## Tired, Weak, Nervous

Hood's Sarsaparilla Restores Strength and Bodily Vigor. The cause of that tired, weak, nervous condition in which so many people find themselves, is the failure of the blood to properly nourish the nerves and tissues. Feed the nerves upon pure blood, and they will be steady and strong. Read this: "It is with pleasure that I recommend Hood's Sarsaparilla as an excellent nerve tonic and blood purifier."

Mr. C. H. Venable I have taken it, Keittsburg, Ill. more than once and am glad to say, now, I was tired, my body ached, and I felt very badly all over. I was afraid I would be sick. Remember That All Our Piece Goods Are Being Closed Out at Practically What We Can Get For Them.

## IS IT THE END?

A Time of Great Mortality. Especially Noticeable in Children.—Will Man Cease to Exist?—Can the "Omega" be Averted?

Why is it, with our improved sanitary appliances, our care to obtain fresh air, pure food, and plenty of exercise, the observance, in fact, of every hygienic law, that in spite of every care each succeeding generation seems to become weaker and shorter lived? Is it that we are now suffering for indiscretions of our ancestors, or is that terrible, unknown end of man at hand?

Whatever the cause, the existing condition of things is too apparent. Especially is this noticeable with the babies. Instead of the mother's life-giving milk, they are compelled to begin a struggle for existence with the bottle. The result in many cases is disastrous. The little one, failing to obtain necessary nourishment, grows weaker daily, until death ends the struggle. The end in these cases is Simply Starvation.

With this termination so often the case, the best physicians of the day have resorted to the use of Bovinine, that great and original raw food product, as a means to save the babies.

In this connection Dr. A. B. Robinson, 61 Dudley St., Boston, after commending Bovinine most highly for various complications where the waste of disease must be checked, and new blood, flesh, and strength created to effect a cure, says concerning this life-creating preparation, "With feeble, bottle-fed babies, a small amount added to the milk has in my practice saved many children."

Bovinine is not a medicine, but a life-maintaining, flesh, bone, and blood-making preparation that contains the greatest amount of nourishment in the least possible bulk.

Give it to the little ones while there is still hope. Your physician, if you ask him, will recommend it, and you will bless the results obtained forever.
