

12 REASONS WHY You should buy the "Globe" Sewing Machine in preference to any other, regardless of name or price

- 1 LIGHTNESS in running is an essential quality in the home sewing machine. The "Globe" is the lightest running machine in market today.
2 A NOISY, rattling sewing machine is a nuisance anywhere, but more especially in a home. The "Globe" if properly attended to is silent when working.
3 SIMPLICITY in construction is of the utmost importance in the selection of a sewing machine. There are fewer working parts in the "Globe" Machine than any other.
4 BECAUSE of its simplicity of construction the "Globe" Sewing Machine is easily learned and managed. Shuttle, upper tension, needle setting and spool winding, etc., are all automatic.
5 GLOBE Sewing Machines will wear a lifetime. Friction is reduced to a minimum at every point. All the working parts are made from the best case hardened steel, and money will buy no better at any price.
6 IN THE matter of attachments for special work, etc., the outfit of the "Globe" Machines is the most complete we have ever seen; nothing essential or desirable being wanting.
7 THE cabinet work and outer casings of the "Globe" Sewing Machines are marvels of beauty, combined with which is that solidity which insures durability.
8 A SEWING Machine for the home should be attractive looking. The nickel, enamel and gold decorations on the "Globe" Sewing Machines are unusually handsome.
9 IN FINISH, take it at any point you will, there is not a careless or thoughtless touch in the entire construction of the "Globe" Sewing Machines, which cost as much to produce as any machine on the market.
10 QUALITY is hinted at in the foregoing paragraph. Expect the best and we'll guarantee you get it in the "Globe" Sewing Machine.
11 THE "GLOBE" Sewing Machine comes in three styles, viz: 3 Drawers, 5 Drawers, 7 Drawers. The machine itself is the same in any style.
12 THE PRICE of the "Globe" Machine varies according to style. 3 Drawers, \$19.50. 5 Drawers, 21.50. 7 Drawers, 22.90. No better machine on the market at any price.

QUAY AGAIN TRIUMPHANT The Old Man Still Has a Firm Grip Upon Pennsylvania Politics.

GREATEST OF HIS VICTORIES Defeat of Apportionment Schemes Will No Doubt Put the Man from Beaver in Control of the National Delegates-Cameron is Pleased.

Special to the Scranton Tribune. Harrisburg, June 2.—Senator Quay has again triumphed over his political foes. His frustration of the scheme to apportion the state was a signal victory for the man from Beaver and his friends over the Hastings-Martin-Magee combination. It grips that the "old man" still has a firm grip on the Republican machine in Pennsylvania. This is the greatest victory Senator Quay has achieved since the nomination of Delamater nearly five years ago. He is pleased with the result and believes it will bring him back to the front of the coming fight for control of the national delegates. Senator Cameron, too, is satisfied with the result. He is depending on his colleague to elect him next year and believes the man from Beaver will control the next legislature as absolutely as he does the present body.

Senator Quay has divorced from him by his fight against the administration some of his most faithful and skilful lieutenants. Secretary of the Commonwealth Reeder, of Easton, who is sure to carry Northampton and Lehigh counties whenever they are needed for his friends, naturally is with Governor Hastings. Bank Commissioner Gilkeson, who controls Bucks county, and Adjutant General Stewart, whose popularity in Montgomery county has never been disputed, are also lined up against Senator Quay. Attorney General McCormick, who does about as he pleases in Lycoming and Clinton counties, is standing by his chief.

The line-up on the apportionment question does not indicate that all who opposed Senator Quay on this issue will fight him on other matters. In the battle for senator two years hence Chris L. Magee, who stood by the governor in the recent fray, will be found in line with the Beaver man. Cameron and Magee have been friends for a generation, and the Pittsburger will bring to bear all his political influence and sagacity to secure Don's return to the senate for another term. As for his opponent, Cameron is pledged to oppose Cameron. Martin has no firmer friends in the senate than Senators Kauffman, Baker and Saylor, all of whom are pronounced anti-Cameronites.

It is too early to predict whether the administration will support for senator, but it may be said with certainty that Governor Hastings and the members of his official family will not do anything to help Cameron. Charles Emory Smith, of Philadelphia, a friend of Senator Quay on the apportionment question, and it seems to be the general impression that General Hastings will reciprocate by aiding the Quaker City editor in the campaign which he will make to succeed Cameron.

Judicial Apportionment. The judicial apportionment bills will go to a conference committee. The house and senate are so far apart on this question that it is believed the committee will not be able to agree upon a bill satisfactory to both bodies. Eight weeks ago the house sent its judicial apportionment bill to the senate. It lingered in the committee for a month and was then amended so as to make it practically a new bill and reported. This proposition has at last gone through the senate and will come over to the house early in the week for consideration. The measure first went down in defeat by thirteen senators voting against it. On the 13th day of the month, and when the vote was reconsidered, it carried by a majority of thirteen.

The money Mr. Stewart is prepared to post with the stakeholder at a moment's notice as a guarantee that the event will be decided in the Lone Star state, and that every contract made by him will be faithfully carried out. According to Mr. Stewart, there is no law in the state of Texas that will in any way prevent the meeting. "The contest," said Mr. Stewart last evening, "will be scheduled for decision in the second or fourth week in October."

JAPAN HAS HAD ENOUGH. Her Army Willing to Yield to the Demands of the Powers. San Francisco, June 2.—The correspondent of the United Press at Tokyo, writing under date of May 19, per steamer Belgic, which arrived this morning, says that Japan's surrender of that part of Manchuria which had been ceded to her by China, was not an act of the cabinet proceeding on its own responsibility.

It was endorsed by the army and navy, the commanders of which preferred surrender to the powers rather than to face a new enemy, the nine months campaign having greatly impaired Japan's fighting capacity.

STATE SNAP SHOTS. Six children have been murdered at Tyrone within a few years, and no one has yet been punished. Wages of the Schuylkill region miners are current month 10 to 12 per cent below the \$2.00 basis.

Two-year-old John Horsbach, at Shamokin, drank whiskey from a bottle he found and may die. Teachers at Zentonia are up in arms because the high school commencement there ended in a dance.

Conshohocken's school board is after Justice Harold's scalp for failing to turn over \$200. Fifty workmen employed in constructing an Allentown city reservoir struck for an increase of 15 cents a day in wages.

There is talk of the Pennsylvania railroad running through trains via Pottsville between Philadelphia and Scranton. There is such great rivalry between Pottsville cemetery managers that the people expect to see free permits given and undertakers' bills paid as an inducement.

Rev. Owen James, pastor of the First Baptist church, of Hollidaysburg, has been elected to and accepted the presidency of the Rose Williams university, of Nashville, Tenn.

DEATH FOLLOWS THE HEAT Seventeen Persons Die from Prostration in Philadelphia.

TEMPERATURE ELSEWHERE. At St. Louis Mercury Dances at 97 Degrees-Kansas City Discovers It at the 100 Mark-Ninety-five at Detroit.

Philadelphia, June 2.—The tropical heat that has prevailed since Thursday has reaped a terrible harvest of death in Philadelphia. The prostrations from the heat number several scores, and on Friday there were two deaths, three yesterday, and the climax was reached today when seventeen persons died from heat prostration. The thermometer today in the weather bureau office at its maximum at 2 o'clock registered 96, but the mercury was lower than yesterday's maximum. The lowest point touched today was at 5.30 this morning, when it stood at 79 degrees. From that time on until 2 o'clock the mercury went booming upward until it reached its maximum of 96 degrees at 2 o'clock today. The heat was particularly oppressive on Sunday, and the workers in the mills and manufactories were able to rest and seek what coolness they could. But for this the mortality would undoubtedly have been much higher than it was. Besides the seventeen deaths there were a score of prostrations reported by the police, and how many more there were in the households of many families they alone know.

OUR SHIPS ABROAD. American War Vessels at Southampton. Lavish Display of Stars and Stripes in the Town.

Southampton, June 2.—The American warships lying in Southampton water preparatory to sailing for Kiel, where they will take part in the opening of the North Sea Baltic canal, have added to the north to the gales of this town. The harbor today was alive with boats and launches from the American vessels, and all day long the pier where the boats arrived and departed was lined with people watching the movements of the blue jackets and their officers. Since the arrival of the warships Southampton, which is doubtless the best affected place in England towards the United States, has been lavishly in its display of the stars and stripes. The flags of the shops windows contain American devices. The American warships are anchored off Netley hospital, where there are also two Italian cruisers. Sailors from these vessels are constantly going ashore, and Americans, Italians and English mix with the bonhomie characteristic of their class. The American flagship has many visitors, all of whom are shown every courtesy by the officers.

The United States steamship Alliance steamed slowly last night outside, and then shaped her course westward. She is bound for Newport, but will probably call at Miami. Her decks were crowded with officers and men. As she passed the flagship she fired a salute. The squadron will probably sail for Kiel on June 11.

WILL FIGHT IN TEXAS. Corbett and Fitzsimmons Are to Meet in October.

New York, June 2.—The Herald says that there is now little doubt that the long delayed battle between James J. Corbett and Robert Fitzsimmons will take place in Dallas, Tex., in the fall. "Dan" Stewart, the representative of the syndicate of Texans who have put up the money to bring off the match, has just returned from Dallas, and showed certified checks to the amount of \$41,000—the size of the purse for which Fitzsimmons and Corbett are to fight.

The money Mr. Stewart is prepared to post with the stakeholder at a moment's notice as a guarantee that the event will be decided in the Lone Star state, and that every contract made by him will be faithfully carried out.

According to Mr. Stewart, there is no law in the state of Texas that will in any way prevent the meeting. "The contest," said Mr. Stewart last evening, "will be scheduled for decision in the second or fourth week in October."

SHENANDOAH STRIKES A BOY SENSELESS WITH A HATCHET.

Shenandoah, June 2.—A plebe here last night had a tragic ending. William Plimmer, a colored man, who was giving an exhibition, was teased until he became furious. Then he chased the crowd of tormentors with a hatchet and struck the young Michael Hertz upon the head. The lad dropped senseless to the ground, and is in a precarious condition. The crowd then chased Plimmer, who was speedily locked up to escape the angry crowd.

HIS MARRIAGE WAS BOGUS. Young Husband Just Discovered That He Has No Wife.

Williamsport, Pa., June 2.—Truman J. Larrabee is in a queer matrimonial mix-up. He is also in jail. A year ago, in the Pine Creek region, this country, he performed an alleged bogus marriage ceremony, in which J. C. Reibsame was the groom.

FLASHED FROM THE WIRES. Governor Morton, of New York, has recovered entirely from his fainting spell on Memorial Day.

Mistaking his wife for a burglar, Lewis Hall, a Marshalltown (Ia.) electrician, shot her dead.

GRESHAM'S MEMENTOES. A Bundle of Hickory Sticks Prepared for Friends.

Washington, June 2.—There is a cherished bundle of hickory sticks at the state department, and they are Secretary Gresham's with his own hands, and designed by him as mementoes for presentation to friends. All of them were obtained from the abundant timber in the grounds of the president's country place at Woodley.

WRECK OF THE COLIMA. Additional Statements Concerning the Disaster Are Given—Many Are Killed by Flooding Timber.

San Francisco, June 2.—Captain H. L. Reed, the well-known marine surveyor of this city, in a despatch from Mexicali gives some additional particulars of the Colima wreck. He also says that the third officer Hanson, who escaped from the deck house, and A. J. Sutherland, who clung to the seats of an overturned life boat.

SUICIDE IN PRISON. Frederick Henschler Becomes Tired of Life Behind the Bars.

Trenton, N. J., June 2.—Frederick Henschler, who was sentenced to three years in state prison from Camden on February 18, 1893, for breaking and entering, committed suicide by hanging himself on his return from religious services in the prison this afternoon. He told a fellow convict of his intention and the latter informed a keeper who went to Henschler's cell and found him hanging at the end of a rope that had been stolen from one of the work-shops.

MISS COLEMAN'S SUICIDE. The Deed Was Deliberately Planned, but the Cause is Still a Mystery.

Dunkirk, June 2.—There is much speculation in this city as to the cause of the suicide of Miss Elsie Coleman, the society favorite and heiress. Percy McClellan, of Harrisburg, Pa., who was to have been wedded to the dead girl next month, reached this city today. He is completely crushed by the blow, and says that he can ascribe no reason for her killing herself. He received a note from her, written just before she died, but it contains nothing beyond a farewell.

TRAGIC END OF A PICNIC. The Entertainer Strikes a Boy Senseless with a Hatchet.

Shenandoah, June 2.—A plebe here last night had a tragic ending. William Plimmer, a colored man, who was giving an exhibition, was teased until he became furious. Then he chased the crowd of tormentors with a hatchet and struck the young Michael Hertz upon the head. The lad dropped senseless to the ground, and is in a precarious condition. The crowd then chased Plimmer, who was speedily locked up to escape the angry crowd.

WILDE'S PRISON LIFE. He is Picking Out—His Health is Much Broken.

London, June 2.—Oscar Wilde will serve his two years' sentence in Wormwood Scrubs prison. The prison doctors affirm that his heart is weak, and he has therefore not yet been placed on the treadmill, but has been compelled to pick oakum. His health is broken, and he hardly sleeps.

CARTER TALKS CAMERON. Enthusiasm in the Rocky Mountain and Pacific Country.

WANT PENNSYLVANIA'S SON. Republicans in the West Will Work Industriously to Secure the Nomination of Senator Cameron at the Next National Convention.

Washington, June 2.—Senator Tom Carter, chairman of the National Republican executive committee, is more than willing to talk about presidential possibilities than he was while in New York. He expressed his opinions freely in an interview as follows:

"The Rocky Mountain and Pacific coast country, in my judgment, will work industriously to secure the nomination of Senator Cameron for the presidency. He is a sound protectionist and a fearless advocate of the cause of true bimetallicism, which consists in a free and unlimited coinage of both gold and silver at a fixed ratio, and a ratio of 16 to 1 is the most liberal adopted by any nation in the past. The national committee, as an organization, will not take any position for or against silver. It is no part of the business of the committee to undertake to declare party position on current questions. That task is left to the party when assembled in national convention. Individually the members of the committee generally reflect the sentiment of the states from which they come on the money question. It is needless to inquire whether the Republican party in general is in favor of the silver question. That question is becoming as wide as commerce and absolutely irrefragable. The party seeking to ignore it convicts itself of unpardonable stupidity. No individual can predict what communities may do in such contingencies as may arise in the future, but it is safe to say that a majority of the states west of the Mississippi river cannot be held in line with any party which would take notice of the silver question on the subject of the free and unlimited coinage of silver."

WRECK OF THE COLIMA. Additional Statements Concerning the Disaster Are Given—Many Are Killed by Flooding Timber.

San Francisco, June 2.—Captain H. L. Reed, the well-known marine surveyor of this city, in a despatch from Mexicali gives some additional particulars of the Colima wreck. LONDON'S WILD AFGHANS. Nasrulla Khan and His Retinue Make Things Lively in Evening Dress.

London, June 2.—Nasrulla Khan, the second son of the Amir of Afghanistan, who is now visiting England, is not a social success. When he makes visits accompanied by some of the members of his suite he becomes a social success. The following day the party live in barbaric style at Dorchester House. They sleep on mattresses placed on the floor and cover themselves with rugs, declining to use the more comfortable beds. The English officials who are supervising the party had to correct their habit of pocketing the silver plate from the tables of their entertainers, a habit which occasioned considerable more or less adverse comment during their stay in India, but which it appears they were then allowed to follow if they could escape the observant eyes of their hosts.
