Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages, in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by C. M. Harris, Druggist, 125 Penn. avenue, Scranton, Pa.

Highest of all in Leavening Power.--Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

THE WORLD OF BUSINESS

STOCKS AND BONDS.

New York, June 12.--The stock market was characterized by strength until just previous to the close, when there was a slump in Distillers and Chicago Gas.

Distillers were rather heavy all day and refused to respond to the advance in the general market, and in the last fifteen minutes of business it suddenly dropped to 134, a loss of about 2 per cent. for the day.

Chicago Gas in sympathy dropped from 7 1/2 to 7 1/8, but later recovered to 7 3/8. Distillers also sold up to 15 in the final dealings.

The railway list was strong and on good buying an advance of anywhere from 1/2 to 2 per cent. was recorded.

Susquehanna and Western was an exception, the preferred sold up nearly four points on the belief that the company had weathered the storm.

The rise in the general list was based on the improved outlook for the crops, good rains being again reported in the grain belt. Among the strong stocks were the Vanderbilts, Grand Central and Nashville and Western Union. The bituminous coalers were in better demand on the announcement that the miners in the Wheeling and Lake Erie districts had returned to work.

In the industrial list, the Industrial trials outside of Chicago Gas and Distillers, Sugar was the feature, and advanced to within a fraction of 120 on the improvement in trade conditions.

When Distillers and Chicago Gas broke, however, the stock fell to 113 1/2. Speculation closed steady in tone. The advance in prices for the day ranged from 1/2 to 2 per cent. The Vanderbilts leading. Susquehanna and Western preferred gained 2 1/2. General Electric lost 1/2. Distillers 1 1/2, and Chicago Gas 2 per cent. Sales were 531,000 shares.

The range of today's prices for the active stocks of the New York stock market are given below. The quotations are furnished The Tribune by G. du R. Dinwiddie, manager for William Linn, Allen & Co., stock brokers, 412 Spruce street, Scranton.

Table with columns: Op'n, High, Low, Close, Chg. Includes Am. Tobacco, Am. Cotton, Am. Sugar, etc.

INDUSTRIAL TOPICS.

Steel Association Says that an Advance Will Soon be Made in the Price of Steel Rails to the Old Figures of \$24 per Ton.

The Reading's coal tonnage last week was about 900 tons greater than the preceding week, but compared with the corresponding week last year, it was 21,165 tons greater, the totals being 240,127 tons, against 261,292 tons. The figures are not especially brilliant for the past month or more. For the year to date the company's tonnage has aggregated 6,494,022 tons, against 5,738,173 tons for the same period last year, an increase of 755,850 tons.

ness by giving the kindergarten all possible encouragement and making it the success it deserves to be. The school board will meet this evening for the purpose of fixing the rate for the ensuing year. The borough council met on Tuesday evening. President Lane and Councilmen Jones, Dougher, Gilmartin, Wagner and Kleinbauer having been present. The following bills were introduced: John J. Fahey, \$7.45 on Traction Company injunction; Crescent Electric Light company, \$187.50; John Carden, \$8; William Dougher, \$4; Patrick Kinney, \$5.20; John J. Fahey, \$4.05; Thomas Law, \$2.50; Patrick Dunleavy, \$3.50; M. Ready, \$4; pathmaster's time for May, \$273.80. The resignation of E. F. Blake from the council because of removal from the ward for which he was elected was presented and accepted. Mr. Jones nominated A. J. Mullen to fill the vacancy, and John J. Dougher named John Manley. Mr. Jones subsequently withdrew Mr. Mullen's name, and Mr. Manley was unanimously chosen. A petition from citizens of South Hill was presented for the erection of an arc electric light at Healy's alley, was read and their request was granted. George Lorenz complained of the condition of the ditch in front of his premises and the pathmaster was instructed to improve it. Mr. Dougher, of the road committee, to which was referred the laying of cross-walks, reported that 1,424 lineal feet of stone would be required for that purpose. The committee was directed to ascertain the probable cost of laying them. Complaint was made that there was discrimination in the employment of workmen on the borough roads, an old man from the Third ward having been laid off without any apparent cause. This led to a heated discussion, in which all the council joined. Mr. Jones said the present system of street improvement was a sham and Mr. Gilmartin agreed with him. Mr. Dougher stated that the present system was as good as any other in the city. Complaint was made that there was discrimination in the employment of old taxpayers to the exclusion of contractors. During the discussion the road machine, which the council has not used in several years, came in for a great deal of consideration. The discussion settled none of the questions raised. A letter was read from Attorney Reynolds, of Carbondale, concerning a claim of damages asked by M. Morrison, whose horse fell into the trench of the Archbold Water company early in May. No definite action was taken on the matter.

HONESDALE. Hon. E. B. Hardenbergh has been called to Port Jervis by the serious illness of his brother. His wife and son, Raymond, accompanied him. W. J. Lacey, of Scranton, registered at the Allen House yesterday. Burk Taylor will give an exhibition of lassoing at the fair grounds Saturday, June 15. Admission, 25 cents.

Printing for Grocers. Circulars, cards, booklets, letter heads, etc., printed so well at The Tribune office that they will sell goods for you.

Archbold. Emil Jasceky, whose dead body was found in the river at Plymouth on Sunday last, was well known here, where he had lived for several years. He boarded with Henry Busby, on Hill street, and he was last seen at his home on Sunday afternoon. In his condition the body was found. He was identified by means of a receipt for box rent given him by Postmaster O'Rourke. Jasceky had no relatives here. He was buried in Plymouth on Monday afternoon.

The board of trade held an interesting meeting on Monday evening. Several communications were read from manufacturers, and the secretary was directed to confer with one, a manufacturer of tools who desired to change his foundry. A committee was also appointed to draft resolutions conveying the thanks of the board to Mrs. Hackley, of Tarrytown, N. Y., for her generosity in establishing and maintaining a kindergarten here.

The kindergarten, to which reference has already been made, will be opened in September. The ground floor of a German church has been rented for a short time because of its central location and the ample playground that surrounds it. It is the intention of Mrs. Hackley to erect a building suitable for kindergarten work provided the attendance will warrant it. The school will be strictly non-sectarian and children of every faith and nationality are cordially welcomed to share the benefits of the school. It is Mrs. Hackley's intention to make the school a place of training for all the children, and she is particularly careful that no discrimination be made in race or creed. The usefulness of the kindergarten has everywhere been recognized and the people of Archbold can congratulate themselves on their good fortune in being permitted to enjoy its benefits with little or no expense to them. It is earnestly hoped that they will show their appreciation of Mrs. Hackley's kind-

ness by giving the kindergarten all possible encouragement and making it the success it deserves to be. The school board will meet this evening for the purpose of fixing the rate for the ensuing year. The borough council met on Tuesday evening. Mr. Dougher stated that the present system was as good as any other in the city. Complaint was made that there was discrimination in the employment of old taxpayers to the exclusion of contractors. During the discussion the road machine, which the council has not used in several years, came in for a great deal of consideration. The discussion settled none of the questions raised. A letter was read from Attorney Reynolds, of Carbondale, concerning a claim of damages asked by M. Morrison, whose horse fell into the trench of the Archbold Water company early in May. No definite action was taken on the matter.

HONESDALE. Hon. E. B. Hardenbergh has been called to Port Jervis by the serious illness of his brother. His wife and son, Raymond, accompanied him. W. J. Lacey, of Scranton, registered at the Allen House yesterday. Burk Taylor will give an exhibition of lassoing at the fair grounds Saturday, June 15. Admission, 25 cents.

Printing for Grocers. Circulars, cards, booklets, letter heads, etc., printed so well at The Tribune office that they will sell goods for you.

Archbold. Emil Jasceky, whose dead body was found in the river at Plymouth on Sunday last, was well known here, where he had lived for several years. He boarded with Henry Busby, on Hill street, and he was last seen at his home on Sunday afternoon. In his condition the body was found. He was identified by means of a receipt for box rent given him by Postmaster O'Rourke. Jasceky had no relatives here. He was buried in Plymouth on Monday afternoon.

The board of trade held an interesting meeting on Monday evening. Several communications were read from manufacturers, and the secretary was directed to confer with one, a manufacturer of tools who desired to change his foundry. A committee was also appointed to draft resolutions conveying the thanks of the board to Mrs. Hackley, of Tarrytown, N. Y., for her generosity in establishing and maintaining a kindergarten here.

The kindergarten, to which reference has already been made, will be opened in September. The ground floor of a German church has been rented for a short time because of its central location and the ample playground that surrounds it. It is the intention of Mrs. Hackley to erect a building suitable for kindergarten work provided the attendance will warrant it. The school will be strictly non-sectarian and children of every faith and nationality are cordially welcomed to share the benefits of the school. It is Mrs. Hackley's intention to make the school a place of training for all the children, and she is particularly careful that no discrimination be made in race or creed. The usefulness of the kindergarten has everywhere been recognized and the people of Archbold can congratulate themselves on their good fortune in being permitted to enjoy its benefits with little or no expense to them. It is earnestly hoped that they will show their appreciation of Mrs. Hackley's kind-

ness by giving the kindergarten all possible encouragement and making it the success it deserves to be. The school board will meet this evening for the purpose of fixing the rate for the ensuing year. The borough council met on Tuesday evening. President Lane and Councilmen Jones, Dougher, Gilmartin, Wagner and Kleinbauer having been present. The following bills were introduced: John J. Fahey, \$7.45 on Traction Company injunction; Crescent Electric Light company, \$187.50; John Carden, \$8; William Dougher, \$4; Patrick Kinney, \$5.20; John J. Fahey, \$4.05; Thomas Law, \$2.50; Patrick Dunleavy, \$3.50; M. Ready, \$4; pathmaster's time for May, \$273.80. The resignation of E. F. Blake from the council because of removal from the ward for which he was elected was presented and accepted. Mr. Jones nominated A. J. Mullen to fill the vacancy, and John J. Dougher named John Manley. Mr. Jones subsequently withdrew Mr. Mullen's name, and Mr. Manley was unanimously chosen. A petition from citizens of South Hill was presented for the erection of an arc electric light at Healy's alley, was read and their request was granted. George Lorenz complained of the condition of the ditch in front of his premises and the pathmaster was instructed to improve it. Mr. Dougher, of the road committee, to which was referred the laying of cross-walks, reported that 1,424 lineal feet of stone would be required for that purpose. The committee was directed to ascertain the probable cost of laying them. Complaint was made that there was discrimination in the employment
