

# WILL GO TO MOUNT GRETTA

## THIRTEENTH REGIMENT MARKSMEN LEAVE FOR THAT PLACE ON AUG. 26.

### WILL SHOOT IN STATE MATCHES

One Member of Team, W. W. Youngs, Has Won State Championship for Four Consecutive Years—Great Work Done Last Year.

On Aug. 26 the Thirteenth regiment's rifle team will go to Mount Gretna to shoot the state matches. For four consecutive years one of the members of the team, W. W. Youngs, has won the state championship, and there is much speculation among the members of the regiment as to whether or not he will be able to do the trick again this year.

The Thirteenth's rifle team is composed of Privates Stout, Jurtsch and Youngs, and Sergeants Watkins and Cullen. They will start for Mount Gretna on Monday from Monday in charge of Lieutenant Frank Robling, company C, who has been appointed instructor of rifle practice temporarily to fill the vacancy caused by the resignation of W. H. Johnson.

Tuesday and Wednesday will be devoted to shooting practice matches, and on Thursday the contests will begin with the shooting of the regimental match. Friday there will be skirmish matches, and on Saturday the brigade will put the marksmen on their mettle. Altogether there will be about 100 marksmen on the ground, representing the different regiments, and the man among them who makes the best score is awarded the state championship. It is this feat that Mr. Youngs has accomplished for four successive years.

Will Go to Sea Girl.

From the marksmen who will contest at Mount Gretna a team of sixteen men, composed of those who have made the highest scores during the week, will be taken to Sea Girt, N. J., direct from Mount Gretna, where, during the following week they will shoot in the Interstate and Hilton matches.

Last year six members of the Thirteenth regiment were selected to shoot on this team of sixteen. When it is known that there are nineteen regiments in the state, and that notwithstanding this more than one-third of the Thirteenth regiment it will be seen that a splendid compliment was paid to the marksmen of that body of soldiers in the making up of the state team.

The Thirteenth's team also won the skirmish match last year.

Next Saturday the Central Railroad of New Jersey will run another of its popular excursions to Long Branch, Ocean Grove, etc.

The Lehigh Valley railroad has arranged to run a low-priced excursion to Boston to accommodate those who desire to attend the Knights Templar convalescent excursion can go from New York either by rail or water.

The \$2.75 excursion tickets sold by the Excursion Athletic club for their excursion to New York, which leaves tonight over the Erie and Wyoming Valley railroad, are good to return on the excursion train Sunday night or on any of the regular trains Monday.

## RESTLESS CHILDREN.

### Feverish Nights and Days Devoid of Appetite.

#### Diet Must Be at Once Changed When Children Do Not Thrive.

##### Lactated Food Checks All Wasting Disorders of Hot Weather.

An infant should be abed and asleep at the forks are, by sundown, at least. During the long night's sound slumber the tiny limbs wax stronger and growth is by far the most active. A substantial, but not burdensome diet, a sturdy digestion and quiet sleep complete the cycle of a day's healthy activity for a growing child.

The prime factor in maintaining this steady growth and in escaping debilitating summer diseases to which children are so apt, is lactated food—a food that does not disagree with the delicate stomach, that is eaten with zest and appetite, always and out, producing a pure food which meets every requirement of the growing child. An infant likes it. Fretful, peevish babies grow strong, ruddy and healthy on it. It has the unusual virtue of inducing delicate babies to take an abundance of nourishment when other foods disagree with them, and when retarded growth, feebleness and intestinal irritation threaten the poorly fed child.

Lactated food is made with the express intention of forming a perfect substitute for healthy mother's milk. Its basis is sugar of milk; with it is combined the nutritive parts of wheat, barley and oats, producing a pure food which meets every requirement of the growing child. An infant likes it. Fretful, peevish babies grow strong, ruddy and healthy on it. It has the unusual virtue of inducing delicate babies to take an abundance of nourishment when other foods disagree with them, and when retarded growth, feebleness and intestinal irritation threaten the poorly fed child.

It is ignorance on the part of nurses and parents that is to blame for the summer disorders, diarrhoea and cholera infantum. Children must eat well, digest well and be protected from impurities in their food to grow rapidly, and to escape sickness. In the homes of the vast number of physicians and well-informed parents, lactated food is the sole diet for the little ones not only in summer, but all the year round. It is a perfect infant food, as testified by thousands of happy mothers. It gives to all the rapidly growing tissues a chance to be fed and completely nourished.

Mrs. E. E. Reynolds, of Fair Haven, Vt., says: "Our little Mary is a perfect picture of health, having used lactated food since she was two months old. She has always been perfectly well, and we think that this is largely due to her use of lactated food."

A baby's whole duty is to keep strong and well. "The parents' duty is to give the infant the best food in the world, and that is lactated food. All druggists supply it."

## PIPPING THE SPEAK-EASIES

### Liquor Dealers' Protective Association on the War Path.

#### SIXTEEN WILL BE ARRESTED

##### Crusade Against Illegal Liquor Sellers by Crusaders Who Are Influential and Deeply in Earnest—Evidence Secured During the Past Week.

The Liquor Dealers' Protective association has instituted a crusade against the illicit dealers, which, unlike many crusades against this same evil, promises to end in something more serious than a quietus before the public. A During this week a half dozen agents of the association, under the direction of County Detective Leysdon, have been quietly active about securing evidence of violations of the liquor laws in holes-in-the-wall, and so far sixteen parties have been listed for arrest and prosecution. These half dozen making the arrests Monday and continue until all have been given hearings. It is expected that it will be possible to have the cases put on the trial list for the September term of court.

Majority Live in Scranton.

The victims of the prosecution are scattered over the entire county, but a majority of them are located in Scranton, in the following order: The object has been to secure evidence against the most flagrant violators in each locality so that the crusade will have an salutary effect in every district of the county.

The work of gathering evidence was begun last Sunday, and as a consequence many of the dealers have had to answer the charge of selling on Sunday in addition to selling without a license. The detectives report that although the dealers have been given a chance to get out of the business, many of them have closed up their places or are very wary in dispensing liquors. The fact which were known before the alarm was given and these will have to answer for the sins of all.

Investigation of the Crusade.

The crusade was instigated by the Liquor Dealers' Protective association because, as they allege, they cannot pay a \$500 license and compete against those who do not pay any license at all. These holes-in-the-wall, which are of very large dimensions, have sprung up so numerous and are doing such a vast amount of business that the licensed dealers are being driven out of the market. The fact which they have to rely upon to pay their big license and rent and other expenses goes to these illicit grog shops and, as a consequence, the great extent to which this illegal business is carried on, the liquor dealers have been forced to take extreme measures to protect themselves.

They intend to keep up this crusade until there is not an illegal grog shop to be found in the county.

**TOO MUCH CHEAP FUEL.**

Mr. Brundage Objects to Having It Deposited on His Land.

A. W. Brundage, of Pockville, began yesterday's search for the Blue Ridge coal fields.

Mr. Brundage owns a property which fronts on the Providence and Carbon county line, and he has been searching for coal fields in the area.

He charges that it allows large quantities of culm from its coal works to be dumped on his land, and he carries it along and deposits it on his land. Mr. Brundage also avers that the culm has changed the course of the stream and caused the water to flow on his land.

**NORTH END.**

The funeral of James McMahon, who died on Wednesday, took place yesterday afternoon at the family residence, on West Market street. Interment was made in Hyde Park cemetery.

Edward Cornell, of this end, expects to open a millinery store in Oliphant very soon.

Horton E. Harris is erecting a new house on Kay Avenue.

The funeral of Mrs. Sarah Beech, who died at her home, on North Summit avenue, on Wednesday, took place yesterday afternoon. Interment was made in Dunmore cemetery.

David H. Price is building a new house on Edna avenue.

There will be no service in the Providence Presbyterian church tomorrow, but the Sunday school at 12 o'clock and Christian Endeavor at 6.30 o'clock will be held as usual.

T. Burke is erecting a new house on Perry street.

Hold a conference.

City Engineer Phillips and committee from the West Side board of health yesterday conferred regarding the proposed widening and improvement of the course of study to be made with the plans of the engineer.

The Scranton Business College.

Special tuition offer for August.

Office open day and evening.

Day and evening sessions reopen Monday, Sept. 2.

The night school will again be crowded with an earnest and enthusiastic lot of ladies and gentlemen.

Business men who employ students from this school always come a second time when they need more help.

A certain individual wants to purchase the Scranton Business College. Buck, Whitmore & Co. informed him that no price he could offer would induce them to sell.

The college is now a scene of bustling activity—carpenters enlarging the building, hand room, building supply room, banks, etc., and the members of the faculty explaining the course of study to the many already applying for admission.

The members of last year's faculty have demonstrated to the public their ability to do first-class work. The new member, Professor E. A. Crittenden, with his six years' experience in a state normal school, and three years in business colleges, will doubtless prove a valuable acquisition.

It is the ambition of the proprietors to conduct the best college rather than the largest. It is now quite generally conceded that this college has many advantages over other colleges in the city, and predicting that more room will be needed to accommodate all who will attend this year. An addition will be built soon as needed.

Pillsbury's Flour Mills have a capacity of 11,000 barrels a day.

**DIED.**

JONES—In Scranton, Friday, Aug. 14, 1895, John Jones, at his home, on Liberty street. Interment at Belvidere, N. J., on Sunday, Aug. 15.
