Head with an Iron Bar. Atlantic City, N. J., July 14.—Miss Louise G. Davis, the young lady who was murderously assaulted by a burglar at her brother's home on Saturday night, is still in a critical condition. Dr. Van Lennep, the Philadelphia surgeon who was telegraphed for, has been con stantly at her bedside, and has almost despaired of hope. Her brother, who grappled with the assassin, and who received a blow on the head with an iron bar, is slowly recovering, but is not vet out of danger.

It is not believed that the crime was the work of a professional burgiar, as the police say they do not carry such cumbersome articles as iron bolts. The bolt that he used is in the hands of the police and is similar to those being used in the construction of the Cooling company's plant, of which Mr. Davis is manager. Another bolt taken from the plant matched it in style and finish. Another point is that on the bureau n Miss Davis' room were some valuable diamonds which were left untouched, which indicates that the scoundrel was surprised before he had time to ran-

International Convention of the Young People's Union.

LARGEST GATHERING KNOWN

Pleasing Programme Prepared for the Week - Twenty-Two Simultaneous Meetings Arranged for Wednesday. Friday Morning's Features.

Baltimore, July 14.—It is evident that the fifth session of the international convention of the Baptist Young People's Union of America is to mark an epoch in Baltimore; for it is predicted that it will be the largest gathering of Baptists that the world has even seen, and numerically the greatest convention ever held in the Monumental City. Within the next three days fifteen thousand of the flower of young Baptist manhood and womanhood will have assembled for their monster convention. The convention will be in session four

days, during which time there will be rallies and prayer meetings in all of the Baptist churches of the city and houses of worship of other denominations, besides the great gatherings in the mammoth tent, specially erected and delightfully located near the main entrance to Druid Hill Park. The tent will comfortably seat more than 10,000 persons. The platform from which the speakers will address the audience is provided with seats for two hundred. Behind the platform six tiers of seats will be used by a chorus of five hundred voices and an orchestra of fifty pieces, under the direction of Professor H. W. Porter.

Committees comprising over 1,000 members, headed by a most efficient executive body, have worked ceaselessly for months, preparing for the reception and handling of the delegates and vis-

Twenty-two simultaneous preliminary meetings in Baltimore and missions will be held Wednesday evening to pray for the Divine spirit to rest upon the deliberations of the convention. Over 100 separate meet ngs will be held in four days. The convention will be opened

Thursday morning at 10 o'clock by President John H. Chapman, of Chicago. After devotional exercises, led by the Rev. Dr. C. A. Hobbs, of Delavan, Wis., the address of welcome will be made by Eugene Levering, on behalf of the Baltimore churches. Dr. H. M. Wharton, of Brantly church, will deliver the welcome of the Baltimore Young People's societies. The responses will be made by the Rev. A. C. Dixon, of Hanson Place church, Brooklyn, N. Y.

ful Voyage. New York, July 14.—The French liner La Normandie, which arrived from Havre this morning, had a decidedly eventful voyage. Just after her departure from Havre, one of the firemen Francois Leftem by name, was instructed to open one of the coal bunkers. He did so, using a naked light As soon as the hatch was opened there was a rush of gas, which instantly ignited at the lamp flame and exploded with tremendous force, instantly killing Leftem and doing more or less

damage to the bunker fittings. On July 9, just after the passengers had seated themsedves at dinner, fire was discovered in the forehold and a fire alarm was instantly sounded. The crew ran to fire stations and lines of hose were stretched along the decks. The passengers were quiet and orderly under the circumstances, and there was no panic. Officers and crew worked systematically all night long. and toward morning had the fire well under control. At 9 o'clock on the morning of July 10 the fire was entirely out. The passengers drew up a se of resolutions thanking Captain Deloncle, his officers and crew for their bravery and energy. La Normandie made port without further incident. On July 6, off the Lizard, the St. Louis passed in sight of the French steamer and quickly drew ahead and was soon out of sight.

MARRIAGE OF DR. BOWERS

The Alleged Poisoner Weds a San Jose School Teacher-Remarkable Experiences of the Bridegroom.

Chicago, July 14.—A special from San Francisco says: Dr. J. Milton Bowers, the head of the most sensational polsoning case in California, criminal anhuls, was secretly married to his fourth wife, a woman who befriended him when he lay in the shadow of the gallows for months. Bowers married Miss Mary Bird, a San Jose teacher, May 27 last, at Denver, but the fact has just leaked out here.

Bowers, whose specialty in medicine women's diseases, has 'had a remarkable career. On Nov. 1, 1885, his third wife, Cecilia Bowers, died under suspicious circumstances. Her brother, Henry Benhayon, on the following day complained to the police that Bowers had poisoned his sister as he wanted to marry Miss Bird, of whom he was enamored. Bowers was arrested and it was shown there were traces of phosphorus in the dead woman's stomach. He was tried and convicted and sentenced to be hanged, but secured a new trial and again was con-

> on Night of Feb. 9. After eluding justice for six months Joseph Visniskie, the young Pole who murdered his countryman, Felix Dandziak, on the night of Feb. 9 in this city, has been captured in Buffalo. Two peculiar birthmarks were the principal means of disclosing his identity. One was a mole on his face near the nose and the other consists of two fingers of his right hand, which are "welded" or grown together. Immediately after the flight of Visniskie. Chief Simpson sent out circulars giving a description of the murderer and enclosed with each a photograph, of which the

ccompanying cut is a copy. This photograph was secured from a group ploture of a party to the number of about twenty of young Polish men and en. Väänäskie's face was reproduced and enlarged and thereby an excellent likeness of him was secured.

Circular That Was Sent Out.

The type written circular read as fol-"Arrest, charged with murder, Joseth Visniskie. He is 24 years of age. 5 feet 9 or 10 inches tall, weighs 165 or 170 pounds, well built, blue eyes, light hair, light complexion, has a mole on the cheek near the nose. Two fingers

MATTES STREET BRIDGE.

The New Iron Structure Was Swung Into Place Yesterday. A force of Delaware, Lackawanns and Western bridge men toiled actively all day yesterday substituting the new iron bridge on Mattes street for the old one that cast a gloomy shadow over the

street. The new bridge is three feet and three inches higher above the ground than the old one and is over twenty feet longer, making the street that much wider. This is due to the good work of the South Side board of trade, Select Councilman C. W. Westpfahl and ex Councilman D. W. Vaughan.

Heretofore the tops of the street cars rubbed against the span of the bridge and the roadway was so narrow that wagons could not pass each other with out one of them going over on the street car track, which made it very dangerous if a car happened along.
