ITALIAN DISTURBERS.

They Fired Several Shots and Assaulted Watchman Willis.

About twenty men from "Sunny Italy" caused a great disturbance on Dundaff street Sunday evening. They congregated in the Delaware and Hudson yard and proceeded to enjoy themselves in a very noisy manner. Officer Willis, while making his rounds through the yard, came upon the party and found them singing, dancing and generally enjoying themselves. He requested them to stop, but they only made more noise. He attempted to arrest the ringleaders of the party, but was met with a volley of stones. One of the party drew a revolver and fired several shots. Mr. Willis also fired several shots, but no one was hurt.

Seeing that he could not do anything against such odds, he went to the municipal building and secured the assistance of Special Officers Blair and Neary. When they arrived on the scene the disturbers fled. The officers gave chase and captured the ringleaders, Florena Gensher, and Edward Jernym, and brought them to the city prison, where they were locked up. Warrants were sworn out for Jerome Scalzo, Peter Astorina and George Flore.

MAGNETISM

Magnetism as a Curative in Chronic Diseases.

It is no longer a doubt, but a demonstrated fact, that the power of magnetism and electricity as used in the cure of chronic diseases is the greatest auxiliary to medicine that is known to science at the present day, and some of the most wonderful cures have been performed by the proper use of the above mentioned powers. Dr. F. B. Smith and staff have employed those powers in the cure of chronic diseases for many years with the most remarkable good results, as the following case will show: Mrs. Grate, a lady about 50 years old, came to Dr. Smith and staff. She was suffering with strictures of the throat for about eight years. For over six years she had not swallowed a mouthful of solid food. She had been compelled to live on tea, coffee, milk and the thinnest kind of soups. She had been doctoring for years, but found no relief. She was told by several doctors that there was no cure, that all she could hope for was death, which would come by degrees, or, in other words, that the passage to her stomach would close and she would starve to death. Living in utter despair a friend called her attention to an advertisement in the paper of the cures made by Dr. Smith and staff, and contrary to the advice of the family physician she commenced taking magnetic treatments. She was told that she had simply thrown her money away, that no doctor could cure her, but despite of all those protestations she is today a living testimonial to the healing virtues of magnetic treatment, for she was absolutely and permanently cured of her affliction by Dr. Smith and staff. If you are suffering with any complaint call on those doctors at 56 Linden street, opposite the court house, and be cured. Consultation free from 9 to 5 daily except Sunday, Tuesdays and Fridays from 9 a. m. to 5 p. m.

CAUTION

Washburn-Crosby Co. wish to assure their many patrons that they will this year hold to their usual custom of milling STRICTLY OLD WHEAT until the new crop is fully cured. New wheat is now upon the market, and owing to the excessively dry weather many millers are of the opinion that it is already cured, and in proper condition for milling. Washburn-Crosby Co. will take no risks, and will allow the new wheat fully three months to mature before grinding. This careful attention to every detail of milling has placed Washburn-Crosby Co.'s flour far above other brands.
