### TUNKHANNOCK.

Montrose car No. 4, which suffered partial demolition in the recent smash-up near Springville, has returned from the repair shops in good trim. It now wears a dress of dark paint to correspond with the coaches on the Lehigh Valley road.

An intoxicated female attracted considerable attention yesterday in a vain attempt to walk the narrow gauge railroad track. She explained to some sympathizers that "the Sentinel anticipated. If anything of the kind ever occurs, it will be later on."

Professor P. Stanley Stebbins will spend his vacation at Cambridge, Mass., and other New England towns.

The new time schedule on the Montrose road takes effect today. North-bound trains will leave as follows: 6:45 a. m., 8:30 a. m., and 2:50 p. m. The building is occupied as a dwelling by the telegraph operator and the assessor could see no good reason why it should not be assessed, same as other residences.

But three applicants for permanent certificates appeared before the examining committee yesterday. They were Professor W. M. Wood, Miss Angie Gilman and Miss Frances Williams.

The department of public instruction at Harrisburg will pass upon their applications after reviewing the result of the examination.

## IT IS FALSE

Bright's Disease of the Kidneys Can Be Positively and Permanently Cured--If You Will Only Consult

Dr. F. B. SMITH

And Staff, at 312 Whoming Avenue, You Can Find Speedy Relief.

Bright's disease of the kidneys has been a puzzle and a study to the medical profession for years, and with but little hope of ever performing any wonderful cures. They have traveled on and on in the same old rut until they have completely degenerated, and they will invariably say, "It cannot be cured." Scores and scores of men and women die annually from this dread disease after having been told there was no help for them. THIS IS FALSE. THERE IS HELP. If you will only avail yourself of the opportunity YOU CAN FIND A SPEEDY AND PERMANENT RECOVERY BY CONSULTING DR. F. B. SMITH AND STAFF AT 312 WYOMING AVENUE, the most eminent and thoroughly educated physicians living. The following very interesting case speaks for itself: Mr. Henry E. Avery, who resides on Providence road, consulted Dr. Smith and staff some three weeks ago, suffering from one of the worst neurotic cases of Bright's disease the doctors ever saw. He was debilitated from the cradle of his head to the soles of his feet. His urine was so loaded with albumen that in boiling it became solid. All hopes of recovery had been abandoned and it could have been only a matter of a few days when death would have put an end to his sufferings. He was above stated his treatment some three weeks ago and, strange as it may seem, today he is convalescent, every trace of albumen having left his urine and the bloating has rapidly disappeared. Are you sick or ailing? If so, don't let prejudice overcome you and judgment, but consult Dr. SMITH FREE OF CHARGE out of mere curiosity if nothing else, and INVESTIGATE HIS METHOD OF HEALING. He invites investigation. Office hours 9 a. m. to 5 p. m. daily.
