An American Silver Policy.

Mr. Cleveland has issued another proclamation in behalf of "sound money," and in this document, as in former ones, he unfortunately omits to explain what he means by that phrase.

Fortunately, Mr. Cleveland's controller of the currency, James H. Eckels, like the secretary of agriculture, Mr. Morton, is not so much given to speaking in delphic generalities.

That Philadelphia Investigation. A large number of the foremost citizens of Philadelphia, feeling that the public interests were not receiving proper attention from the municipal council.

It is exceedingly unfortunate that the present legislature cannot see its way clear to the institution of the first stages of road reform.

The party which wanted, with Grover Cleveland's consent, to restore the "wildcat" state bank currency of the past is a poor party to pose as the present champion of "sound money."

THE NEW WOMAN. O, the Twentieth Century Girl! What a wonderful thing she will be!

Why? The important information is vouchsafed by Walter Wellman in a letter from Washington to the Chicago Times-Herald that "President Cleveland and Secretary Gresham are firm and enthusiastic believers in the Monroe doctrine, and at the first moment they believe that doctrine to have been violated they will act in a manner fully satis-

factory to the most enthusiastic friends of American institutions." This recalls the old couplet: "Perhaps you did well to disassemble your love, But why did you kick me down stairs?"

Time to Clean Up.

Dr. Allen was justified the other evening in calling the attention of the board of health to the unsanitary condition of numerous vacant lots within the city's limits, and the board very properly decided to request the chief of police to bring the offenders to book.

Those who have had occasion recently to visit the base ball park will recall the pungent smell which arises from one of these vacant lots situated alongside the road just west of the river. It is not possible to believe that such a smell can be conducive to health.

because of his advocacy of prohibition views would have more force if it were proved that all ministers in the Wyoming conference who hold similar views had been similarly treated. It is suspected by many that the trouble with Mr. Hogan is not what he thinks, but the offensive and uncharitable manner in which he often speaks and writes concerning those who differ from him in opinion.

Secretary Atherton, of the board of trade, in receipt of a letter from the commissioners of Washington, D. C., with a copy of resolutions passed by them under date of January 21, which makes it obligatory upon all street railway companies at that city to place a certain style of safety "lock up" fence on all cars operated by them, on or before April 1, 1895, under a penalty of \$25 per day for each car not so equipped after that date.

The opening of the superbly-equipped Moses Taylor Hospital to the public at the actual cost of the service rendered is a fortunate forward step by the institution's management. Now if some liberal citizen should wish to provide a fund endowing a number of these public beds, thus freeing them to the public absolutely, would it conflict with the terms of the original endowment?

General Kerwin, Mr. Platt's representative on the Gotham police board, refuses to comply with Mayor Strong's request that he resign. He bases his refusal largely upon the ground that since Mayor Strong was "elected as a Republican by Republican votes"—both of which premises are untrue—it is the mayor's duty to retain such Republicans in office as Mr. Platt dictates.

The Washington correspondents are in the field with cabinet deals for 1897. One story, printed yesterday, represented Governor McKinley as offering one cabinet portfolio and all the New York patronage to Thomas C. Platt in exchange for the support, next summer, of the New York delegation. It does not require a large experience in politics to convince any intelligent newspaper reader that this story is utterly absurd.

Mr. Cleveland's letter to Governor Stone, of Missouri, on the silver question, contains the threat that he will dismiss all federal officials who do not shout and work for his particular scheme of "honest money." But inasmuch as nobody yet knows authoritatively just what his agent's particular scheme is, it is probable that few heads will fall.

It is announced that Theodore Roosevelt has senatorial ambitions. As a senator from New York he would be a decided improvement over the Hon. Edward Murphy, Jr., of the brewing firm of Murphy & Co., Troy.

A specific explanation by Mr. Cleveland of his own idea of "sound money" would clear the murky political atmosphere like a lightning flash. But thunderous generalities only augment the prevalent perplexity.

CONGRESSIONAL CHANGES.

Under the New Distribution, Lackawanna Will Form the Twelfth District and Luzerne the Thirteenth. Special to the Scranton Tribune.

Harrisburg, May 5.—The congressional apportionment bill agreed upon by the house committee divides the state into thirty districts, an increase of two. One of these is given to Philadelphia and the other to Allegheny county. Their increase in population since the apportionment of 1872 entitles them to one congressman each.

Lackawanna Made the Twelfth. The Seventh district, Chester and Delaware, gave over 5,000 Republican majority in 1892, and nearly 11,000 last fall. The Eighth, Montgomery and Berks, has hitherto been a Democratic stronghold. Republican had 180 majority. Last fall he had 4,825. The Ninth, Northampton, Monroe, Carbon and Pike, was always been strongly Democratic. The Tenth, Berks and Lehigh, is known as the "Democratic Gibraltar." It gave Erdman 10,955 two years ago, and 14,000 last fall. The Eleventh, Lancaster county forms the Eleventh district. The Republican majority runs from 9,000 to 12,000.

The Twelfth district is Lackawanna. It is now securely Republican. Luzerne, the Thirteenth, is also regarded as permanently anchored in the Republican column. The Fourteenth district is Schuylkill; Berks, Democrat, represented it two consecutive terms, having 1,901 majority in 1892. Last year ex-Senator Wagoner, Republican, defeated him by 2,229 votes. The three authentic districts have heretofore been doubtful. The Republicans now claim them as follows:

The Fifteenth district, Dauphin, Perry and Lebanon; the Sixteenth, Bradford, Susquehanna, Wayne, Wyoming, and the Seventeenth, Tioga, Potter, Lycoming and Clinton, are surely Republican. The Eighteenth, Northampton, Columbia, Monroe and Pike, gave 5,201 Republican majority in 1892. Singly carried it last fall by 664 votes, but Kulb, Republican, had 894 majority over ex-Senator Bucklew. The district is now Republican. The Democrats have always carried the Twentieth, York, Cumberland and Adams, until last November, when Stahl, Republican, turned the Democratic majority of 1892 into a Republican majority of 2,284. Hastings only carried it by 47 votes.

The Allegheny Districts. The Twenty-first, Cambria, Blair, Somerset and Bedford, and the Twenty-second, Westmoreland, Armstrong, Jefferson and Indiana, are Republican beyond doubt. Allegheny is divided into the Twenty-third, Twenty-fourth and Twenty-fifth districts, all Republican. Fayette, Washington and Greene compose the Twenty-sixth district, a portion of Allegheny county having been detached from them. In 1892 Cleveland carried the three counties by 1,207 votes. Last fall Hastings carried them by 3,890. The Twenty-seventh district, Beaver, Lawrence, Mercer and Butler, is Republican; the Twenty-eighth, Crawford and Erie, brought Shelby to the front by sending him to congress in 1892, but retrieved itself by giving 2,414 majority against him in last fall. Scott, Democrat, also carried it twice.

The Twenty-seventh district is changed, the counties of Clarion and Forest having been taken by the committee from the old Twenty-eighth and attached to it. The district is Republican, Clarion being the only Democratic county. As Forest will object to the change from the committee, the same majority that Venango, Warren, McKean and Cameron, the old district, always rolled up, will be required to carry the new district. Elk, Clearfield and Clinton, the remains of the old Twenty-eighth. In 1892, these, with Clarion and Forest, gave a Democratic majority of 4,061. Last fall the same counties elected Arnold, Republican, by 1,797. Elk, Clearfield and Center are naturally Democratic, although Hastings carried them in last fall of carrying Elk and won out in Clearfield and Center by 1,077 and 71, respectively.

The Republicans certainly have 20 of the 29 districts. Of the other ten districts the Republicans have equal chance with the Democrats in at least five.

the conclusion that the resolutions should be passed and the issue squarely and frankly met. Suppose the committee had refused to report or the senate to adopt the resolutions, what inference would be drawn from such action? Would it not be tantamount to a confession that there was something rotten—something unsavory which those opposing an investigation are interested in keeping under cover. There is greater danger of injury to the party as a result of defeating the inquiry than by ordering it.

TOLD BY THE STARS.

Daily Horoscope Drawn by Jacobus, The Tribune Astrologer. Astrological cast: 1.59 a. m. for Monday, May 6, 1895.

Moon rises at 4.44 a. m. A child born at this date will do well to profit by the example of Peter Muller and not sign petitions at the request of Scranton lawyers until he knows where he is at. From the cheerful tone of Dan & Co.'s weekly review it seems evident that the firm members have not perceived any of the ensnarements of a single currency standard and against stricken bimetalism.

A spot which lightning strikes today will be forever free from its ravages, unless it be political lightning. The victim of this kind of lightning is continually getting in the way of stray bolts. The announcement that Wall street will take a hand in suppressing the rapidly-growing silver movement ought to settle it. Anything advocated by Mr. Cleveland and Wall street should be a "go" with people who have to pay the freight.

Pay no attention to the man who remarks: Is it hot enough for you? It will be hot enough for him hereafter. Do not start upon a journey today unless you have a return ticket. As Virgo predominates in Zodiac, do your fishing today. Fish are supposed to be easy in defense of a single currency standard and against stricken bimetalism.

PAINT cracks.—It often costs more to prepare a house for repainting that has been painted in the first place with cheap ready-mixed paints, than it would to have painted it twice with strictly pure white lead, ground in pure linseed oil.

Strictly Pure White Lead forms a permanent base for repainting and never has to be burned or scraped off on account of scaling or cracking. It is always smooth and clean. To be sure of getting strictly pure white lead, purchase any of the following brands:

"Atlantic," "Beymer-Bauman," "Jewett," "Davis-Chambers," "Fahnestock," "Armstrong & McKelvy." For Colors.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of level and mix your own paints. Saves time and annoyance in matching shades, and insures the best possible results possible to put on wood.
