We've compromised prices with our suppliers, and now we're ready to supply you with these high-class novelties at prices which under ordinary conditions could not be touched even at the close of the season. HIS GUILT UNQUESTIONED

Holmes Probably Responsible for Four Murders.

WHEN WILL HIS TRIAL OCCUR?
Toronto Officials Are Anxious That the Slayer of the Pictels Shall Have a Taste of Swift Canadian Justice.

Toronto, Ont., July 16.—The bodies of the two Pictel children, which were exhumed in the cellar of a vacant house yesterday, were today removed by Coroner Johnson to the morgue. Drs. Caven and R. R. Orr are engaged in a post-mortem to discover by what means the little ones met their death. The inquest will be reopened as soon as the autopsy is concluded. Efforts will be made to extradite Holmes at once and to give him the benefit of swift and sure Canadian justice. If extradited, Mr. B. B. Oser will be the crown prosecutor.

The credit of the discovery of the bodies belongs to Detective Geyer, of Philadelphia, who came here imbued with the idea that Holmes had come to a house and taken the children there to murder them; that then he had either buried their bodies or thrown them into the bay. His chain of evidence as far as these children are concerned is complete.

Attorney Graham Displeased.
Philadelphia, July 16.—Superintendent of Police Linden stated today that he had not heard from Detective Geyer as to the finding of the bodies of the two Pictel girls in the cellar of the house at 1000 E. 12th St., Superintendent Linden is displeased with the belief that Holmes is a triple murderer, and said: "That man Holmes is the most infernal liar I have ever brought in contact with. Holmes persisted in claiming that Minnie Williams had possession of the Pictel children and he was so much in earnest with this statement that I placed confidence in it and caused every clue to that direction to be worked out to its fullest limit. I have not learned of the whereabouts of the woman, and almost believe her to be a myth."

"In your opinion you think that Pictel was murdered?" was asked.
"Certainly do, and further think that all the talk of a dummy substitute is both."

"What is your theory of the disappearance of the children?"
"I think they too were murdered. The motive is plain when we look at the facts surrounding the case. The bodies of the two girls identified the body in the cemetery as that of their father, and upon their testimony rested the charge of convicting Holmes. His willingness to let his own daughter go in exchange for the bodies of the Pictel children led us to think that something must be back of the case."

District Attorney Graham seemed to be displeased that the finding of the bodies should have been given so much publicity. "Holmes now knows as much about the case as we do," he said, "for he is given the papers every morning." Mr. Graham declined to discuss the features of the case, and was not prepared to say how he would act in case the Canadian authorities demanded Holmes on charge of murder.

To Destroy a Family.
President Fones said today: "Everything points to the fact that Holmes plotted to destroy the entire Pictel family, and as Howard disappeared in Detroit, it is probable that he was killed there. We found a house on Forrest avenue, Detroit, where Holmes and the boy had been together, and there were traces of a huge fire having been built in the furnace, from which he later fled and burned the boy's corpse. The belief is also that he attempted to destroy Mrs. Pictel in Burlington, Vt., by having her handle a can of nitro glycerine that he had left in the house she occupied. Should it be proved that Holmes murdered the children, it will be strong circumstantial evidence that he killed their father, and he will undoubtedly be tried here for the latter crime."

Indianapolis, July 16.—The "Journal" today printed an article containing the statement that the Pictel boy, the brother of Alice and Nellie Pictel, whose dead bodies are supposed to have been unearthed at Toronto yesterday, was beyond doubt murdered in this city on Oct. 16 last, presumably by Holmes, the insurance swindler, now in custody at Philadelphia.

It was developed that a certain express driver, by agreement with Holmes, called at the Old Circle house on that day and removed the bodies of a rear door, a large trunk, which is believed to have contained the boy's remains. The driver, Louis, by name, has identified the picture of Holmes as the man who employed him. The three Pictel children were in this city at three different hotels for some time, under the guardianship of Holmes.

Detective Frank Geyer, of Philadelphia, who had been a greater part of his time in this city, recently working on the case, stated that the web was being woven around Holmes, and that he would beyond doubt be found to be the murderer of the Pictel children.

MAMIE SMINK'S DEATH.

Another Victim of Malpractice—Ernest Wright Arrested.
Philadelphia, July 16.—Miss Mamie Smink, a young girl of respectable parents, who came to this city from Shamokin, and found employment here as a bookkeeper, was taken to the hospital this morning from her boarding place suffering from the effects of a criminal operation, and fifteen minutes after she was admitted into the institution she died.

Later in the day Ernest A. Wright, an employee of a plumber's shop, was arrested charged with being the girl's seducer. Wright confessed to the charge and also to that of having secured an operation, and implicated Dr. William C. Green, a negro physician, as having performed the operation. NO HOPE FOR STAMBULOFF

The Bulgarian Minister's Death is Hourly Expected.

DEATH OF STAMBULOFF.
Possible Revival of Panitsa's Relatives.
The Assassins Are Allowed to Escape—Traitorous Coachman Evidently in the Plot.

Sofia, Bulgaria, July 16.—At 1 o'clock this afternoon M. Stambuloff was still alive, but his condition is pronounced to be hopeless. He has fifteen sword-cuts on his head, and one of his eyes has been destroyed.

Although the attempt to murder the ex-premier was made in a busy street, no one came to his assistance. Every body seems to be convinced that the police were in the plot to assassinate the ex-premier, as five members of the police force who were near him when the attack commenced made no attempt to interfere. Then again, one of the Stambuloff servants chased one of the assassins, but the man was stopped by the police. Stambuloff's coachman, who fired his revolver but missed hitting anybody when the ex-premier's assassins attacked the carriage last night, is also believed to have been one of those who plotted against the statesman.

It is said that M. Stambuloff has long been convinced that he would fall a victim to the vengeance of the friends of Mr. Panitsa, whom he caused to be executed after he had been found guilty of treason in 1890 in conspiring against the life of Prince Ferdinand. Since the refusal of the government to give M. Stambuloff his passport to the United States, representatives of the diplomatic corps here have frequently called the attention of the government to the fact that they had become aware that an attempt upon the ex-premier's life was impending. It is strange to add that a member of the cabinet has called upon M. Stambuloff since the latter was wounded last night.

The governor returned to Harrisburg this afternoon.

This deal ends a long and hard-fought legal battle, which has lasted for many years. This deal will have no effect on the users of the Rogers machines.

PULLED OFF THE PICKETS

Princeton Students Armed Themselves for Battle.

TESTIMONY IN COLLINS CASE
Garrett Cochran, the Princeton Athlete, Upon the Witness Stand—Evidence for the Prosecution—Key Figures in the Tragedy.

Trenton, N. J., July 16.—Garrett Cochran, the student who was shot with a bullet, corroborating that told at the coroner's inquest and by the witness preceding him on the stand.

After the first quarrel the witness, Ohi and Scott broke pickets off a fence. It was at the suggestion of the witness that the students went to Anderson's. They had friends there. As he entered the hallway leading to the restaurant he saw the glitter of a pistol in Collins' hand.

The witness sprang forward at Collins, but the latter had fired and the bullet struck witness in the mouth. He staggered back, but made a lunge forward and grasped Collins, closing in with him. He cried Ohi exclaimed: "I've been shot; help."

The witness could remember little of what the prisoner or anyone else said, saying he was greatly excited. Cochran showed the scar on his chin, the only outward visible mark of his wound. He added that he had never had any trouble with Collins before. In fact, he had never before seen him. Under cross-examination by Senator Daly, Cochran said he was 19 years old, nearly six feet tall and weighed about 157 pounds. He was an athlete and kept himself constantly in training. He was a football player on the Princeton eleven. Ohi was also an athlete, tall and heavy. Cochran was asked to step down and stand by Collins' side. The negro looked like a dwarf alongside of him.

Drank Bottle and a Half of Beer.
Cochran said he drank a bottle and a half of beer on the afternoon of June 8. He visited Anderson's three times before the shooting but drank only one glass of beer there. There was a good deal of drinking in the place, but Ohi drank nothing at all. Whether Scott drank or not the witness could not say. Senator Daly elicited with much force the fact that after the first quarrel the negroes went away in an opposite direction and the students, instead of going home pulled pickets. It was 10 o'clock when they got the pickets. Cochran said he and his fellow students were not afraid of Collins and Downs.

THE DOCTOR IS LOST.

Philadelphia, with Cash and Suspicious Companions, is Missing.

Baltimore, Md., July 16.—Dr. Joseph Hart, a practicing physician of Philadelphia, has disappeared, and friends and police are making search for him. At the time of leaving his stopping place here he had nearly \$300 in cash, a watch and a valuable ring, besides \$1,300 in the Drivers' and Mechanics' National bank. He called at the bank Saturday and checked largely on his account. He appeared to be in a dazed condition.

A check from him was first presented to the bank. Payment was refused. The men who presented the check then left the bank and the Hart in person. He was seen on Thursday afternoon in company with two men. He seemed to depend helplessly on his companions for guidance. Since Saturday no trace of him has been found.

GREAT FINANCIAL DEBATE.

The Champions of Gold and Silver Begin Their Arguments in a Chicago Club House.

Chicago, July 16.—Two men met in a little room at the Illinois club this afternoon and began a spirited contest of national moment, one fighting for silver and the other for gold with all the intellectual powers, facts and authorities at their command. One of them was Roswell G. Horr, once a member of congress from Michigan, now an editorial writer for the New York Tribune, and the other was W. H. Harvey, of Chicago, author of "Coin Financial School." Mr. Horr championed the cause of gold, while Mr. Harvey threw down the gauntlet for silver.

The privilege of being present at this momentous contest was accorded to few. There were seats for about 200 persons in the assembly room of the club house but only a little over half that number was present. The speakers were seated at a long table in the center of the room. Mr. Horr, a leader of the free silver forces in the east, occupied a prominent seat. He will remain during the debate unless business engagements prevent.

A man with a watch on a table near the speakers and whenever one had spoken eight minutes he would tap loudly on a call bell. This gave the speaker warning that he had two minutes more to conclude his statement. The speakers were given ten minutes each. The speakers will proceed for eight days, using only the afternoons and resting Sundays.

The debate was started by Mr. Horr, who referred to the author of "Coin Financial School" with some severity. He said he never read a book containing so many mistakes.

Mr. Harvey, in his opening statement, contented himself with a presentation of his plan of campaign and told what he would prove.

Mr. Horr wanted to know why the names of prominent citizens had been put into their mouths that they had used, to which Mr. Harvey replied his book was simply an allegory, and the fact that a little boy was put in as teacher ought to be enough to prove to any sensible person that this was so.

Then the speakers plunged at once into the thick of the fight. The argument at all times was very spirited, and both speakers several times had hard work to preserve their tempers.

STARTLING DISCOVERY.

Coal Operator is Accused of Stealing Coal from Employees.

Pittsburg, Pa., July 16.—Today Secretary Warner, of the miners' organization, appeared at the office of Alderman Madden, made an information charging Coal Operator T. D. Stein, of the Phoenix mine, at Idewater, with stealing coal from his employees. The weighmaster, T. R. Marshall, employed by Stein, was also made a party to the case, and was charged with having sold some time the miners have suspected that they were the victims of false weights and a strict watch was set on Stein's scales. Last week the weights used at the mines were confiscated and officially tested by the Pennsylvania Scale company. The scale manufacturers pronounced the weights fraudulent and estimated the weight balanced the arm about 300 weight on the wrong side.

This falsity required the miner to dig from 25 to 35 hundred weight for every ton. There are 125 men employed in Stein's mine and the fraud was carried on under a 60 cent per ton basis. The information is made under the check-weight law, and is the first of its kind. In event of the conviction of the above suit the miners will enter civil suits to recover what they have lost through fraudulent weights, which in the aggregate amounts to hundreds of tons of coal.

HACKED BY THEIR FATHER.

Pat on His Wife's Dress to Kill His Child—One Girl Thought Her Mother Was Guilty.

Kewanee, Ill., July 16.—William Le Bates, a Belgian, living near this town, was charged with having attempted to kill his three children. He has fled. Last Sunday some of the neighbors, when passing, heard screams coming from the house. They rushed in and found all the children lying on the floor, apparently dying from wounds all over their bodies, while a bloody hatchet told what had been the instrument used.

One girl, 13 years old, was able to tell a confused story of how the mother had rushed in from the other room, and grabbing them in turn had administered the blows with a hatchet, swearing and cursing all the while. The mother was found in a room upstairs, and although she showed no signs of having committed the crime and protested her innocence, she was taken into custody as insane.

It is now learned that Dr. Bates himself is the guilty person. He had put on one of his wife's dresses and so disguised himself otherwise that the children were deceived. The motive of the crime is unknown. Dr. Bates is being searched for in all directions. One of the children is dying and the others are in a critical condition.
