PERSONAL.

Postmaster Vandling has returned from Pittsburg.

George N. Little returned from New York city last evening.

E. A. Niven, of Wilkes-Barre, was a visitor in the city yesterday.

H. M. Bacus, of Duluth, Minn., was here on business during the past week.

Mr. and Mrs. T. J. Moore have returned home after a week's visit at Harvey's lake.

A. D. Holland is in New Milford attending the meeting of the Scranton academy.

Mr. and Mrs. T. H. Watkins are visiting Miss Downs at her parents' home in Germantown.

Henry, son of H. F. Atherton, who was painfully injured some weeks ago, has fully recovered.

Frank E. Shenniger and F. Harold Canfield leave this week on an extended trip through the south and west.

Dr. Thomas W. Kays returned yesterday from a week's attendance at the meeting of the American Medical association in Baltimore.

Thomas Aubrey will go to New York tomorrow to meet his wife, who is expected to arrive from England on Friday or Saturday. They will reside on Green Ridge street.

John A. Gillick, of Moore, bookkeeper of the Spring Brook Lumber company, has returned from Denver, Col., and Los Angeles, Cal., where he spent the past four months benefiting his health.

George M. King, clerk at the Westminster, has accepted a position as traveling salesman for S. C. Wells & Co., patent medicine dealers, of Leroy, N. Y. L. H. Vance, of Meriden, Conn., has been engaged as clerk at the Westminster.

Miss Annie Sterling Hall, the reader, who will assist in the entertainment for the benefit of the Girls' Friendly society's charity fund next Monday evening, was a pupil of the eminent Shakespearean reader, Locke Richardson. She was the guest of her friends, Mr. and Mrs. R. J. Williams, of Jefferson avenue, during her stay in Scranton.

L. B. Sharpes, for several years one of the popular day clerks at the Wyoming, has resumed his former duties in that hotel after a rest of several months. H. C. Wilkinson, who had filed Mr. Sharpes' position, has returned to Trenton, N. J. W. C. Squires, the other Wyoming House day clerk, has been called to his former home in Danville, N. Y., by the death of his grandfather.

Drop us a postal or telephone us and we will call for your clocks and other heavy repairs. Turnquest, 26 Washington avenue. 'Phone, 222.

NEWS OF THE RAILROADS.

Engineer and Mrs. Crothamel will take a vacation next week, and hope to spend the time among friends at a distance.

Rev. E. Luna Miller, of the Holy Trinity Lutheran church, will address the meeting at the machine shops this morning.

Owing to the illness of his wife Engineer J. R. Troch was unable to attend the convention. Mrs. Troch is, however, rapidly recovering.

Trainmaster G. M. Hallstead and Conductor A. H. Maisters have returned from the Springfield Young Men's Christian association convention.

Yesterday morning the boys indulged in a game of snowball on Mount Pocono. Less than a week ago it was a relief to cross old Pocono and enjoy the cool breezes, but the change of yesterday morning necessitated the wearing of winter overcoats. The early trains arriving in Scranton brought a fair load of snow on the car tops.

An electric locomotive of 1,000 horse power, capable of hauling a full freight train at the rate of thirty-five miles an hour, is being erected by the Baldwin Locomotive company, of Philadelphia.

The Delaware and Hudson company has equipped the tunnel on the Albany and Susquehanna division, between Nineveh and Binghamton, with an electric safety signal, which they claim will render collisions absolutely impossible.

Conductor E. A. Lattison, of Pittston, met with an accident in the Delaware, Lackawanna and Western yards last night, caused by his slipping between the engine and tank. He was taken to the Moses Taylor hospital, where it was ascertained that his injuries were not serious.

TRADERS' BANK BUILDING

Will Be One of the City's Handsomest Business Structures.

MANY ATTRACTIVE FEATURES

Will Cost \$50,000 and Will Be Completed March 1 of Next Year—Blue Indiana Limestone and Terra Cotta Brick and Trimmings to Be Used.

As shown by the accompanying cut the proposed "Traders' National Bank Building" will be one of the handsomest, if not the most striking, business structures in the city. It will be built on the lot where Phelps' drug store now stands, corner of Spruce street and Wyoming avenue.

The plans were selected from many submitted in competition, and are by T. I. Lacey & Son, architects, whose offices are in the Dime Bank building.

STRIKE IS BROKEN.

Cars in Carbondale Are Run at Intervals and Regular Traffic Will Soon Be Resumed—Sheriff's posse Still on the Ground and Ready for Emergencies

Practically, the street car strike in Carbondale is at an end. The company is able with the men so far secured to run about a few of the cars, and in less than a week the officials expect to have the service up to the old standard. There are only eleven cars operating on the Carbondale Traction company's lines in any event, so that it is not so difficult to procure enough of the cars to run them. The number of the conductors and motormen that went on strike is but 25.

While there is much ill-feeling rampant among the strikers and their sympathizers, there has not been any further attempt at trouble made since Sunday, when the strikers and crossing men near the Wild West show grounds were spiked and obstructions thrown on the tracks. The general impression is that the presence of the Buffalo Bill show was responsible for the work of Sunday. Large crowds congregated and some of the hotbeds and the mischievous boys that were there are charged with spiking the switches and piling the ties on the track. The strikers had nothing to do with it.

Patrick Mahony, of Mayfield, suspected of being guilty of a part in the affair of Sunday, was taken before Alderman Baker, of Carbondale, yesterday, on a warrant that had been sworn out for his arrest. He thought that it was a joke, but found out the seriousness of his position when the alderman bound him over in the sum of \$1,000 bail to appear at court.

Deputy Sheriff Frank E. Ryan returned to this city yesterday and left the posse in charge of Deputy Sheriff L. J. Dorrice, of Moscow, Mr. Ryan states that from the first he saw no signs among the strikers that would indicate that they intended violence. He says they disintegrated it. Here and there the new employees are relieved of their doubts and fears. The public is not patronizing the cars, more, perhaps, on account of the fear that regular trips cannot be made.

The strikers held a meeting last night and are confident that they will win, on the other hand, the company expects to have its lines running the same as usual by the end of the week.

Sterling silver belt pins, 4c., at Turnquest's, 26 Washington avenue.

ELKS' ANNUAL EXCURSION.

Lake Ariel in August is the Place and Time Selected.

At a meeting of the Scranton lodge of Elks, held on Monday night, it was decided that the annual excursion take place in August. Lake Ariel being selected for the purpose.

The following committees were appointed: Excursion committee: County Treasurer Schadt, chairman; Henry Koehler, secretary, and John J. Burns, treasurer. Transportation committee: Charles H. Schadt, John E. Roche and F. W. Martin. Amusement committee: V. A. Simrell, Alex. Dunn, Jr., and Walter Hosiam.

ARRESTED FOR FAKING.

A Number of Carbondale Pleasure Seekers Were Whooled.

On a warrant sworn out before Alderman Samuel S. Jones, of Carbondale, James McCloskey, a follower of the Wild West show, was arrested for faking, and in default of \$500 bail he was received at the county jail last night to await trial in criminal court.

McCloskey was fleeing a crowd of Carbondale suckers, who were playing a "dead sure" game. His scene of operations was outside the grounds where the Wild West show exhibited on Monday.

If your watch needs repair bring it to Turnquest for repair, 26 Wash. ave.

Closing of Y. W. C. A. Class Work.

The educational classes which have been conducted during the year in connection with the Young Women's Christian association, will close tomorrow evening with a social gathering of all who have been registered as class members during the year. An attractive program has been prepared and all who are interested in this branch of association work are invited to be present.

German and French in Five Weeks.

Free lectures and lessons showing method will be delivered Wednesday, Thursday, Friday at 11 a. m. 1.30 and 2 p. m. at Y. W. C. A. parlors. Apply for circular.

PROF. FRIEDELWALD.

Ladies' sterling waist sets, 98c., at Turnquest's, 26 Washington avenue.

THERE is but one

Way in the world to be sure of having the best paint, and that is to use only a well-established brand of strictly pure white lead, pure linseed oil, and pure colors.*

The following brands are standard, "Old Dutch" process, and are always absolutely

Strictly Pure White Lead

"Atlantic," "Beymer-Bauman," "Jewett," "Davis-Chambers," "Fahnestock," "Armstrong & McKelvey."

*If you want colored paint, tint any of the above strictly pure leads with National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of strictly pure white lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the hands of form to tint strictly pure white lead.

Send us a postal card and get our book on paints and color-card, free.

NATIONAL LEAD CO., New York.

AWFUL SMELL IN TAYLOR

Citizens Want the Fertilizing Establishment Taken Away.

TOOK THE MATTER TO COURT

Bill of Complaint Says That Travelers Are Obligated to Hold Their Noses While Passing Through the Borough.

Want the Business Removed.

After many years of waiting the residents of the borough of Taylor have at last taken steps to prohibit the operations of the Hewitt Bone factory from doing business. A suit of equity was filed yesterday in the office of Prothonotary Pryor by attorneys I. H. Burns and John M. Harris, applying for an injunction to restrain the Hewitts from stinging the people of Taylor to death. The still summer breezes are heavily freighted with cargoes of smell that originate from the bone factory of the defendants. It is situated in the woods between Feltzville and the Round Woods.

Seven or eight years ago the citizens of Taylor began to do a little to stop the Hewitts, but the agitation was hastily dropped. At various times there has been talk of resuming the attempt to dislodge the factory but not till yesterday has anything definite been begun. The injunction is prayed for by the officials of the borough and the officials of the board of health of the borough. The Hewitts will file an answer and then court will fix a date for a hearing to show cause why a preliminary injunction should not issue. There will be a final hearing and after that the case will be heard in equity court.

The plaintiffs are Burgess William P. Griffiths and David I. Lewis, Dr. J. W. Houser and M. C. Judge, of the board of health. Excerpts from their complaints are as follows:

Location of the Buildings.

"That the defendants, F. H. Hewitt & Son, are the owners and proprietors of a certain establishment and manufactory known and called as a 'Bone and Horse Bolting Establishment,' the purpose of which is the manufacturing of finishing materials for market and sale. The said manufactory and business is maintained and managed in three one-story buildings, situate on a private road which leads westerly from the main road leading from Scranton to Pittston. The said private road begins on the westerly side of the said main road, near the Baumgardner farm, owned by the Delaware, Lackawanna and Western Railroad company, and the said buildings of the defendants are situated on the westerly side of that part of the village of Feltzville being at that point bounded by Keyser creek. That the said establishment is also distant about 500 yards from the village of the Delaware, Lackawanna and Western Railroad company, and other corporations, and coal companies. These materials are delivered in open wagons. That after the skins are removed from the carcasses, the materials are piled up in large piles, and are about five feet square, the lids are let down and steam is blown into the said boxes, and the process of boiling goes on at a high temperature for several hours. The steam is permitted to escape and in this way much of the noxious and offensive gases are generated. These materials are delivered in open wagons. That after the skins are removed from the carcasses, the materials are piled up in large piles, and are about five feet square, the lids are let down and steam is blown into the said boxes, and the process of boiling goes on at a high temperature for several hours. The steam is permitted to escape and in this way much of the noxious and offensive gases are generated. These materials are delivered in open wagons.
