The authorities of the county jail are in a quandary, which is caused by the con-duct of the well-known E. W. Toner, of the North End. Two weeks ago Toner was arrested for drunkenness on Center street, and when placed in the police cells at the city building, worked off his su-perfluous strength by smashing the basin and other effects in the cell. For this of-fense he was committed to court and on Saturday the jury ignored the bill, and Toner was once more a free man so far as the claims of the law were concerned. He has not, however, regained his freedom, as he is at present strapped down in a substitual manner at the county jail, owing to an attack of temporary insanity. Toner's condition is such that unless friends are prepared to make themselves responsible for his safe keeping, ho must be detained for some time to recover from the effects of the debauch.
