Philadelphia Press: "The anthracite coal trade is still seriously considering the new condition of affairs growing out of the ecting of last Thursday. There was proposition which had been handed around among the trade for some time, original ing with Mr. Sayre, of the Lehigh Valley covering the tonnage for the calendar year and including an advance of about 50 cents per ton in the price of coal at the roper time. The proposition was regarded as a good one by most of the people who saw it and it was hoped the meeting would favor it. It was violently opposed by Mr. Holden, of the Lackawanna, so violently that it was not thought proper to adopt it, which it is believed the meetng would have done had a vote been reached. Mr. Holden took a strong post tion, and said in very plain words that the Lackawanna company would not bind itself to any plan as to tonnage. He did not believe in restriction. The meeting was surprised, both at the matter and manne of Mr. Holden's remarks and it was thought that it foreshadowed some nev solley on the part of Mr. Sloan and the Lackawanna company. There is a strong feeling in this city that it is uncless to hold monthly meetings and then to talk etc. The Tribune, of abandoning them. In its review of the stock market the

New York Times says: "About the strongest stocks on the list have been the coalers, while the state of the coal trade ought to put them among the weakest. Doubt less the explanation is that holders ar waiting for the expected settlement of the disputes between the companies. Nothing of moment has been done so far. The subject did not come up at the Morgan din ner. The general sales agents at meeting on Thursday, after four hours wrangling, patched up something for an other month, and again agreed to put up prices 50 cents per ton. They did the same at the last two monthly meetings, but no advance was obtained, and probably nor will be from Thursday's action. They agreed to restrict production in July to 70 per cent. of the May tonnage. This would be about all the tonnage that could be mined anyway, as all the companies have so many cars now loaded with coal that they could not furnish transportation for any more. It will take three months of tonnage each month below three million tons to strengthen prices. As we have previously said in this column, the sales agents are not competent to handle this business. Besides, they have not the authority to bind their companies to the agreements or suggestions. The presi dents must agree to a plan, and they themselves be responsible for its enforcement. They must take the conduct of the business out of the hands of men many of whom are making so much money in commissions on the sale of coal, that it is a scandal deserving of investigation by comcompanies.

WAS A DAMAGED WHEEL.

At Least That Was What She Concluded When She Tried to Ride One.

From the Chicago Times-Herald.
Two bicycles stood in front of the Blanque mansion and the neighbors knew that Mr. and Mrs. Blanque were to make their debut as riders that evening. Before they had watched long the door opened and Mr. Blanque appeared.

"Now, then, come along," he was say ing; "it's easy enough when you grasp the principle; I've been using my powers of observation and I know just how should be done. Why don't you come along?

"Oh, Harold, I'm ashamed in this skirt do come and tell me--' "I've told you sixteen times already that it looks well enough and that nobody on earth will ever pay half as much attention to it as you do." "But, Harold, the skirt is so short!"

After one more trial she was seated and grasping the handle bar. "Oh. isn't i splendid!" she gasped. "I just know can—Oh-h!"

As her husband picked her up she ex-claimed: "They've sold you a damaged wheel, Harold Blanque; that's what they've done! It isn't even and it neve will stand firm! Oh, is that horrid Mrs. Flyers watching me? If she is, I won't ride any more."
"Never you mind Mrs. Flyers; she can ride like sixty herself."

GOING OUT OF BUSINESS, POSITIVELY

The ill health of Manager Goodman will cause The Empire Dry Goods Co. to go out of business altogether. The stock will be closed out until everything is sold. Sale begins Saturday, July 6, at 10 a. m. Two days the store will be closed to mark every item in store in plain figures. The people of Scranton never had such an opportunity to buy a staple, clean stock at your cwn prices, and almost anything and everything in the household line. It would be too expensive for us to go into details as to what the stock consists of. Everybody knows the line of goods we carry, and it is only a question of how long the stock will last at such sacrifice prices. Building must be vacant by September 1, and every kind of goods must be closed, cost or below cost, or at any rate. Are You Sick?-Are You Afflicted?-Are You a Sufferer?-Don't Let Projudice Run Away with Common Senne, but Consult Dr. F. B. Smith and Staff, 312 Wyoming Avenue, Scranton, Pa., if You Would Obtain Immediate Relief.

There is, and always has been, a certain class of people that, not knowing why, will up and say, "Don't go to this doctor, to go to him for, why, he is only a quack and fraud." Let us say right here ine," she grouned as he mounted, "but, for that class of people we are really and truly sorry. How can any one stand up and openly condemn a physician or surgeon right in the face and proof their many wonderful cures, unless it be through ignorance and prejudice, man, woman or child with anything like an ounce of brains would dare attempt and I don't think, would be guilty of suan open and ignorant assertion. We had an instance the past week where one of our patients was severely afflicted with chronic rheumatism and had suffered with ost excruciating pains for the past three nonths, unable to walk or even turn ovn bed, and had been treated by the momineral physicians in Scranton without ven finding temporary relief. They de ided to send for Dr. Smith and staff, at 312 Wyoming avenue, and strange as it may seem, which is nevertheless true after one treatment he was able to walk around quite freely. A few days subs quent to that a relative of his was ac osted on the street by a friend who quired after the patien's health. The realtive replied that he was on the road to re-covery and said that he was being treated by Dr. Smith, whereto the friend replied that he ought not to let those quacks treat him, and that he himself would not even take their medicines. To this we can only say, "God help him." What are we coming to when ignorance and prejudice can be so openly shown and right in the face class of people we want no dealing with whatever, but to the sensible and educated we invite a hearty and thorough investigation of our method of healing. Come consult us free of charge from 9 a. m. to 5 p. m. daily. We would be pleased to s
