The Bell telephone won a decisive vicory in the house at the morning sesion by blocking the passage of the frigsby bill regulating the charges of elephone companies. The measure fixes the rate of charges \$30 a year for private service, and \$38 for business ouses. Two similar bills have been killed in the senate, but the Grigsby bill has been gradually advanced in the house to third reading calendar. When it was reached this morning Mr Fow moved that it be indefinitely postponed. A long discussion followed, during which Mr. Penniwell, of Philadelphia, and others claimed the telephone monopolies was one of the greedlest in

Mr. Fow was the only defender of the bill. His motion to postpone indefinitely was defeated and a motion to postpone for the present carried. This practically means the death of the bill, as it is not likely to reach the senate at this late day in the session, even if it

Shortly before the close of the morning session Mr. Connell, of Lackawanna, sprung a motion to reconsider the vote by which the Quay county bill was defeated yesterday on final pas-sage. Afternoon Session. The house met at 3 o'clock this after-

Mr. Burrell, who had the floor at the time of the noon adjournment, stated that the friends of the new county bill tried to have the motion withdrawn, but those who made it declared that they would fight it out on this line if it took all the afternoon. He then asked the house in fair play to the friends of the bill who were absent on a sad occasion at this time attending the obsequies of their friend and colleague, the late Hon. M. B. Lemon, to postpone action for the present. Mr. Connell stated that his motive in making the motion to reconsider was honest. Mr. Shrink, Schuyl-kill, alleged that the friends on both sides of the bill were being coaxed along by lobbyists who had pet bills in the house, and if he bill was killed now that lobbying would cease and all members would be privileged to vote as their conscience dictated.

A guaranty by the United States is not regarded as essential under the foregoing circumstances.

The final proposition, as now concluded between Nicaragua and Great Britain, will therefore be as follows: evacuate Corinto and withdraw her fleet. Nicaragua agrees to pay the £15,000 in London, fifteen days from the sailing of the fleet out of Corinto harbor. According to these terms, the fifteen days do not begin to run until the actual sailing of the fleet. The latter feature was insisted on by Nicaragua as a means of checking popular agitation, and as a step toward maintaining her dignity.
