IN Washington, Aug. 16.—Hon. Matt W. Ransom, of North Carolina, is no longer minister from the United States to Mexico. That office was practically declared vacant today by a decision remedered by Holmes Conrad, solicitor general of the United States and acting attorney general. Mr. Ransom's general was declared to be contrary to the federal constitution, and the acting attorney general sustained the action of Thomas Holcomb, auditor of the treasury, for the state department, in declining to pass favorably upon Mr. Ransom's vouchers for salary and expenses.

The decision of the acting attorney general was based on a question raised by Auditor Holcomb as to the legality of Mr. Ransom's appointment to the Mexican mission in view of the existence of Section 2, Acticle 6, of the constitution, which declares that "No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been or reacted or the emoluments whereof shall have been in creased during such time."

This provision apparently fitted the case of Mr. Ransom, for he was nominated by President Cleveland and confirmed by the senate before his term of office as senator from North Carolina had expired, and during that term the salary of the Mexican mission had been increased \$5,000 a year.

It is due to Mr. Ransom's occupancy of a seat in the senate chamber at that time that he is tochnically a debtor in the senate chamber at that time that he is tochnically a debtor in the senate chamber at that time that he is tochnically a debtor in the senate chamber at that time that he is tochnic

of a seat in the senate chamber at that time that he is today without an of-fice, and that he is technically a debtor to the government for the amount of salary he has drawn since assuming his diplomatic post.

Ransom Drew His Salary. So far as can be ascertained Mr. Ransom continued to draw his salary of \$17,500 a year, but it was only re-cently that Auditor Holcomb, when he came to pass upon the accounts of the minister, found himself unable to de-cide whether he could approve the pay-ment of Mr. Ransom's salary, in view of the fact that he had been a member of the senate when it was increased. The matter was accordingly submitted to the attorney general for an opinion

Mr. Ransom was ill ost of the time he was in Mexico and ne was advised by his physician to return to the Unit-ed States for treatment and recuperaed States for treatment and recuperation. Following this counsel he came
to North Carolina in May and has been
at a health resort in that state and at
his home in Weldon most of the time
since. He is now at Weldon. While in
Washington last week the minister
paid several visits to the state department with reference to the question
raised by Auditor Holcomb. Just before returning to North Carolina he
said his health had improved sufficiently to permit him to go back to the
City of Mexico in about a month.

He could have been appointed without violation of the law or constitution at any time after the hour of noon on March * last, when his senatorial term expired. It is believed that President Cleveland will, upon being officially notified of the condition of affairs, reappoint Mr. Ransom to the office, which nearly every senator united in asking the president to do last winter.

Stories of a Rich Pind in the Aleutian Archipelago.

San Francisco, Aug. 16.—The schooner Golden Gate, which has been on a prospecting cruise among the islands of the Aleutian archipelago, returned last evening with tales of wonderful mines where rich ore is to be cut out with a cheese knife.

The Golden Gate sailed from San Francisco on July 25 with a party of young men who had agreed to share expenses and profits on the Alaska mining expedition. Three of the party of twelve or more returned with the schooner, but they are full of buoyant hopes, and after the ore brought down in the hold of the vessel is assayed, will return to the islands with more machinery.

NO PREMIUM PAID.

The Sensational Gold Bar Story Withou Foundation.

New York, Aug. 16.—Speaking of the sensational reports that the bond syn-dicate is paying a small premium for gold bars, an authority states:
"The facts, which have been known
to practically every banker in the
street, are that ever since the syndicate

was formed, its managers have en-deavored to secure for the treasury the bulk of the output of the gold mines of bulk of the output of the gold mines of this country, but they have in no case paid a direct premium for bars. They have, as is customary in the bullion business, paid the expenses of trans-ferving gold from the smelters to the government assay offices; in some cases divided that expense with the sellers of the bullion and in others paid the usual prokerage to bullion dealers for secur-

It is believed that in this way the syndicate acquired over \$3,000,000 worth of gold bars at no greater cost than the usual difference in value between bullon and coin. The greater part of these accumulations have been represented by assay office checks drawn in payment for the bars. These are now being turned into the sub-treasury, and as they are payable in gold coin and the syndicate accepts legal tenders in place of coin, the treasury's gold balance is increased by the amount of the checks.

earstary Morton Presents His Employee with an Object Lesnon.

Washington, Aug. 16.—Yesterday was pay day for employes of the sev-eral executive departments, and Secre-tary Morton took advantage of the opportunity to present what he called an "object lesson" to the free silver enthusiasts who drew saiaries for services in the agricultural department. Instead of nice crisp bills these employes—division chiefs, clerks, messenters and leborate ware and the complexity of the complexity

ployes—division chiefs, clerks, messengers and laborers—were paid entirely in silver. A trifle more than \$1,000, weighing sixty pounds, was parcelled out in correct amounts, enclosed in canvas bags and delivered to the proper individuals.

Secretary Morton did not otherwise seek to press his sound money views upon the employes, whom he paid in their favorite coin, but it is said he smiled with grave satisfaction when he saw the cressfallen faces of the employes, who lugged away bundles of he saw the cressfallen faces of the em-ployes, who lugged away bundles of coin weighing several pounds. This is the second time Secretary Morton has presented this "object lesson" to em-ployes of the department, and it is pos-sible he will continue the practice with the hope of converting the free silver advocates. SUSPECT A DOUBLE MURDER. New Revelations Connected with Rock

Island Mystery of Sunday. Rock Island, Ill., Aug. 15.—The sus-picions which have aroused the entire picions which have aroused the entire upper end of the county that a frightful double tragedy was involved in the discovery of the unknown colored woman's dead body near Cordova Sunday were confirmed late last night by the unearthing of the remains of the child with which she had been seen last Friday night. The body was found after the most diligent search buried in the sand three miles above the town. The sand three miles above the town. The baby's head was crushed as if struck with some blunt instrument, while an

arm and a leg were broken.

The discovery of this shocking evidence of a bloody deed had the effect of dence of a bloody deed had the effect of intensifying the excitement of the people. The last seen of the three together—the colored man, woman and child—was Friday evening. Saturday morning the man was seen at the Milwaukee depot in Cordova. Sunday working the woman's holds was found. morning the woman's body was found in the river, and Monday it was buried. Yesterday came the first evidence that the woman had been seen Friday even ing with the man above Cordova. With her was a child apparently 18 months

The fact that the child was unac-counted for led to the investigation and the discovery last night. The proba-bilities are that the body of the woman will now be disinterred and examined for evidence of violence, as this was neglected at the time the remains were buried. The coroner is on the ground making a thorough investigation and has ascertained that before leaving for Chicago the missing man had five \$20 gold pieces, which gives some ground for the belief that he may have mur-dered the woman for the money.

Final Session Held in the Tammany Hall,

New York.

New York, Aug. 16.—The Improved Order of Red Men are holding their final session at Tammany Hall today.

The grand council devoted the forenoon to routine business and to consid-Ting amendments to the constitution.
The grand council reduced representation to one delegate for 100 members in a tribe instead of one for forty, as heretofore. This was done to facilitate business at grand councils, which are now deemed too large. Provision was made for the support of old or infirm members, where a local tribe has dis-solved or is unable to sustain them. It was also decided that henceforth past sachems can represent only in grand councils their own tribes or a tribe from the same county.
