KIRST'S

A game of ball will be played at the They Were Read for the Enlightenment of the Board of Trade. THE PLAN THAT HE SUGGESTS

> Thinks That a Board of Public Works Would Insure More Satisfactory Expenditure of Money on the Streets. Business Before the Board.

Street Commissioner Phillip Kirst de-

livered a long distance speech at the board of trade meeting last night, his subject being, "The Difficulty of Maintaining the Streets of the City." At the end of the remarks the street commissioner was to have delivered a vote of thanks was tendered to him. Secretary D. B A.therton stated to the members that Mr. Kirst had been unexpectedly called out of the city on

business of pressing importance, and

the gentleman had collected his ideas

on paper and sent them to be read at

the meeting. There was also a letter of regret from Mr. Kirst on account of his inability to be present. Mr. Atherton read the speech eloquently, sounding every sentence with perfect intonation. In the beginning the speech confessed that the present system of expending the ward appropriations is a failure, for obvious reasons. The remedy, according to the street commissioner, is in the creation of a board of public works, such as is out-lined in the Chittenden ordinance now

before select council. Mr. Kirst urged upon the board to endorse the ordinance, so that councils may not disregard it, but on the contrary make a law of it. The citizens were blamed a good deal for the condition of the streets. Councilmen are afraid to bring any improvements to pass for fear of certain taxpayers who are walting for a chance to sue the city for damages.

Spoke of Election Whisky.

Mr. Dale, ex-prothonotary, agreed that the present system of street repairing is a failure and that a board of public works ought to be created. Mr. Chittenden spoke regarding the ordinance providing for the creation of a board, but he made the doleful prophecy that o'clock yesterday afternoon, Revs. Sev- it will hardly live through its struggle to become a law.

H. E. Paine said that the ordinance has too many good provisions to pass and relatives escorted the remains to the councils; it changes the method of expending the ward appropriation which has been often used in the past to pay for election whiskey. The street commissioner told him, he said, that in a certain ward running along the vertisements, to add one page more to river, (and the speaker pointed his finger toward the South Side) the ward appropriation of \$600 or \$700 had been dis tributed among 250 or more men, where there are not enough of picks and shovels in the same ward to keep twenty men going. It was the sense board that the Chittenden ordinance should become a law.

Will lie No Summer Sessions.

Luther Keller, chairman of the manufactures committee, recommended that the July and August meetings of the board be dispensed with, and that special meetings, if any, be subject to the call of the president, and that the secretary be given a vacation of ten days during the month of July.

The committee on public safety re ported that the fire marshal bill, introduced by Senator Vaughan, of this dis trict, was passed by the late legislature, and that the secretary has written to the governor, respectfully calling his attention to it, and soliciting him

o give it his official sanction. The committee on streets and highways reported that through the efforts of our representatives the late legis lature passed a road bill for the betterment of our public highways, also a wide tire bill, which provides that all parties using tires of not less than four inches in width shall be exonerated 25 per cent. of their road tax. Th latter bill originally provided that if three inch tires were used, a deduc tion of 33 per cent, of road taxes would be allowed, but was amended as above upon resolution passed by this board. Both of these bills now await the signature of the governor.
