THE WORLD OF BUSINESS

STOCKS AND BONDS.

New York, June 18.—The sales of stocks today were 282,000 shares. The low price issues and Missouri Pacific and Tennessee Coal and Iron were in the best demand. The southwestern issues were again bought on the improved outlook for the crops, while Tennessee Coal and Iron was taken by its foreign friends on the further rise in pig iron. The higher priced railway stocks were neglected and few if any gains were scored net gains for the day. The anthracite coalers, except Susquehanna and Western, were firmer. New England was higher, but Erie and Louisville and Nashville were weak on foreign selling. In the industrial department, the market closed steady to firm. Net changes show declines of 3/4 per cent. in the usually active list.

Table with 2 columns: Stock Name, Price. Includes items like Scranton Glass Co., Scranton Coal Co., etc.

The Silver Market.

INDUSTRIAL TOPICS.

East-bound freight shipments from Chicago last week were 47,786 tons, against 45,881 tons in the same week last year, and 59,870 tons in 1893. In 1890 our product of natural gas was estimated at 552,150,000 cubic feet, for heating and illuminating purposes at least 2,774,417 tons of coal.

The Pennsylvania anthracite mines have been worked without cessation since 1820, the output having continually increased until it reached in 1891 the aggregate of 45,828,962 long tons.

In 1849 the gold production of this country began with an output of \$40,000,000. Since that time it has fluctuated, once in 1853, rising to \$55,000,000 and once, in 1883, sinking to \$30,000,000.

The Tennessee Coal and Iron company has announced another advance of 50 cents a ton on the price of Southern pig iron, which makes a total raise of \$1.50 on No. 1 foundry iron since May 1.

The Gaylord Coal works at Belmont county, Pa., is working, W. Va., owned

by a syndicate from Wyoming Valley, of which Superintendent Gwilym Edwards, of Kingston, is one, have been closed on account of a strike. The third rail is being laid on the Montrose railroad to connect Lake Carey with the Lehigh Valley railroad, so that excursion trains may run to the lake without change of cars. It will be extended to the lake, and the grove opposite the Spring Grove House.

In 1890 Colorado was the leading silver mine, the output of the Colorado mines in that year being \$24,000,000. Montana was second, with the production of \$20,000,000, while the mines of Nevada had almost ceased to yield, the total output of that state being but \$7,750,000.

In the state of Pennsylvania, produced 42,788,490 tons of bituminous coal, while Illinois produced 15,669,693 tons; Ohio produced 12,868,683 tons; West Virginia, 9,220,655 tons; Alabama, 4,752,751 tons; Iowa, 3,512,532 tons; Indiana, 2,973,474 tons, and Missouri, 2,674,606 tons.

In 1820 this country produced 22,400 tons of pig iron, and Great Britain produced in the same year 400,000 tons. In 1890 the product of this country has risen to 919,770 tons, and that of Great Britain to 3,826,752; in 1890 the United States produced 9,202,703 tons, and Great Britain 7,904,214 tons.

The Huntington and Broad Top Mountain, Pa., coal mines, reported coal shipments for the week ended Saturday amounting to 46,388 tons, an increase over the corresponding week last year of 40,899 tons. The shipments for the week ending Saturday amount to 55,174 tons, an increase of 27,334 tons.

Thomas Lynupp, one of the youngest rock contractors in the county, has been awarded the contract for driving a rock tunnel in No. 18, Lehigh and Wilkes-Barre, Pa., between the Lehigh and the Susquehanna. Mr. Lynupp is a son of the late Edward Lynupp, who was also a rock contractor. The length of the tunnel will be about 600 feet.

The amount of capital engaged in the electrical industry, not including telegraphy, is estimated as follows: England, \$100,000,000; France, \$150,000,000; Germany, \$200,000,000; Austria, Italy, Spain and Switzerland, \$180,000,000; Russia, Sweden, Norway and Denmark, \$50,000,000; the United States, \$450,000,000; Canada and other American countries, \$50,000,000, making a total of about \$680,000,000 in Europe and \$500,000,000 in America.

Philadelphia Inquirer: A new point has been reached in the anthracite trade—the point where the companies will have a small tonnage as well as low prices for the product. Individual shippers along the line of the Lehigh Valley road find they cannot make both ends meet and are dropping out of the race. The company has notified all its shippers that the operators will not do it. One firm has shut down one of its collieries and will work the others three days, another firm will work all its collieries but three days and still another will work but two days. The operators would prefer to shut down entirely, but they desire to keep their employees together and to hold their trade as well. But there is no money in the business for them. The average selling price of Lehigh Valley coal in New York harbor in May was \$2.96 for stove and \$2.94 for chestnut. At these prices the operator receives \$1.77 for his coal at the mines, and no operator can produce coal and pay the royalty at this price. The more coal he mines the more money he loses. It has taken a long time to reach this point, but it has come at last and the companies must now face the situation. They had better get it wrong now than have a small tonnage. This means ruin for some of the companies, and those that have a large output by individual producers will suffer most. It makes the situation so bad that it would be better for them to let the companies to get together and settle this coal problem, but the prospect is it will not. Things must get even worse if possible before they get better.

HONESDALE.

The dispatch from Port Jervis yesterday to the effect that the Delaware and Hudson Canal company had decided to abandon the canal east of Summitville has been denied here. The company would gain nothing by such a movement. The story was probably started in order to give Port Jervis credit for a little news.

General Passenger Agent J. W. Burdick, wife and daughter, of Albany; Western Union Telegraph company, of New York; E. K. Edwards, general manager of the Hudson River Telephone company, and J. Kirk Rose, constituted a party that started on a trip down the canal in the Delaware and Hudson yacht yesterday morning.

Health All Gone Unequal to Family Duties—No Appetite

Hood's Sarsaparilla Cures Strength and Courage to Work. "I was in such condition I could not walk even about the house to attend to household duties and care for my children and family. I did not have the strength of a child. I was treated by several physicians, who pronounced my trouble incurable and I was told I could eat only a slice of bread and drink a cup of tea, three times a day. Some times I could stand for dinner. I became reduced to skin and bones; at last they had to draw me out of the house seated in a rocking chair. I was in a terrible state when my husband, having noticed my sufferings, procured Hood's Sarsaparilla, and I am now as well as ever."

On Wednesday evening, at the home of Mr. Stephen Keiser, on Arch street, will occur an ice cream and strawberry festival. Proceeds will be given to reduce the indebtedness of the Baptist church.

One of the Marvelous Cures Now Being Performed by

Dr. F. B. SMITH

And Staff, 312 Wyoming Ave. The Most Powerful Magnetic Physicians Living. A Helpless Cripple for Years.

Mrs. Annie Krueger, who resides on Drinker street, Dunmore, when interviewed, made the following startling announcement:

"For the past two years I have been a helpless cripple. I could not walk a step and was entirely confined to my room. No one but God knows the awful suffering I endured. Every joint in my body was swollen and so painful I could not move, and as night would draw on the pain seemed to increase in intensity and often became so excruciating that I could not keep from crying out in despair. How many, many nights I counted the hours as they dragged wearily and slowly by. I consulted physician after physician who failed to give me any relief. Medicines and liniments were worthless, for they did me no good. I was about to give up in despair, when hearing of the remarkable cures that were being made by Dr. F. B. Smith and staff, the MAGNETIC PHYSICIANS, at 312 Wyoming avenue, I decided to send for Dr. Smith and induce him to call at my house to relieve me of my awful suffering. The effect of his MAGNETIC treatment WAS STARTLING. I began to grow better after the first treatment and in one week's time I WAS ABLE TO WALK ACROSS THE ROOM FOR THE FIRST TIME IN TWO YEARS. I continued to improve and today I am a well woman." Mrs. Krueger is loud in her praises and recommends any one suffering from any form of disease to consult Dr. F. B. Smith and staff. Free of charge, from 9 a. m. to 9 p. m. daily.
