## Tired Women

Should stop and consider the dangers which threaten them because of their weakness, languor and lack of ambition Thousands of women find their strength unequal to the demands of duty. And yet there is no escape from the incessant round of care and toil. They must have strength. How shall it be given? By building up their systems through purifled, enriched and vitalized blood. Hood's Sarsaparilla will give them strength because it will make their blood pure and enable it to feed the nerves upon proper nourishment. It will create an appetite, tone the stomach and invigorate every organ. It is what tired women need.
