

In the suspension case the latter part of the week Mr. Eck feels confident that Johnson will be cleared, as he says the only charge made against him was that he demanded \$100 to appear at the Baltimore race meet last year. This, he states, is untrue, and offers as a reason for Johnson's not appearing that he had engagements elsewhere. The young Swede is looking in excellent condition and is training at the Kirk track at Syracuse.

ROBBED HIS SEVEN WIVES. Bigamous Swindler, One of Whose Rich Dupes Tramped Him.

Detroit, Mich., May 14.—There is now on a train bound for Detroit a matrimonial swindler, and bigamous, whose bigamous relations extend to Great Britain and four states of the Union. His name is C. J. White, and he is described as an oily, smooth-tongued individual who had special powers to fascinate the fair sex.

His present trouble is entirely due to a Brooklyn woman, a Miss Tomlinson, the only daughter of a respectable Brooklyn man, who was married to a man named White, who had a daughter in Brooklyn. It appears that White met Miss Tomlinson, and she knew nothing of his antecedents or what was his special claim for social favoritism in the eyes of the lady.

She was known to have \$12,000 in her own right, and to her penniless White paid devoted attention, and they were wedded.

Miss Tomlinson, who then believed herself to be a widow, gave him \$1,000 to start business. The business "did not pay," and he inveigled \$2,500 more out of her, and they came west. Then he induced her to deposit her money in a bank in Chicago, and he left her with a hand truck he deposited a lot of worthless paper in the box, and put Miss Tomlinson's money away in his pocket. Shortly afterward he disappeared.

Miss Tomlinson traced him all over the country, and finally to Ireland, where she learned he had a previous wife. The first Mrs. White was induced to come to America, and since then, with private detectives, the two women have worked together for the recovery of the money which White was arrested with in Buchanan with a woman, who passed herself off as his sister. When the couple were arrested, Whitney, or Mrs. John Taggart, Taggart is a woman with him a lot of diamonds.

The detectives have picked up information which leads them to believe that White has no less than seven wives in various parts of the world. This is the first recorded birth at so great an elevation in the Rocky Mountains, and probably on this continent. The youngster weighs ten pounds and has evidently come to stay. The train boys have named him Pike's Peak Taggart.

WRECK OF A TRAIN. Front Axle of an Engine Broken, Throwing the Cars from the Tracks.

Carlisle, Pa., May 14.—The Dillsburg accommodation train on the Cumberland Valley railroad, going east, was wrecked this afternoon at White Hill. The front axle on engine No. 17, in charge of Engineer Reitzel, of Chambersburg, broke, throwing the wheels in different directions. The train was running at the rate of thirty miles an hour at the time.

The track was torn up for some distance, the only person injured was a man named Johnson, from Baltimore, who jumped from the moving train. His hand was badly cut and he received other slight injuries. He is now in the Harrisburg hospital.

HERO OF JAILS IN CHAINS. A Desperado Who Long Held the Fort in His Improvised Arsenal.

Port Jervis, N. Y., May 14.—Ben Baker, the worst desperado in this section, who has been in forty jails, has been lying in the jail at this place since Friday. A chain and ball are attached to him to prevent his breaking out. He attacked with a revolver John Troy, a brakeman on the Port Jervis & Monticello road, last December, because he had refused him a ride. Trainmen interfered and he was disarmed.

Since then he has lived in a barn near that place with a woman named Giffette, and has defied all the officers sent to arrest him. His barn was converted into an arsenal, and he had a dozen or more revolvers ready for use at a moment's notice. Friday officers Phillips and Morse caught him off his guard and arrested him.

EXPLOSION ON STEAMBOAT

Fatal Catastrophe on Lake St. Clair.

ONE MAN IS KILLED OUTRIGHT

One Blown overboard and the Third Rightfully Injured—Panic Among the Passengers on the Craft.

The Flues Cracked.

Detroit, Mich., May 14.—A terrible accident occurred last night on the New River steamer Unique in Lake St. Clair, which caused the death of two men and possibly a third. At 4 o'clock the Unique left Detroit bound for Port Huron after a down trip, which was the quickest ever made between Detroit and Port Huron by boat. When about nine miles from Belle Isle a crash was heard by the passengers and soon a puff of steam from the boiler room which was followed by clouds of steam and soot, driven through the hatches with terrific force. At the same instant the explosion occurred the deck hands saw George Robinson, of this city, an engineer on the boat, who was sitting on the port rail, thrown overboard. Life preservers were thrown at once to him, but as the boat was going so fast, they did not come within his reach. A boat was at once lowered and a thorough search made for him, but he had disappeared and was given up for dead.

As soon as the condition of affairs below would warrant it, the officers of the boat went below and found a crack about an inch and a half long in one of the boiler flues. This caused the explosion. On the floor of the boiler room was Anthony Carr, a coal passer, killed outright, and near him was John Plant, a fireman, frightfully burned. There were about forty passengers on the boat, and a rush was made for the life preservers as soon as the accident occurred, but order was quickly restored. The officers of the boat refused to allow any one to visit the fire hold. The Unique lay in Lake St. Clair from the time of the accident until 2 o'clock this morning, when the wrecking tug Wales, which had been sent for by the steamer Baldwin, took her in tow, and reached the dock at Detroit at 3 o'clock this morning.

TO BE PROSECUTED. Government Officials Will Proceed Against Bank Wreckers.

Middletown, Pa., May 14.—The prominent wreckers of the Middletown National bank are to be prosecuted. Word comes from Washington that Attorney General Olney, after consultation with United States District Attorney Ingham, of Philadelphia, has directed the latter to proceed against ex-President Raymond and his brothers. A co-defendant will be ex-Attorney General, a partner in the Raymond-Campbell Stove Manufacturing company, which it is alleged, got considerable money out of the bank.

The charges against the alleged wreckers will be embezzlement and other violations of the National bank act and other statutes.

As the bank failed a year ago this determination on the part of the government officials is greatly surprising to the ex-bank officials. The failure was a very bad one, but Comptroller Eckels has saved a large proportion of the assets for depositors and other creditors.

MAKE SLAVES OF NEGROES. Louisiana Farmers Kidnap Them for Work on Their Plantations.

Little Rock, May 14.—Reports have reached here from Quachita county of the wholesale kidnaping of negroes by farmers living adjacent to Arkansas line who needed farm laborers. When laborers were needed they crossed into Arkansas, selected the negroes they wanted and took them to Louisiana by force. Similar reports have reached here from Union and other counties on the Louisiana border.

A dispatch from Eldorado says Judge Smith, of Quachita county, convened a special grand jury to investigate the recent outrages of this character. In some cases the kidnappers have been seen driving before them, like so many sheep, a bunch of negroes with their arms pinioned and tied together.

BORN ABOVE THE CLOUDS. Ten-Pound Youngster Reaches the World a Long Way from the City.

Colorado Springs, Colo., May 14.—Dr. Christopher, of Colorado Springs, was conveyed yesterday by a special train to the summit of Pike's Peak, the occasion being the birth of a son to Mr. and Mrs. John Taggart. Taggart is a foreman of the Manitou and Pike's Peak Cog road, and for a month past has lived in a section house located a mile and a half above timber line, at an altitude of 12,000 feet above sea level. This is the first recorded birth at so great an elevation in the Rocky Mountains, and probably on this continent. The youngster weighs ten pounds and has evidently come to stay. The train boys have named him Pike's Peak Taggart.

COUNTRESS WIFE OF A THIEF.

Arrested in Vienna for Being the Worst of the Couple.

New York, May 14.—In regard to a dispatch from Vienna concerning Countess Marie Leiningen-Westerburg, who has been arrested there as a process, Detective Sergeant Holdobler said at police headquarters tonight:

"I believe that the Countess Marie is the former consort of Frederick Fleischer, bookkeeper for Durheim & Bauer, who was arrested here as a process. Fleischer embezzled \$30,000 from that firm, and fled to Canada. I brought him back as prisoner to this city, and he spent six days in Ludlow street jail."

THROOP. The borough council are about contemplating the long delayed work of putting in some more fire plugs. The borough of Throop will soon be second to none in its facilities for fighting fire. Consistent. From the Indianapolis Journal. "Yes," explained the Hoax Constrictor, "the man was easy picking. He might have escaped, but instead of that he walked right into my jaws, just as if I was not there."

The Cobra di Capello was not surprised. "What else," he argued, somewhat warmly, "as a consistent gold cure graduate could he do?"
