### THE WORLD OF BUSINESS

#### STOCKS AND BONDS.

New York, June 6.--The professional operators were in full possession of the stock market today and as a result the changes were very irregular. Susquehanna and Western was the feature of the market, the common declining from 9 1/2 to 7 1/2, and the preferred from 24 1/2 to 24 1/4. The last named subsequently recovered to 25 1/4. The heaviness of the stocks was due to rumors that the company was in financial trouble and a receivership was imminent. Diligent search failed to confirm these stories. So far as the general railway list is concerned it may be said that the bears endeavored to bring about liquidation, but their efforts proved futile. In the afternoon trading Northwest shot up a point to 95 1/2. In the Industrials sugar was decidedly stronger, rising to 11 1/2, on semi-official statements that the regular dividend had been decided on by the directors, and that the latter at their meeting tomorrow will declare a 5 cent dividend.

Cash stocks were heavy, the common selling down to 2 1/2. The general market closed dull and firm. Active issues as a rule show gains of 1/4 to 1/2. The anthracite coals lost 1/4 to 1/2 per cent. of value.

The range of today's prices for the active stocks of the New York stock market are given below. Quotations are furnished The Tribune by G. du B. Dimmick, manager for William Linn, Allen & Co., stock brokers, 412 Spruce street, Scranton.

### ARCHBOLD.

The commencement exercises of the high school were held in Father Mathew Opera house on Monday evening in the presence of an audience that crowded the building to the doors. At the rising of the curtain the members of the graduating class and the pupils of the high school were shown ranged in a semi-circle on the stage. The exercises opened with a well rendered chorus, "The New Columbia." Miss Martha Stearn then read a thoughtful essay on "Sympathy." Miss Sada Sweeney admirably recited "The Monk's Magnificat" and Miss Anna Johnson read a well-prepared essay on "Friendship." Miss Mary Keegan read an essay on "Good Manners," which was filled with bright ideas. Miss B. A. McAndrew told of the happiness of "Home" in a nicely worded essay. Charles A. Burke closed the first part with a forcible and well delivered oration on "Patriotism." William Gaughan opened the second part with a scholarly address on "Irish Literature," and George Taylor followed with an excellent recitation, "The Liberty Bell." Miss Alice Curran recited "Courage de Leon" in a very artistic manner. Miss Catherine Gaughan explained the advantages of "Education" and Miss Ella Holmes told of the benefits of "Self Dependence." Both were impressive and entertaining. The "City History" was read by Miss B. A. McAndrew. It was filled with bright thoughts and witty allusions to the class, and was richly enjoyed by the audience. After the commencement a social was held, which was a most enjoyable affair. The graduates did honor to themselves and their instructors by their efforts on Monday night.

John White, of the East Side, who left home early and well dressed, has not been heard from since and his friends are fearful for his safety. White was a veteran of the late war and it was at first thought he had gone to the Soldiers' Home at Bath. He has not been there, however, and his whereabouts his relatives supposed he would naturally have gone to, and they are therefore greatly worried. Mr. White is about 60 years old. He had his working clothes on the day of his disappearance.

Frank Holmes, of North Main street, will, in a day or two, begin working in an undertaking establishment in Forest City.

The funeral of the late Michael Mullarky, of Salem street, took place on Wednesday morning, at 10:30 o'clock, a high mass of requiem was sung in St. Thomas' church by Rev. Dr. Lucas, and interment took place in the Catholic cemetery. The deceased had been ill little more than a week. He was a son of James Mullarky, of Salem street, and was about 31 years old. He was a brother of Mrs. James Wright, Mrs. P. F. McAndrew, Patrick and James Mullarky, of this place, and Frank Mullarky, of Hyde Park. The Grocery Market.

New York, June 6.--The raw sugar market rules steady, with prices as last quoted, 95 test centrifugals at 30; 89 test muscovado 2 1/2-15; and 89 test molasses sugar, 2 1/2-15. There was some business late yesterday on the basis of above prices, but in small lots and less than 4,000 bags in all. Some sellers seem to be willing to part with their holdings, but buyers are indifferent.

The London sugar market is quiet, feeling depressed for cane, Java quoted at 12s. fair refining 10s. Beet quoted lower but now firmer, June quoted at 10s. and July 10s. 1/2.

The market for refined sugar is quiet, but about steady, with prices unchanged, granulated quoted at 4 1/2-15s. Refiners are somewhat overstocked on some of the soft grades, owing chiefly to the small output. It is probable that slight concessions would be made in price on orders for 100-barrel lots.

Coffee is generally steady, with Rio No. 7 spot quoted at 12 1/2-15c. and Rio No. 8 at 11 1/2-14 1/2c.

### MAGNETISM

And Its Marvelous Effects--Dr. E. B. Smith Is Performing Wonderful Cures by Means of This Mighty Power at 312 Wyoming Avenue.

Never before in the history of the art of healing has such wonderful cures been made of such seemingly hopeless cases as are now being performed by the EMINENT PHYSICIANS, SURGEONS AND SCIENTISTS, DR. E. B. SMITH AND STAFF, at 312 Wyoming Avenue. Within the last hundred years we have learned the use of electricity, telegraphy, telephone and steam. When the power of steam was discovered people thought it was a humbug. It was the same way with telegraphing. Everybody cried it down, and it was a long time before Morse succeeded in establishing the telegraphic system. Many people try to crush ANIMAL MAGNETISM, but it will live, for there are many eminent physicians who are making a thorough investigation of it and they will eventually adopt it. Dr. Smith is a thoroughly educated physician and surgeon. He is a graduate from the old and new schools of medicine and has been actively engaged in the practice of medicine and surgery for more than a quarter of a century. He was professor of Materia Medica in one of our leading colleges for four years, and has had all the honors pertaining to the medical profession conferred upon him. For many years he was aware of the fact that he possessed strong magnetic powers, and after making a thorough study of ANIMAL MAGNETISM, Christian Science and Occult Science, decided to adopt it, and for years he has devoted his time in curing all forms of CHRONIC DISEASES by his WONDERFUL MAGNETIC GIFT or power of healing. And thousands of invalids have been restored to health when all other methods have failed. In all forms of chronic diseases as a means for a permanent cure MAGNETISM STANDS WITHOUT A PEER. If you are suffering from any form of a chronic disease do not let your good judgment be governed by prejudice but go and see him. Consultations free. Office hours, 9 a. m. to 9 p. m., daily.
