INDUSTRIAL TOPICS.

The collieries of the Reading and Le-high Valley companies will work three days this week. The Bethlehem Iron company has an-nounced an increase in the wages of fur-nacemen from \$1.26 to \$1.40 per day.

The Central Traffic association has de-cided that not more than 4,600 pounds shall be loaded over the marked capacity of any mar.

Jersey Central April earnings were gross, \$1,019,401; operating expenses, \$617,409; net earnings, \$401,940. The net earnings in-creased \$125,046 over 1894.

The New York Central has given an order for 1,500 box cars. They will cost \$900,000, and the job of building them will employ 1,000 men for over five months. In April there were thirty-three collisions, seventy-five devailments and nine other railroad accidents, in which twenty-seven persons were killed and ninety injured.

of coal land.

The Sheanndoah City coffiery of the Reading company resumed yesterday after four months' idleness. The collery is equipped with the latest and most approved machinery, and will have a shipping capacity of 1,500 tons of coal daily.

CORN.

now \$1,000,000. Every employe must be a stockholder.

John S. Lazarus, formerly of Pittston, but now traffic manager of the Indianapolis, Decatur and Western, on the 25th inst. salled for Europe, expecting to be absent two months. On his return, it is stated that he will be appointed general manager of the Indianapolis, Decatur and Western, R. B. F. Pierce retiring.

Wilkes-Barre Times: "The work of building No. 3 Delaware and Hudson breaker, on the outskirts of Piymouth, has taken considerable time, but now that it is completed it is a credit to Abram Shaffer, who designed the building, as well as upon his workmen. The breaker is most complete in every department, and avery possible appliance has been provided so as to run through the largest quantity of coal. The machinery is of the latest improved make, and every piece has been put together by skilled mechanics. A dust fan has been provided of an immense drawing power and it is expected it will keep the breaker almost entirely free from dust. The exterior of the structure is of corrugated iron and presents a fine appearance. The breaker and mine will give employment to about 500 men and boys. It will begin operations June 1.

ystem in which sugar accumulates in the blood, and is excreted through the arine. The daily quantity of urine is greatly increased. This disease may be divided into acute and chronic form but except in their duration there is n essential difference. Frequent urina tion and an intense thirst are the first symptoms that mark the onset of this lisease, together with a voracious appetite, the patient then begins to grow thin and sallow, losing flesh rapidly until he becomes a mere skeleton. Th thirst is almost unendurable, it generally being greatest about an hour or tw after meals. The tongue is dry, rec and glazed and the saliva very scanty the gums become swollen, and consti pation generally attacks the patient with these symptoms. Notwithstanding the enormous food consumed, the patient gradually wastes away. The skin becomes dry and harsh, and perspiration rarely occurs. Boils, carbuncles and other diseases of the skin often occur, especially eczema and pruritus. The patient is attacked with headache, and a faint intoxicating feeling comes over him and they generally fall into a deep, dull sleep. Diabetes, as a rule, is pronounced incurable by ordinary physicians, who know but little if any thing of animal magnetism. It can be and is being permanently cured by Dr. F. B. Smith, at his parlors, 312 Wyoming avenue. Dr. Smith will hold free pub lic clinics, and cure all worthy people at his parlors, 312 Wyoming avenue, from 1 to 2 p. m. dally. Office hours, 9 a. m. to 5 p. m. daily, except Sundays Consultation free. F. B. Smith, M. D.,
