transaction and its present position. Early last winter Mr. Laine had an

interview with the vice-president and manager of this company and made a

proposition to take charge of Laurel Hill park as manager, with the idea of

running it as a place of amusement, and asked the Scranton Traction com-pany to advance a sufficient sum of

DEATH OF W. A. GIFFORD.

An Aged and Respected Citizen of the bilities.

The work done by Mr. Laine in fitting up the park and making it attractive as a place of amusement is well-known. The expense of doing this was in no way checked or supervised by the directors of this company, and we were absolutely uninformed as to the large expense which Mr. Laine was assuming or how he proposed to meet the same. Moreover, we are of the opinion that Mr. Laine himself did not realize to what extent he was becoming involved. North End Passes Away. William A. There might have been no difficulty, however, had the park been successful during its first thirty days. The reason it has been a failure as a place of amusement can be well understood by any one familiar with the conditions which have prevailed since May 25. Subscriptions to Summer Home Fund.

Mr. Mears let the contract for the steel frame work to the Pottsville company, and after the first two stories of it were put up canceled the contract, for the reason, as he claims, that the company was not doing the work according to the plans and specifications of the architect.

They all swore that the work done on the first two stories was substantial, and to all purposes of safety perfectly secure; but yet it was not in many cases done according to the plans and specifications. For instance the bolts were in many places of smaller callbre than the contract called for, and the welding, etc., had the same fault to be found with. The hearing will be resumed again at

he convenience of the parties interested. A large amount of documentary evidence was offered in the shape of contracts, plans and specifications and

At least 12,000 delegates will be assembled in a mammoth tent in Druid Hill Park, on Madison ave inue. The flower of the Baptist church is represented in this vast array of Christian workers. Their object in convening is for mutual encouragement and enthusiastic convocation rather than for the accomplishment of any stipulated programme of church work. Five years ago in Chloago the present inion was formed with a membership of 3,000. Its progress has been remarkable in that space of time, claiming today 15,000. The second convention was held in Detroit, the third in Indianapolis and the fourth in Toronto. A year from now, when the sixth convention opens, the union, it is anticipated will be 20,000 strong.

For the four days that the convention will last a programme most comprehen-sive and elaborate has been prepared Baptist clergymen whose names are familiar throughout the United States will deliver addresses.
