The house proved to be sadly out of repair, and the prospective tenant went back to the agent's office.

Stuff That Looks Like Mud-Pie Batter Is Rolled, Cut and Stamped Into Coffee

It does not pay to buy cheap coffee-

Cheap coffee perhaps contains no chicory, but it is not pure coffee. Nowadays as closely as possible the natural article. It is sold to wholesale dealers, and is mixed with the commoner grades tive stocks of the New York stock market are given below. The quotations are furnished The Tribune by G. du B. Dimakout one-third the price of the natural product, and this allows a big margin product, and this allows a big margin of profit when the "compound" is mixe with the genuine article. Molasses, ry flour, chicory and other angredient enter into the composition, and it i claimed that it contains nothing in jurious to health. The manufacture o the bogus coffee berry is commenced on the third floor of the factory, otherwise known as the mixing room. At one en of a big room a huge tub is located where the different ingredients ar thoroughly beaten up—the mixture looking very much like children's mudspent Sunday in Mill City among ple batter. It is next placed in a sort of grinding machine and the preparation is thoroughly ground. The putty-lik substance is now ready for the next ma chine, which merely rolls it out into

The next process is the stamping of and are divided by knives into two o three strips, the exact width of the bean. In running through the wheels the beans are stamped out with bewild ering rapidity, falling into square floor beneath, where the drying room is located. One hundred and thirty de grees is the temperature required, an the beanu is left for several hours to dry thoroughly. The bean is, of course still very rough, and would easily b as spurious were it no smoothed down. For this process dozen revolving sieves are the bean is left for several hours to closets and dumped into sieves, and smoothed and polished by friction. In May the bottom of each sieve there is a geptember 6.37 funnel-shaped trap, through which the beaus fall into a receptacle on the floor PORK. below. The final process is to roast the bean in the same manner as the genuine article. Any desired shade can be obtained in roasting, thus imitating the various brands of coffee. The entire process of manufacture occupies about two days.

THE WORLD OF BUSINESS

STOCKS AND BONDS.

New York, July 15.-Speculation a the Stock Exchange today was decided by irregular. The railway list, except for a slight recession at the opening, ruled firm throughout, and at the close the active issues showed gains of any-where from ¼ to 1¼ per cent., as compared with aturday's finals. The com parative strength of the railways in face of the heaviness of the Industrials is due to good crop reports from the orthwest, and favorable statements by St. Paul and other prominent roads.
As long as the favorable statements continue to come in, the bears will find it difficult work to get prices down, no matter what they may be able to do with the Industrials. Jersey Central and Reading were among the stronges of the railway stocks on the revival of the report that progress had been mad to the work of settling trade differences. London bought St. Paul, as well as other favorites, but the amoun taken was not large by any means Still, the fact that the foreigners were once more disposed to take our stocks was considered favorable in view of the Pittston Business Directory.

"Did the disorder affect the bladder?"

"Pinally, it did. The urine was highly colored, and varied in suppression and excess. I often told my friends I believed I should go insane from the pain. I heard of Doan's Kidney Pills, and began their use. After taking them two or three days I began to feet their good effects. I continued, and now am perfectly well."

"Am I to understand that Doan's Kidney Pills have entirely cured you?"

"Yes, that's the truth. I have no more headaches or pains, and my appetite has returned. Before using Doan's Kidney Pills I found it very trying to go up and down stairs or to sleep on my back; but now I can do so without a single pain, I feel completely cured, and I wish the manufacturers every possible success."
