Was a Great Success. Those who believe that the Sabbath observance crusade is dead have not surmised well. It is only dormant and is about to be wakened into a new life by the Sabbath Union, notwithstanding the ill success which met their efforts last year. Rev. F. A. Dony, secretary of the Northeastern Pennsylvania Sabbath Union, says that a new and more Ferber & O'Malley, and his two daughters aggressive campaign will be started are at Atlantic City. forthwith. Last Tuesday there was a meeting of the board of managers at the office of

the president J. W. Hollenback, in Wilkes-Barre, where a plan of vigorous They will strive to enlist the services of the Dr. C. E. Connor, of Green Ridge, left pastors of all the churches, yesterday afternoon for a vacation at asking them to preach a sermon on this topic and to interest their congregation in the work. They will also ask that two members be selected from each church to co-operate with the general committee. Mr. Dony will make from Boston, Mass., where they were on a personal appeal to the pastors this year. Heretofore, particularly last year, the response to the Union's writ-Moscow, are visiting friends on Adams ten appeal was not general and this is judged to be the cause of the ineffectual results of the crusade. Mr. Dony says that the union is confident of success. The Board of Managers is compose of the following prominent gentlemen Side, are spending a few days at Atlantic J. W. > Scranton's Retired Clergy. Scranton has its colony of retired clergymen and it is particularly true of each of them that they are ever ready at certain intervals to enter the pulpit or perform other functions of their calling. A case in point is contained in the announcement that Rev. George M. Peck will preach in the Providence Methodist Episcopal church tomorrow. It will be his semi-centennial sermon, he having for fifty years labored as a minister. Most of this period has been spent in this valley.

> The announcement that Evangelist Schleverea will soon come to Scranton to begin a tent campaign on the South Side has created a sentiment of pleasure among Christian people in this vicinity, but it is a special gratification to the element who so generously support and who particularly approve of this democratic method of "reaching the masses." While Schleverea has not the national reputation nor the varied managerial experience of the pioneer Moody, he vies with that noted evange list in the capabilities peculiar to the evengelistic style of work. The plans for the coming campaign are noted more in detail in The Tribune's local

columns. At this particular season more pastors are on their vacations than at the same corresponding period of any recent year, at least such was the statement made by a well known churchman yesterday. For this reason an unusual difficulty has been met in securing occupants for the many church pulpits and it has been noted that an unusual number of emergency preachers

are from outside the city. One Practical Charity. The fact that 1,700 persons, which included 150 babies in arms, 1,050 children and 500 mothers, were on Thursday given a day's outing at Lake Ariel by the St. Luke's Free excursion, is the one splendid argument in favor of that one of Scranton's most popular and most practical charities. In previous years an exact count of the excursionists has been made, but this was impossible on Thursday because the expectations of the committee were more than realize and the twelve cars were insufficient to accommodate the large throng. Each car was so crowded that passage was impossible and the committee had to content itself with an estimate count. The excursion was under the immediate direction of the following committee Chairman, C. B. Derman, Mr. Hazzard, S. H. Stevens, J. C. Highriter, George Merriman, Thomas Jackson, and Brother Francis. They were assisted by the following auxiliary committee of ladies: Mrs. Hazzard, Mrs. R. J. Foster, Mrs Osland, Mrs. A. E. Pettigrew, Miss Josle Lees, Miss Annie Duval, Miss Williams, Miss Weaver, Miss Sherer, Miss Hazzard and Mrs. J. H. Bunnell.

Birthday Party at Asbury M. E. Church The Ladies' Aid society of the As-bury Methodist Episcopal church, bury Green Ridge, held a birthday party last night. Slik bags were sent to each member of the congregation by ladies of the board, and each person was requested to bring them to the birthday party with the number of pennies that they were years old. During the evening Tallie Morgan and a select party of singers gave a very interesting concert. Those who took part were: Miss Lydia Sailer, Miss Grace and Miss Anna Rose, D. C. Richards, Edwin Bowen and Walter Kipple. The church was beautifully decorated with flags, bunting and flowers, and this with the elegant and interesting music pleased a large audience, which filled the church parlors. After the concert

the ladies served numerous palatable refreshments to a large number free. Little Notes of the Church World. Superintendent Sanborn, of the Rescue Mission, will make a brief address ing under the auspices of the Y. M. C.

Mr. William Thornton, of 127 W. Marke Street, Explains How and Why He Did It.

From the Elmira Gazette. Old age has many infirmities, none of which are more prevalent than kidney disorders. Have you ever noticed how the old people complain of backache, lame back, and general listlessness? And there are many other symptoms of which they do not speak, such as bloating of the limbs painful and infrequent urination or excess iveness of the urinary discharge. Most people think they are too old to find relief and cure, but this is not so. No better evce than the following, which com from an Elmira citizen, who has been cured of a very severe case at 77 years of age. Mr. William Thornton, of 127 West Market street, speaks of his case in this way: "I am 77 years old. I have been afflicted with that dreadful complain (kidney disease) for over ten years, mak-ing my old age a burden. I was so bad as to be forced to carry a belt at all times, and, when my suffering became beyond endurance, I would put on the belt, draw-ing it tightly around me and buckle it, ing it tightly around me and buckle it, thus bringing an extreme pressure over the kidneys; this, undoubtedly, forced the urine out, a function which the kidneys themselves had become too diseased to perform. My condition I put down to a strain I received. I began taking Doan's Kidney Pills. I was much surprised, as the aliment was so severe and so long standing, while I had tried many remedies without any relief whatever. The pain I have experienced at times from straining in my efforts to discharge the urine was have experienced at times from straining in my efforts to discharge the urine was simply awful. I have done away with the use of my leather belt, and the pain has all gone, and I recommend Doan's Kidney Pills to all afflicted with kidney and urinary disorders."

STOCKS AND BONDS.

New York, Aug. 2.—The withdrawal of \$2,350,000 gold from the sub-treasury today, of which \$1,350,000 will be for warded to Europe tomorrow, had an unsettling influence on the stock market. The withdrawals of gold gave the reactionists their opportunity and they were not slow to take advantage. Sugar fell from 117 to 113%, closing at the lowest figure. Other particularly weak stocks were Chicago Gas, the Grangers, Louisville and Nashville. Chicago Gaz declined 1% to 56%, and the Grangers % to 1% per cent. Missouri Pacific lost a point, selling as low as 361/2. Specula tion at the close was weak, especially for Sugar. Net losses in the railways for the day were ¼ to 1% per cent., but the Industrials declined anywhere from 1/4 to 3% per cent. Canada Southern and Pacific Mail were exceptionally firm, and rose 441 per cent. Total sales were 302,210 shares.

The range of today's prices for the ac-tive stocks of the New York stock market are given below. The quotations are furnished The Tribune by G. du B. Dimmick, manager for William Linn, Allen & Co., stock brokers, 412 Spruce street,

NEWS OF OUR INDUSTRIES

liappenings of Interest to the Staple Trades and Particularly to the Trade in Iron, Steel and Authracite Coal.

Senator H. D. Heller, who operates the Hellertown blast furnace and stone quarries, has advanced the wages of his employes 10 per cent. It is now thought that instead of a

foreclosure sale the present financial difficulties of the Erie system will resuit in a reorganization. A coal strike is what is most feared by the railroad companies at present A general cessation of business at the mines would paralyze the freight bust

The Crum Lynn Iron works, near Chester, are preparing to start up af-ter a long and enforced idleness. This will mean employment for about fifty

hands. The inhabitants of Hamilton township, Monroe county, are greatly excited over prospects for coal. An expert is leasing lands, and the outlook is said to be very favorable. Prospecting

is expected to begin soon. Some of the employes of the Lehigh Valley company in New York state recently received a circular letter signed by Superintendent Esser asking the reason, if any, why they do not buy coal of the company's agent

The Beech Creek Railroad company has ordered 1,000 new coal cars, one half from the Union Car works, in Buffalo, one-quarter from the Buffalo Car works and the other quarter from the Milton Car works, of this state.

Engine 656, George Blank, of Lehigh ton, engineer, made a passenger run on Friday on the Lehigh Valley rallroad from Allentown to Mauch Chunk, twenty-nine miles, in twenty-eight minutes During the trip Engineer Blank made two stops and five slow-ups. There is in force on the Lehigh Val-

ley railroad a novel rule governing flagmen. It is intended principally, however, for the benefit of engineers who fall asleep on their locomotives and to prevent collisions. The rule is that if a brakeman is sent out to flag a train and the latter passes the flag the flagman is to take it for granted that the engineer is asleep and may throw a stone or stick or in fact any convenient missile into the cab window to arouse the slumbering man at the throttle. Another important change has taken place in the official corps of the Penn-

sylvania Coal company. Announcement is made of the resignation of George Johnson, who has been agenfor the company for the past thirty years, with offices in Phitston and Dunmore. Mr. Johnson's resignation took effect Thursday, and president George E. Smith stated that E. M. Beyea, of Dunmore, has been placed in charge of affairs of the Pittston land office of the company. Mr. Beyea is a son of Henry Beyea, of Dunmore, who has been employed by the Pennsylvania company for many years as paymaster. Th chief office of the land department will he in Dunmore, but Mr. Smith said that as yet nothing has been decided in regard to Mr. Johnson's successor as head of the department.

Wilkes-Barre Record: From Pittston to Northumberland the bed if the river is lined with coal, ranging from three to eight feet thick, under an average depth of water of about eight feet. This coal is made up chiefly of the culm washed from the breakers, and contains all grades known to the market, although consisting mostly of the finer sorts. The wash of the river cleanses it of all dirt and refuse, and when taken out of the river it makes an excellent grade of fuel. A great many people have been engaged in shoveling It out, and as high as \$2 and \$3 a day have been made at this employment Arthur Squier, of Tunkhannock, has been observing this matter for some time, and has recently been experi-menting on a method of raising this coal in places where the water is to deep to shovel it out profitably by means of centrifugal pumps, and as a result of his experiments a business which he believes will be a profitable one is about starting. Mr. Squier has formed a partnership with J. F. Broadbent, of Scranton, and the firm has had built a large engine suitable for the purpose of running the pumps and carrying on the business of raising the coal from the river bed, and an appara tus is also arranged for screening the coal as it is passed into canal boats The plant will be established near Northumberland, and all sizes of coal will be shipped by the firm from there. The smaller sizes of this river coal find ready market at from \$1.50 to \$2.50 per ton, and contracts have already been made with parties in Harrisburg and other places for large shipments. The plant will require an investment of from \$1,000 to \$2,000. Mr. Squier is quite a genius in looking up unexepected things, and has already had patented several devices, some of which he has sold for several thousands of dollars He seems to have a good deal of faith in the success of this last venture.
