#### MURDERER WINDISCH CAUGHT. The Slayer of His Wife Located in a West Virginia Retreat and Promptly Nabbed.

History of the Crime. News came from West Virginia yesterday to the effect that wife-murderer George Windisch, of Pittston, had been captured in that state. Detective James O'Brien sent the dispatch and it proves beyond a doubt that at last the au-

orities have secured the right man. The crime was one of the most horrible in the annals of Luzerne county. which is noted for its horrible murders. It was committed in Pittston on April 4, but was not discovered until the folowing Sunday. By this time Windisch had time to get out of the county, and left absolutely no clue as to his whereabouts. A number of detectives tried to locate him without success, all believing that he had gone to Germany. Detective O'Brien and Chief of Police Loftus, of Pittston, investigated the case thoroughly, and held to the theory that Windisch was still on this side of the ocean, which theory was vin-dicated by yesterday's telegram. Chief Loftus started for Monongah yesterday with the requisitions and other necessary papers, and Windisch will prob-

ably be brought back to this city today. On Thursday night, April 4, the neighbors of the Windisch family heard the parents quarreling, but the noise soon ceased, and nothing more was thought of it. On the next day the children went to school as usual, but the parents were nowhere to be seen. On the following day, Saturday, the two children played around home as formerly, but neither Windisch or his wife being visible, the neighbors began to talk about it and make inquiry. Next morning they went to the Windisch house, and upon entering the parlor a hormbie sight greeted them inside. The floor was covered and the walls pespattered with blood, and evidence of a struggle were seen on every side. In the center of the room lay the form of Mrs. Windisch, an old piece of carpet thrown carelessly over her body, but her face was uncovered. The eyes and mouth were wide open, and the whole top of the head had been crushed to a pulp with repeated blows. A large carpenter's chisel lying close by, its handle and blade covered with clotted blood ,told the story of the crime. The crime was attributed to Windisch by the coroner's jury, and for a while it looked as though he would get away. but now it is assured that the right man is captured in spite of many false reports, and justice will at uast be
