clearing house payments are now almost a quarter smoller than in that week, but are 21.1 per cent. larger than last year, and only 6 per cent. smaller than in the same week of 1892. Prices of iron and steel products still

rise, the feature this week being the startling advance of 50 cents per keg in cut and wire nails, with new cards for various sizes which, it is stated, make the advance actually greater than it appears. Angles are also a shade higher and other prices strongly maintained. Bessemer plg does not advance, although the Carnegie and one other company have been buying about 140,-000 tons, which is supposed to foreshadow large contracts for rails. In the first half of 1895 orders for rails were 713,000 tons against 502,000 in the first half of last year and a good many small orders appear at Chicago. Otherwise there is a distinct halting in new demand, though nearly all iron and steel works are crowded with orders for some time to come.

Failures for the week were 202 in the United States against 249 last year, and 27 in Canada against 39 last year.

Anthony, the renowned advocate of woman suffrage, had died suddenly at Lakeside. O., this afternoon, where she was in attendance on the summer assembly. Her indisposition proved to be nothing serious. Miss Anthony lectured at the evening session of the assembly.

State Chairman Gilkeson was in this city today and said: "I don't wish to discuss the campaign or the issues further than I have done in my letter to Chairman Smyth, of Williamsport. I have refrained from newspaper talk thus far, and I wish to continue the course until the end. My triends in Philadelphia can tell how well we are satisfied with the condition of the campaign, and I can add nothing to what they have to say." United States Senator Quay arrived

here tonight from his home at Beaver and established himself in his old quarters at the Hotel Metropole. Senator Quay was expected and all this evening his rooms were filled with his follower in this city. Senator Quay was so busy with his adherents and general callers that he had practically no time to talk politics. Chicago, July 26 .- Late last sight two well dressed women called on Chief Badenoch and told him that a 16-yearold girl, a daughter of wealthy and re-spectable parents, had become acquainted with Holmes during the fall of 1893, and afterward disappeared. Where she went or what became of her has never been ascertained, and her parents, though clinging to the hope that she is still alive, fear that she is

Until the recent revelations of Holmes' life were published in the Chicago newspapers, they did not connect their daughter's disappearance with the Englewood druggist, but now that the searchlight of investigation has been turned upon the man and his horrid crimes exposed, they are certain that their daughter was one of his victims. The two furnished Chief Badenoch with the girl's name and the address of her parents, and the chief will investi-

Strictly summer fabrics are right in the heart of the season for wearers, but it's getting late for us to hold them longer, and we never, never carry these cobwebby creations over from one season to another.

Our closing prices will puzzle you because of their lightness, but you won't complain on that score.

Wash Dress Goods begin at 3c and from that they creep up by easy steps to half cents an dpennies till the 15c limit is reached. But few of them figure over half early season's prices, and none of them are shop worn or undesirable.

Plenty of one sort or another still left to pick from.

Suffer heavily in the general shaking up of prices. One line has been exceptionally attrac-tive this season, and if you're a ate buyer, you'll find it doesn't cost as much now to gratify your utmost longings for top notch styles and qualities as it did a month ago.
