WILKES-BARRE

IThe Tribune has opened a branch office at No. 29. Laning building, Public Square, Wilkes-Barre, for the transaction of business. The publishers propose to extend the circulation of The Tribune in Wilkes-Barre and surrounding towns, and to that end will present a very complete department of Luzerne county news. For success in this undertaking dependence is placed solely upon the superiority of The Tribune as a purveyor of all the news of the day-domestic, foreign, local, commercial and financial. The general interests of the people of Wilkes-Barre and the Wyoming valley will have in The Tribune an earnest advocate, editorially and otherwise. It is the purpose of the publishers to issue a newspaper as valuable to the general public as the metropolitan dailies, and deliver it to the people throughout northeastern Pennsylvania from three to five hours earlier than the Philadelphia and New York papers can reach them ! iphia and New York papers can

PITTSTON.

The appearance of Main street is an eyesore to numerous citizens of the city of Pittston. The cobble-stones that have been removed from the pavement are still left in huge piles along the gutter, and are a great inconvenience to people who are compelled to drive on the Main street, which is at best too narrow. The contractors who have charge of the laying of the sewer appearently are not aware the cobbles are there, while the company is not disposed to lay any claim to obstructing the gutters and water. The water company also plead innocence. Can it be that the city is expected to relay or remove them?
