THE GORDON IMPEAGHMENT

Mr. Martin Tainks Every Citizen Has a Right to Be Heard.

MEMOFIALS ON WALTON'S DESK

Creasy Bill Is Negatived by the Railroad **Committee of the House-Griggsby** Telephone Bill Placed on the Calendar-Other Business.

Special to the Scranton Tribune. Harrisburg, March 29 .- The petition of James W. M. Newlin, of Philadelphia, to impeach Judge James Gay Gordon, was referred to the judiciary general committee of the house this morning. The justice is charged with holding secret court in violation of the bill of rights. Mr. Newlin was the only signer, and the petition has gone to its long sleep. Mr. Martin, of Lawrence, introduced the petition. He says he did it because he thinks every citizen has the right to petition the legislature, and that an attempt was being made to shut out Mr. Newlin. The Philadelphia members take no stock in the complaint against Judge Gordon

Speaker Walton's desk was piled high memorials. Mr. Penniwell, of Philadelphia, presented one signed by 20,000 Pennsylvania asking for the passage of the bill to establish a homeopathic hospital for instane. There were stacks of petitions from the Granges of the state asking for the passage of the new revenue bill framed by the state tax conference. Chairman Riter, of the way and means committee, was granted use of the house chamber for Thursday evening, April 11. Members of the tax conference will at this time explain the provisions of the bill to the legislature. It is thought the bill will be reported out of committee. but it has small chance of becoming a law unless there is a resolution of senti-

The Sweat Shop Bill.

Mr. Focht, of Union, secured a special order for the Baker "sweat shop" bill. This measure has already passed the senate. It provides for eight deputy factory inspectors, and is backed by the administration. Factory Inspector Campbell will not make any appoint- the next congress and his own advancments until this bill is disposed of.

The bill introduced by Mr. North, giving cities the right to furnish natural filled with so much credit, but he has ras to its citizens for heat and light, intimated a desire to do so.. Senator was negatived by the house municipal corporations committee.

Several attempts were made to ad- successor of Mr. Morrill. journ the house until next Wednesday ing. The members could not afford to party as much as possible.

their work. There are now 1,135 bills silver men will designate Don Cameron. or 12, as he has important private busi-on the senate and house calendars, of Pennsylvania, as the extra Republi-ness demanding his attention. The average number of bills passing can to take the place of the Democrat

made nightly attacks, exposing and denouncing gamblers and saloonkeepers, and openly charged the mayor and the police with dereliction of duty and in turn were denounced by Mayor Beck. Tonight the mayor ordered a court of inquiry and had all the ministers served to appear and tell under oath what they

REICK MURDER MYSTERY.

know about violation of law.

the

Four Men Suspected of the Crime Are

Held to Hail. Wilkes-Barre, Pa., March 29.-The mystery which has surrounded the murder of Barney Reick is now fully cleared. James Fisher, the last of the suspects, has been held for trial as a result of the testimony given at the hearing this morning. A stepdaughter of the murdered man testified that she

recognized Fisher an hour before the murder. Policeman William Bauer also testified that he found Reick dying in railroad after the assault, and brought him home in an ambulance. On the way home he asked Reick if he recognized any of his assailants, and Reick replied: "Yes, Jim Fisher induced me to leave home and go to the railroad yard, where he and three others assaulted me." The four men suspected, Hendricks,

Robinson, Kearney and Fisher, are now held without ball, and it looks as if two, at least, will swing for the crime, It also seems likely that the arrests of these four men will break up an organized gang of thugs and thieves in and about this city.

SENATE FINANCE COMMITTEE.

Senator Morrill's Wishes Will Probably Be Consulted as to the Future Chairman

Washington, March 29 .- It is quite likely that the finance committee of the senate will be reorganized and a new chairman selected when that body again meets, but this reorganization, it is contended by the friends of Senator Morrill, the ranking Republican and former chairman, will not be made in opposition to the wishes of the Nestor of the senate, who has for so many

years served on that committee. It is said by senators who are in a position to know the facts that Mr. Morrill, appreciating the onerous duties that will devolve upon the chairman of the finance committee during ing years-he is now 85-is not only

willing to retire from the place he has Sherman, once before the chairman of this committee, will probably be the

SPAIN IS NOT DANGEROUS Has Her Hands Full with a Full-Blown Revolution.

NO DESIRE FOR FURTHER WAR

Minister Will Investigate the New Allianca Affair-Attitude Towards the United States Is Peacoful. Revolutionists at New Orleans.

Washington, March 29.-The Allianca incident is regarded as almost as good as closed. The assurance of the Spanish government that they are acting in good faith, and that the delay in making apologies for firing on the Americau flag is due entirely to the necessity of making an investigation, coupled as it is with the rolief of the officer com manding the Spanish war vessel, which committed the offense, is accepted as sufficient to warrant this government in waiting patiently for the expected reparation. The fact that Spain has her hands full in dealing with the Cubian rebellion is assurance enough that everything possible will be done to avoid trouble with the United States. Much gratification is manifested in

official circles here. Although the state department officials decline to admit the fact, there is reason to believe that to them, either through United States he had,

Minister Taylor at Madrid or through Senator Murugua, the resident Spanish minister here. There is now no disposition in any quarter to doubt that the Spanish assurances are satisfactory as far as they go, and the incident has already passed into a phase where it

will yield to adjustment by the ordinary methods of diplomacy. The instruc-tions reported to have been sent to the Spanish naval commanders indicate that the Spanish government has not yet accepted the doctrine laid down in the United States note as to their lack of jurisdiction within the shore waters

in cases of foreign vessels plying on their established routes, but it is believed that this may be safely left to further discussion and that meantime the Spaniards will do nothing further calculated to force a decision on this issue

Commander's Acknowledgment. Among diplomatists here the relief of the Spanish commander is taken to be an acknowledgment that he was in error and as a step toward the reparation Spain is to make. There is little doubt that the new

Spanish minister, Senor De Lome, will go to Cuba before coming here. The effect of this will be to leave Spain without a minister in the United States after the next two weeks, for Muruaga adjourn, as they are so far behind in It appears now to be settled that the has determined to leave about April 10

ness demanding his attention. The new minister could not reach here by

thousands of revolutionists are about to leave Florida for Cuba. It is said, however, that actual enlistments are now being made in New Orleans. From the Spanish stanpoint the insurrection has been recognized as existing, and reports concerning it have been made to the state department. But the Spanish government, it is declared, does not intend to carry this recognition to the point of proclaiming a rebellion to be in existence, as this would be a step toward recognizing the insurgent cause for Cuba's independence. It is claimed also that the state department has in effect recognized the existence of an insurrection, as it has invoked the on-

eration of the protocol of the Spanish treaty, which protects American citizens in Cuba, charged with sedition, treason or conspiracy, against trial by martial law. It is rumored that the Cuban revolu

tionists have made indirect efforts to have the United States recognize them under the law of nations as belligerents. The report is based on the statement that a prominent revolutionary sympathizer is now in Washington and one of the most noted leaders of the revolt is said to have been here not long age done more than urge the justice of their cause on senators and members of

congress and certainly there is no present prospect of the grant of any such recognition.

SLEPT IN A COFFIN.

Mrs. Resch, Aged 100 Years, Buried in the Casket Used as a Bed.

Oshkosh, Wis., March 29 .-- The body of Mrs. Resch, for many years an eccentric character of this city, was buried yesterday in the cemetery near the poor farm. The old lady was an odd character. She had attained the age of 100 years

The most peculiar of her eccentricities was that of sleeping nightly in a coffin. Twenty years ago she pur-

chased a casket and at her own request she was buried in it after she had used it a score of years for a bed.

DEAD MAN AS A JUROR. He Is Fined \$40, Although Drowned Many

Years Ago. Chester, Pa., March 29 .- At the present term of court the name of Thomas per cent., payable April 20. D. Platt was drawn as a puror. During a trial he was called, and not responding, Judge Clayton ordered that he be tined \$40. Darrah, who has disappeared,

The fine cannot be collected, as Platt has been dead ten years, having been drowned in the Delaware river.

Tonight

more encouraging this week. It is a remarkable feature that the lifting this year begins at the bottom, so to speak raw materials are raised before there is any larger demand for their finished products, a thing not often done with success. Hides rose, then leather, and then shoes; cotton rose, and afterwards some cotton goods; coke was advanced and afterward Bessemer plg. In all these cases it is reasoned that the large demand for consumption, though yet wanting, must come until it is seen that prices are going up. Higher wages

for coke workers have been followed by a formal advance of 40 cents in the price of coke, and now Bessemer pig has rison 35 cents at Pittsburg and 25 at Philadelphia. Beginning at the bottom to life prices requires exceptional strength, but the Carnegie-Frick interest is exceptionally strong. So far, there is no answering increase in demand or in prices for manufactured

products, and on the whole the range is slightly lower than a week ago, angles and common har having vielded a little When luncheon was served, Mrs. The general belief is that dear materials will kindle more buying of products As yet it seems impossible to fill the mills with orders, and the struggle of those yet unemployed keeps prices down Stocks are stronger, for the first time

in many months with a valid reason. The rise has been slight, but earning in March have been 1.9 per cent. larger than last year, and only 11.6 per cent. less than 1893, with improvements toward the close of the month, while in February the decrease compared with 1893 was 15.2 per cent. Rates for money are higher, as usual just before April 1, and the commercial demand is somewhat larger.

> Failures for the week have been 234 n the United States against 238 last year; and 42 in Canada against 30 last year. The recent increase indicates past rather than recent conditions of unsoundness.
