ECRANTON, JULY 3, 1895.

Republican State Convention.

Chairman B. F. Gilkeson, of the Resublican State committee, has issued a all for a state convention to meet at Harrisburg Wednesday, Aug. 28, at 11 o'clock a. m., for the nomination of one candidate for state treasurer, six candidates for judges of the Superior court, and for the transaction of such other business as may be presented. In this convention the representation of the northeastern counties will be as follows:

Lackawanna, First district... Lackawanna, Third district... Lackawanna, Tourth district... Luzerne, First district... Luzerne, Second district... Luzerne, Third district... Luzerne, Fourth district uzerne, Sixth district. Schuylkili, First district. Schuylkili, Second district. Schuylkili, Third district. Schuylkili, Fourth district

the above counties will supply 34. The tariff will be on issue in American politics just so long as Democratic in s attempts to monkey with it.

Scranton and Willard.

is kind in the Scranton Republican, rhich a few days ago was exploiting Judge Willard's alleged "mercurial temperament" and otherwise revealing its previously masked treachery to Mr. Willard, now to declare that "there is no division among Lackawanna Repubicans as to an earnest support of Judge ranton. The Republican editor is probably loyal to Mr. Willard at this ime through necessity; he would doubtless be quick to use the assassin's knife if he could safely do so in furtherance of his own ends.

It is our belief that the people of this ection do not want to see J. Donald ter Quay placed in charge of the federal ple counter. Whether they agree with or dissent from Cameron's silver views they do not recognize in him the qualities of statesmanship which should be possessed by a president of the United States. Therefore, they will not help Quay to land Cameron a winner, in ex change for the federal patronage.

The Trolley and the Public

The Pittsburg Commercial-Gazette thinks that "all that is needed to keep the trolley companies within reasonable bounds is to pass and enforce proper laws for their regulation. That may look simple enough, but the question suggests itself. How are such laws to be passed and enforced? The people have reserved ample power to deal with the transportation, as with other problems, but the difficulty is to choose representatives who will pass efficient force and effect to any measures which may be adopted. The responsibility for the failure to regulate the troller lines thus falls back upon the people.

POLITICAL GOSSIP.

The veteran observer of things political, Colonel D. C. Forney, ex-editor of the Philadelphia Press, but now a resident of Washington, has just made a tour of Pennsylvana with eyes and ears alert, and in consequence sends the Post a lively letter on the present political situation. Among other things Colonel Forney says: "The real figures are, first, Senator Quay and his ligutenants, and arrayed against these are the governor and his followers, the most prominenet of whom are Chris Magee, of Pittsburg, and Dave Martin, of Philadelphia, two of the shrewdest political workers in the state, and long ical workers in the state, and long enough identified with its politics and onough identified with its politics and the Republican party to understand all about its management. To invite a conflict with these forces, and as I can understand it, upon no other ground than purely personal ones, as Senator Quay's position seems to show, can only be explained on the hypothesis that he has lost his head. In other words, that too much power has made him mad. Granting him all the political sagacity his friends claim for him, and his many strong traits of character, the strongest of which is his fidelity to his friends, his position today in his state,

In the meantime, however, chained lightning will probably not, so far as public transportation is concerned, far ourrun its present utilization for local, short distance transit.
