## ITALIAN CELEBRATION.

An invitation from Rome's Mayor to the Colony in this City.

Gabriel Paganini today received a letter from the Italian society of this city in which was enclosed an invitation from the mayor of Rome inviting the colony to be present at the quarterly centennial celebration held at Rome beginning Sept. 20, 1893, and lasting for one week. During that time the entire nation suspend work and gather together and enjoy the festivities. All representatives of Italy and all colonies in foreign countries are invited to be present. Special rates on all steamship lines and railroads are secured, and many persons from this country will attend these events. If any colony is unable to send a delegate, the mayor requests that a word of congratulation and encouragement at least be sent, that they may know that citizens of America remember them and have their welfare at heart. The invitation will be presented at the next meeting of the Italian society in this city and acted upon. Possibly they may decide to send a delegation from this city during the event.

## Mr. Pengelly Improving.

Thomas Pengelly, of Birkett street, who was injured by falling off of a gravity excursion train on Tuesday, July 30, is rapidly improving. The attending physicians at Emergency hospital, where he is confined, say that they never had a better patient, considering the serious nature of his illness. Mr. Pengelly has no remembrance of how the accident occurred. All that he can remember is of passing through the last coach of the train and some one giving him a sandwich. As he reached the door he took one bite, and as he stepped to the platform he has a faint recollection of his foot slipping, and when he recovered consciousness he was lying in the hospital.

The proposed centennial celebration of the establishment of Nicholson township will not materialize. The time is up this week, and no preparations have been made. The Nicholson Examiner oversteps the bounds of propriety entirely when it refers to Rufus B. Northrop as "Boss Northrop." Anyone who knows Mr. Northrop at all knows him to be scrupulously careful about interfering with the political belief or action of others.

He has convictions of his own and purposes to stand by them, and he is perfectly willing that others should do likewise. He stands by his first convictions concerning the Quay-Hastings fight because he believes them right, and because it has never been demonstrated that the majority of the Republicans of the county would have done otherwise. The fact that a majority of the county committee are for Quay proves nothing. Committees are machine made, usually, and may, or may not, represent the sentiment of their party. Even the bitterest enemies of Mr. Northrop here in Tunkhannock would never think of referring to him as a boss.

An alleged base ball team from Dallas came over Saturday and attempted to play ball with the Tritons. The Dallas boys obtained a few runs, but the Tritons had a majority like unto that of Hastings when he ran for governor.

## SHE RESENTED THE INSULT.

From the Chicago Post.

"I couldn't help it, papa."

She looked up into his face with her blue eyes and it was impossible to doubt her.

"But you didn't seem to be protesting very much," said the old gentleman.

"But it was so sudden, papa, that I couldn't," she insisted.

"Tell me about it," he said.

"Well, he adopted a very clever ruse, you see. He got me to look the other way, and then, before I knew it, he had kissed me on the cheek."

"The scandal!"

"It was wrong of him, of course?"

"What did you do then?"

"I was very angry. I told him it was an insult."

"Indeed it was, and you should have ordered him to leave the house. Did you?"

"No; not exactly."

"Well, what did you do?"

"I told him it was an insult, and that he must take it back."

"And then?"

"He was taking it back when you came in and saw him."

# RHEUMATISM

Have You Got It?—If You Have, Now Is the Time to Be Cured.

There are very few people of middle or advanced age that have not had more or less experience with rheumatic pains, and those who have not experienced those pains can be thankful that they have been spared from the suffering of one of the greatest torments of which flesh is heir to. What is the cause of rheumatism? A question frequently asked. A volume could be written on rheumatism and its causes. This term is applied to all inflammatory affections of the fibrous, muscular and serous tissues, which are not clearly referable to injury. The cause may be said to be exposure to cold and wet, sudden chills, residence in cold, damp and variable climates is a common cause. Latent acid in the blood is supposed to be one of the chief causes. A great deal has been written on this subject—the cause of rheumatism. A joint or muscular tissue that has been sprained is more liable to be the locality of an attack. The
