STOCKS AND BONDS.

New York, May 13.—The reports from the west of damage by frost to the crops were evidently cabled to London yesterday and naturally at the opening of the exchange here this morning there were large orders from the other side to take profits. The more or less sensational reports about the crop situation induced the local traders to change front, and there was a liberal supply of ctocks from this quarter. As a result the market was rather ragged throughout. In the early trading prices declined ½ and ½, Louisville and Nashville, the Grangers, Sugar and Missouri Pacific making the largest losses. This was followed by a buying movement in Distillers and Sugar, both of which showed the best prices for months and months. Chicago Gas after breaking to 73% rose to 76%, but later returned to 7414.
