Belief That Ho Has Been More Sinned Against Than Sinning-Rev. Edward Kennedy Placed on the Retired List-Resolutions Adopted.

Great Interest was shown yesterday at the Presbytery in the case of Rev. Carl L. Weisswasser, which was tried by the judicial commission. Early at the morning session Rev. Charles E. Robinson proposed that Rev. F. Von Krug be chairman of the commission, and that Rev. Charles Lee, of Carbondale, Rev. N. G. Parke, of Pittston, and Elder G. W. Phillips, be added to the commission in the place of Rev. Charles E. Robinson, Elder J. E. Burr and Judge Jessup, who were unable to be present throughout the hearing. The mmission retired at 11 a. m. to consider the papers, and at 4 o'clock were still in session when the Presbytery was ready to adjourn. In as much as there was probability of the commission reporting before the adjournment the Presbytery decided to invest the commission with final powers and to pro-

nounce judgement in the case. During the first few hours of the session the members of the commission were engaged in considering the papers FUNERAL OF CHARLES LEBER relative to the case which had been handed them by the judicial committee in order to ascertain if there was any probability of the charges being true. Having perused the papers it was deeided that Mr. Weisswasser be heard, In addition to his evidence, Mrs. Weisswasser and Miss Welsswasser were called and their statements heard.

Members of the commission, when asked as to the result of their deliberations, replied that they had not arrived o'clock yesterday afternoon. Services at any decision in the matter, and it was improbable that they would do so for some time. Under the rules of discipline Mr. Welsswasser cannot be renstated for a period of six months, and it is more than probable that the commission will not announce any deision which may be made until the

The Ladies' Home Missionary society reported thirty-six societies and twenty-eight bands with a total contribution of \$7,497. The following votes of thanks were passed on the motion of permanent secretary Rev. R. B. Webster:

"in closing the delightful and profitable sessions of this body, the members of Presbytery hereby express and record their appreciation and gratitude to the committee of arrangements for their complete plans for the devotional. business and popular meetings; to the committee on entertainment; to the families, whose generous and cordial hospitality have been enjoyed by our delegates; to the organist, soloist, and choruses for their acceptable services in the popular meetings; to the trustees of this church and congregation, for the use of their house of worship, which, under the hands of the sexton has been made and kept so comfortable for all

our sessions; and to the press for their full and excellent reports of our pro ceedings." The resolutions were carried by a rising vote, and the Presbytery adjourned

MR. THOMAS FIRMLY OBJECTS

Action on the Matter Postponed-Many Appointments by the Mayor Confirmed-Ordinance to Regulate the Speed of Street Cars.

It required nearly an hour and a hall last night for select council to con sider an amount of business large for so recently organized a body. Excepting an ordinance granting a franchis to the Interstate Telephone company, which is reported more fully in another column, and an ordinance establishing a grade on Swetland street, no meas ures of particular importance were con

sidered. Something must be done to start "the The Swetland street grade ordinance wheels" going again, as it were. The created considerable discussion and was not definitely settled. After it was called up for third reading Mr. Thomas spoke against its passage and succeeded in defeating it. He said the grade resort to decided upon was too steep for practi cal use on so important a thorough

fare as the approach to the Linder street bridge, and claimed the grade had been established through the fear of damages to one concern, the Robin son Brewing company. He said the grade, if adopted, would be steeper than West Lackawanna avenue.

Mr. Roche denied Mr. Thomas' las statement and said that the grade would be less than 7½ per cent., and the only incline available under the surface onditions of the locality. After de clining to adopt the grade according to the ordinance and the city engineer's plans attached, the meeting was suc cessfully urged by Mr. Sanderson to agree to a reconsideration. It was then decided to postpone action until the next meeting.
