CITY NOTES.

A sacred band concert is announced for Laurel Hill park at 4 o'clock Sunday after-

Teachers and employes of the city schools are today being paid. Some were paid yesterday.

A marriage license was yesterday granted to John G. Imledoff and Maggie Manning, of this city.

Flag Day was not generally observed in this city, although the national colors floated from the public school buildings. Mrs. James H. Kilpatrick, of Franklin avenue, whose husband so cruelly beat her, is still in a critical condition and suffering from internal injuries.

William Youngs, of Scranton, for the past three years clerk at the Westminster hotel, has been engaged as manager of Fern hall, at Crystal lake. The hall will be opened to the public today.

Alderman L. N. Roberts, of the North Erd, last evening committed Mrs. Mary Fanning to the county jail for fifteen days for abusing her family and being in an in-

texicated condition most of the time. R. J. Burke, a graduate of the law de-partment of the University of Pennsylvania, and J. H. Honner, a graduate of Dickinson Law school, have formed a partnership and opened a low office at 508

The thirty-six diplomas to be issued to high school graduates were signed yes-terday by Principal J. C. Lange and school board officials. It was a coincidence that the secretary of the school board, Eugene D. Fellows, attached his signature to the

diploma to be issued to his son, Eugene D. Fellows, who is 15 years old and the young-est member of the class. He will attend the School of the Lackawanna one year and will then enter college.

The Eric and Wyoming Valley railroad have made arrangements to take the rela-tives and friends of the late William Masers to the funeral at Wimmers' Summit, on a special train leaving Scranton Sunday, June 16, at 12 o'clock noon.

Green Ridge property owners having falled to comply with an ordinance pro-viding for the laying of skiewalks in many streets, the city has awarded the contract to the Teeter company, and liens will be entered against the properties to cover the ost of the work.

As it is not possible for the members of the committee of the Women's guild, hav-ing under its care St. Luke's kindergarten, to call upon all those who from time to time have promised or volunteered aid to its treasury "as the same should be found needful," all such members of the congre-gation, and others of St. Luke's people who are interested in the success of this nost important work of the church, are equested to now send their contributions to it for this year to Mrs. Laton Oakford, chairman of the committee, or to the rector, Rev. Rogers Israel, who will gladly re-ceive them. It is desirable to have them in before the school year closes.

FIGHT TO A FINISH

the Traction Company.

FRANKLIN AVENUE TROUBLE

Was Revived Yesterday and the Company Was Refused an Injunction Against the City-It Will All Be Aired in Court

Fir six months there have been serious differences between the Scranton Traction company and Mayor Connell, n behalf of the city, which seem destined to create litigation, and which illustrate a disposition on the part of the company to get much for little and the mayor's attitude in trying to prevent such a condition.

A chapter in the difficulties came to the surface in court yesterday when ex-Judge Knapp, for the Traction company, asked for a preliminary injunction to restrain the city from laying a payement at the junction of Spruce street and Franklin avenue. During the noon hour Judge Gunster made a personal inspection of the locality, and on his return to court refused the infunction, and will file his opinion later. The issue between the city and the company on Franklin avenue is very complicated, and future rights and

privileges of the company will probably be decided by court. Some time ago the company was successful in obtaining councils' consent-to move its "Suburban company track to one side of the street in order to make room for would be sent to assist his son in the extending the track of the People's company from Spruce street to Lackawanna avenue." As this was really a permission to double-track the avenue. the property owners opposed the request in councils. After the company secured the passage of the ordinance the property owners obtained from court an injunction.

Company on the Alert.

According to the ordinance the company had only until yesterday to lay its additional track. That the company intended putting in a diamond switch on the corner and hoped to lay its extra track was shown in its application for the paving injunction which was refused. After securing permission from coun-

cils to lay an extra line of track and before the property owners secured the injunction, the company tore up as portion of the avenue south of Spruce street. The thoroughfare is now in a bad condition. The opposition to an extra track in-

volves more than the wishes of property owners on the avenue in question. It is claimed that had the company been permitted to lay and use right to lay and maintain a People's street railway track on any public thoroughfare in the city.

inder a state act of 1866 (pamphlet aws, p. 1199), of which the following is an excerpt:

"That A. B. Dunning, D. R. Randall, George Tracy, A. Bennett and Samuel Raub, their successors, associates or assigns, be and are hereby constituted a body politic and corporate with perpetuni succession by the name and title of the People's Street Railway company of Luzerne county, and as such shall have the right to lay out and construct a railway with one or more tracks, indicated that they may deem advisable, and to cross any grade or connect with any other railway now constructed or that may hereafter be constructed • • •

Contained Sweeping Privileges. From the foregoing it will be seen hat there was very little if any restriction except in one phrase, "selecting any route between the places indicated." The word "route" is in the singular, and, by those opposed to the company's appetite to gobble, is thought to restrict the company to each route it has occupied in past years. It, however, the councils' permission to lay a track in Franklin avenue had not been thwarted in court, it might have given the company an established right

to lay its iron wherever it pleased. There is still another important feature of the case: It has been suggested that the company will fight he property owners and mayor with the state charter of 1866 and its sweeping provisions as a basis. In this connection it has been suggested that by seeking in councils ordinances affecting the People's company that corporation has forfelted its state charter and accepted the provisions of the new constitution. In such case the company would be obliged to secure through councils permission to perform extension work or change any of its tracks

Meanwhile the court's injunction on the Franklin avenue matter still stands. Until a final decision is reached the company will not even be permitted to unload in the involved district material to be used in laying the line of track.

The committee did not wait to see the machinery work, but a thorough inspection was made of the plan of the work and it appears as if the place will cease to be nulsance under the new arrangement.

What has heretofore caused the air of the surrounding towns to be laden with the exhalations from the establishment, was the "drying boxes." In their stead a hermetically sealed cylinder has been substituted. The vapors from it ascend in a pipe which projects through the roof and down along the side into a large vat sunk in an excavation. Where the pipe makes the bend it is joined with another pipe through which a stream of water is pumped. The water becomes im the track it would have established its pregnated with the vapors and that destroys their effect. Infantum. Extraordinary Care with Baby's

Food Essential. Weaning baby in summer is attended with peril when heat and improper feeding conspire to derange the sensi-

tive stomach. As warm weather comes on children require the most wholesome, nourishing and palatable dlet possible, and lactated food should be in the hands of making their homes here, the chain every mother. Sudden changes of the atmosphere are dangerous above all things to infants whose digestive apparatus is out of order, and the use of lactated food is especially to be commended because of its corrective influence in cases of irritability of the stomach.

Then, too, the mother who has tried hard to nurse her child, but growing weak and losing her own appetite until she is nearly worn out, and finds now that she must wean her infant while the days and nights are growing hotter and more and more debilitating can do so, as thousands of mothers have done before, upon lactated food.

The infant will like it and grow strong and happy upon it. The compo sition of lactated food is simply this: Its basis is sugar of milk; with it is combined the digestive elements of wheat, barley and oats, producing a completely deodorize the establishment. pure food which meets every requirement of the growing child.

There is no secret about it. It is the food physicians use in their own familles and most generally prescribe. Thousands of mothers have testified to the fact that lactated food has done what nothing else could do-saved the

lives of their little ones. No better evidence can be offered of its superiority than the many instances in which fretful, peevish and sleeples. bables, as soon as put on lactated feed, sleep all night and wake up laughing. The happy change, physicians say, is solely due to the superior nourishing and satisfying qualities of this best of foods.

It must be borne in mind that lac tated food is so inexpensive that it is within the reach of every family.

CORONER TO INVESTIGATE. Selected a Jury in the Case of Samuel

Decker. The killing of Samuel Decker on the Delaware, Lackawanna and Western road north of Nay Aug tunnel Thurs-Most Critical Year in the Baby's day night will be investigated by Coroner Kelley. Decker was an Eric and Wyoming brakeman and lived with his parents, on Elm street, Dunmore. He was returning on a freight train from the central city and alighted in front of a passenger train which killed him instantly.

Coroner Kelley yesterday morning impaneled a jury, who viewed the re-mains and adjourned to meet Monday night in the court house, where the testimony of the trainmen will be taken.

In connection with the unfortunate death of Decker is another story-a second inquest in the same case was conducted by Alderman Butterman in his Tenth ward office last night. The Alderman impaneled his jury yesterday after being told that Coroner Kelley had been notified of the death. When Coroner Kelley arrived in Dunmore in the morning he ignored the Alderman's action in the matter and proceeded to impanel a jury who viewed the remains and adjourned. The alderman's jury last night rendered a verdict that Decker "met his death by jumping off a coal train direct in front of said passenger train."
