment is to take place, Coroner Hammett ordered a postponement of the funeral and proceeded to hold an inquest at 3

o'clock today. A number of witnesses were ex-amined, the most important of which were Aifred B. Leete, the Columbia player, who played opposite to Bahen in the Thanksgiving Day game. He admitted having knocked Bahen down in the fatal scrimmage, but claimed that it was the natural result of a collision, and that no foul or rough playing was

Damaging Testimony.

This opinion was dispelled however by witness, who stated that neither Mahoney nor Murphy were anywhere near Bahen when the scrimmage ended. Murphy retained his feet throughout and Mahoney, who had the ball, was downed fully fifteen yeards to the left of where Bahen was lying. It is evident from the verdict that the coroner's jury placed great stress upon the testimony to the effect that Bahen received a kick in the back after he had been knocked down.

The testmony of Robert G. Dill. ir. a newpaper man, and others, that they had heard it stated that the Columbia men would lay up Carmody, Mahoney and Bahen, also had a weighty influence on the jury inasmuch as these men were the first of the six Georgetown men who were badly injured in

Last week she made her apearance in the bloomer costume and if Lady Godiva had herself essayed a repetition of her famous ride the sensaion could not have been greater.

The town came forth to gaze and for the moment the policemen were petrified with amazement. Then they roused Colonel C. M. Braxton, had a hair- to action and Miss Ethel received an official visitor who informed her that a repetition of her appearance in the objectional costume would mean a police court summons on the charge of creating a disturbance on a public street Miss Delmont's bloomers are discarded.
