SCATHING REPORT.

ondition of Affairs at Norriston Hospital for the Insane. Harrisburg, Pa., June 4.-The joint

gislative committee appointed to instigate the management of the hosital for the insane at Norristown, tofay, through the chairman, General Johin, made its report to the senate. The committee summarizes the result of its labors as follows:

First-The books and accounts of the initution are unsatisfactory, deceptive and

deleading. Second-The printed reports do not conain such a statement of the condition of the institution as the public is entitled to.

Third—Large sums of money are divertfrom the maintenance fund and devoted o construction, betterments and improve-ments in direct violation of the law.

Fourth-The loss of the entire herd of cattle by disease was made possible by negligence in not making ordinary inuiries. The existence of the disease was mored after reports made, and the meat nd milk continued to be served to inmates or almost two years after its existence cease the use of cornets, at the same times known. The increased death rate urging their classmates to do likewise from tuberculosis, particularly among females, may or may not have been attrib-utable to this cause.

Fifth-Various matters referred to in the port require correction and amendment n the management of the institution. Sixth-The reports to the auditor gen-ral, upon which the appropriation from the state were drawn, did not disclose the correct condition of the finances of the institution or the cash balances on hand, but, on the contrary, concealed the fact that a large sum of money was deposited in bank to the credit of the institution at times when it was claimed and reported that they had overdrawn their account. Seventh-The appropriation of over one

third of the entire expenditures for salaries and wages is unneccessary and exrbltant. Eighth-The expenditure of moneys by other than the regular method and the payment of bills and debts of the investi-gation by the personal check of individual trustees is improper and without authority

Ninth-Stated and complete audits should be had of all the books of the instithould be had of all the books of the institution and a record thereof made and the
balance sheets presented. The minutes of
the board of trustees and executive committee should contain all transactions of
the respective bodies and full report of
committees involving the expenditure of
moneys, employment of people, fixing com-

pensation, changing of buildings and simi ar matters.

Tenth—The responsibility of the various
officials should be defined and positive.

In conclusion the committee offers resolutions which empower the auditor general and state treasurer to settle ar account with the trustees of the insti

tution and collect from them the unex

pended balance in their hands, as shown by the treasurer's account. The report was ordered to be printed and no action will be taken until senators have an opportunity to become familiar with its contents.

The Republican Clubs in Resolution Adopt the Single Dollar. Baltimore, June 4.—The sixth annual convention of the Maryland league of Republican clubs met this afternoon in the Lyceum theater.

The Republican party, the resolu-

ion says, will do all that is consistent with the maintenance of public faith, and the stability of commercial reations to create demand for silver; no dollar should be circulated which will not pass for its face value in any market of the world. The resolutions were adopted. Yazoo for Free Coinnge.
