REUNION AT MONTROSE.

Excursion That Will Be Conducted to

That Piace on Wednesday. The day selected for the seventeenth annual reunion of the Seven County Veteran association is next Wednes-ay, and there will be a gathering at Montrose from all points, where com-rade will grasp comrade's hand with that intense fraternal feeling that no one but an old soldier can realize. The boys will gather in groups, and

The Colliery Engineer Company In-ereases its Capital to \$250,000.

At a meeting of the stockholders of the Colliery Engineer company held to

last Friday at the office of the company, 989 shares were represented. By a unanimous vote it was decided to increase the capital stock from \$150,000 to \$250,000. This will enable the company to make needed enlargements in its accommodations, including the erection of a handsome building and the establishment of a fine printing plant. There are now 9,000 students connected with the Colliery Engineer Correspondence school of mining and engineering—the largest institution of its kind in the world. The school is growing daily, and will soon include a complete scientific department equalling the best scientific schools in the country.

St. Thomas of Aquin college, Scranton, Aug. 15, 1895.

The classes at St. Thomas of Aquin college, Scranton, will be resumed on Monday, Sept. 9, 1895.

The course of studies will be such as to enable students to prepare for the universities and for the learned professions; and will, therefore, include Latin, Greek, English, mathematics, history, the physical sciences, and allied branches, Although the primary object of such a course as this is to afford what is generally known as a classical education as opposed to a business education, yet experience shows that the best foundations for a business life are best laid down in the training afforded by a proper study of the classics. However, competent teachers will give instruction in such branches as are deemed necessary to fit young men for mercantile pursuits.

Students desiring to enter the college may present themselves for examination at 331 Wyoming avenue, Scranton, from 10 to 12 and 401 sevent Sunday, and 18 actions. Excursion to Ocean Grove for the Camp Asbury Park and Ocean Grove, recognized as the most famous of all the great New Jersey seashore resorts, have manifold attractions for all persons that appreciate a sojourn by the ocean. The world at large coextributes people that are patrons of these resorts and among them are many that are distinguished in the various walks of life. The hotel, cottages, views of ocean, the breakers, bathing and style that pervades Asbury Park each recurring summer is something startling and must be seen by personal observation in order to be appreciated fully. August is the month here. The hotels and cottages are filled, the fine driveways are gay with fashionable equipages and the music of manifold bands and orchestras throws its resonant echo over the entire sec.s. At right the filcker of electric lights seems to be almost in competition with the stars, for it must be remembered that Asbury Park is a city of advancement and has all the modern improvements born of enterprise. The private life in cottages is in strange comparison with the fashionable round of hotel gayety that attracts wide-awake people to the grand hotels. Asbury Park with all the bustle that keens visitors on the qui-vive, has no disorder, for the stringent local laws keep all would-be offenders within bounds and nothing but a good time marks the wane of summer days. Bething is one of Asbury's greatest attractions, and the coatumes seen here in the breakers are as original as they are costly and varied. The board walk, the greatest along shore promenade north of Atlantic City, has the spearance of upper Broadway, New York, on Saturday afternoon, with its surging crowd moving in opposite directions, and Ocean Grove, with its colony of white tents, the abodes of campers-out, is a pretty sight to behold. The annual camb meeting begins here Aug. 20 and will continue ten days. The Central Ralirond of New Jersey will give residents along the Lehigh and Susauuhanna division from Scranton to Mauch Chunk an opportunity to visit these places by a very low rate excurs Meeting.
