MONTROSE.

Colonel James P. Taylor, of the Independent Republican, is in Wilkes-Barre. James Doyle, formerly of the Montrose house, went to Scranton as day clerk at the St. Charles hotel, which is now being conducted by T. C. Melvin. The Farmers' Alliance and Industrial union held an oyster supper at the residence of Appollis Stone on Saturday evening last. The receipts were very gratifying to those interested, as a large number were in attendance. John Howell shipped over 100 veal calves to New York on Monday and today will endeavor to make a like shipment. Prices ranged from 3 to 4 cents per pound, live weight.

John S. Courtright has returned from Scranton. He is assuming a decidedly dignified manner since his admittance to practice in the United States court. Sap is running fairly well and already the product of some of the sugar bushes is to be seen in the markets. Maple syrup will average about 75 cents per gallon.

The Montrose cheese factory, operated by Santoro Bros. & Luca Petrolino, is in full blast. Mr. Petrolino told a Tribune correspondent that they expect to do a larger business this year than ever before.

The subject of electric lights in Montrose is intermittent. Occasionally a loud yawn is heard, but it dies out as quickly as it came. The subject is one which could be easily solved one way or the other. Electric lights will never come by sitting down and like McCawber, wait for them to turn up.

Someone recently passed a counterfeit paper dollar on one of the merchants of Montrose; it is one of the Martha Washington series of 1891. Its number is E 3641766 E, and is an excellent reproduction of the genuine bill. Save that the left eye in the vignette droops considerably lower than in the original. People should be on the look-out for dollar bills bearing this or a like number, and examine them carefully. The imitation is very similar to the \$2 Stanton certificate counterfeit, which was current three years ago.

Appropriately of the electric light for Montrose comes the fact that a new gas has been discovered, the virtues of which are manifold, and even if Ira E. Miller, of Elmira, is here trying to get the town council to purchase a plant for the borough, it will undoubtedly end there and we will wait for gas.

Professor Ratcliff, of the Binghamton Conservatory of Music, is in Montrose. The preparations for the production of the comic opera, "The Pirates of Penzance," will soon be started under his direction. The opera will be given by local talent and under the auspices of Hook and Ladder company No. 1.

It was a great success, many lingering until old Sol broke the dawn of another day.

The new move of the Summit Methodist Episcopal church members, of withdrawing with Chinchilla and forming a charge by themselves, and having a resident minister, leaving Waverly and Clark's Green as a separate charge, is meeting with favor.

The entertainment of the Clark's Green Epworth league was as well patronized as the weather would permit, and was enjoyed by the few who aim to replenish the treasury and keep up the interest of the league. An interesting programme was rendered.

That Tired Feeling

Is a certain indication of impure and impoverished blood. If your blood could always be rich and pure, full of the red corpuscles upon which its vitality depends, you would never be weak, or Nervous! Boils, pimples, scrofula, salt rheum, would never trouble you. But our mode of living, shut in all winter in poorly ventilated homes and shops, depletes the blood and there is loss of appetite, and weakness. Hood's Sarsaparilla is the standard remedy for this condition. It purifies, vitalizes and enriches the blood, overcomes that tired feeling, builds up the nerves and gives perfect health. Read this:

"Our daughter, Blanche, when four years of age had a humor break out on her hands and face, which our physician pronounced eczema. If the cold air reached her face or hands they would swell up, look almost purple, and headed blisters would form and break.

Discharging a watery fluid, and the burning and itching would drive her nearly wild. Unless we incised her little hands she would tear patches of skin from her face and hands. We tried many doctors and many remedies and at last gave the case up as hopeless. But our daughter Cora tried Hood's Sarsaparilla, to cure a scrofulous lump near the left breast which caused her much pain and after taking 4 bottles it disappeared. Blanche, who is now eleven, had spent seven years of suffering, so I concluded to give her Hood's Sarsaparilla. She took 5 bottles and her face is smooth and soft as a baby's, the color of a rose petal. Her hands are soft and white, where four months ago they were blue and red and calloused nearly like leather. I cannot express my gratitude by pen or mouth. It seems a miracle and our friends are surprised." Mrs. ANNA L. CLARK, 401 E. 4th St., Duluth, Minn.
