The field work of the Sursets was very good. Smith, the ex-professional, who played with Larry Ketrick's "Indians," held down first base for the Shamrocks, and did very good field work, but was weak at the bat. The umpire, Lawrence Ketrick, did first-class work, and was in evidence throughout the game. SATURDAY GAMES.

Miller Hit Steadily and Hard by Wilkes

Bobby Miller, the new Scranton pitcher, got a very cordial reception at Wilkes-Barre Saturday, and when the festivities were over the Alligators had shown their appreciation for Miller's curves by making fifteen hits. This feature and Keenan's puzzling defivery furnish a sufficient explanation of the game.

HARD FOR SCRANTON.

Buffalo Defeats Toronto and Goes Into Fifth Place.

Buffalo, Aug. 18.—Buffalo and To-ronto played a rattling game today, and though Hernon was touched up freely, the superb fielding of Buffalo held Toronto's runs down. Fournier, late of Buffalo, pitched for

Toronto, and until the third inning he shut out the Buffalos in order. In the third, however, two scratch hits and three errors gave Buffalo four runs. In the fifth and eighth the home team felt Fournier and in each inning earne four runs. Attendance, 4,000. BUFFALO.

TWENTY-THIRD VICTORY.

Scranton Y. M. C. A. Worked Hard to De feat the Dunmores. One of the most exciting and closely contested amateur games in this city this season was that played Saturday by the Scranton Young Men's Chris tian association and Dunmore Morning Glories, of the County league, and which the Scranton club won in the ninth inning. The Scrantons led by two runs in the fifth inning, but in the eighth the Morning Glories got a lead of one run. In the ninth the Young Men's Chrictian association scored three runs and won the game on Dean's two-bagger, Hoffner's single, Owens' single and Gelbert's two-bag-

YACHTING EXPERIMENT.

Lord Dunraven Thinks It Will Be Difficult for Americans to Build Boats for English Waters.

English Waters.

London, Aug. 18.—Lord Dunraven, the head of the syndkaate which built that Valkyrie, bits daughters, Ladies Rachel and Alteen, and Mr. Watson, the designer of the Valkyrie, will sail for New York on Wednesday next. Upon arriving in New York Lord Duncaven will lose no time in getting the Valkyrie into racing trim. Three weeks' practice by the crew under the conditions prevailing in American waters will make them familiar with these conditions by Sept. 14. There is no difference between the Valkyrie and the Valkyrie II, except as to her lines and sails. Lord Dunraven long ago determined that he would, if it were possible, bring the America's cup back to England. Should he fail in his attempt this year he will certainly repeat his effort. Lord Dunraven's and Mr. Watson's studies of the races in America in 1893 showed that English yachts are best sailed in English waters and America wachts in American waters. The best sailed in English waters and Amer-ican yachts in American waters. The contests between the Valkyrie II and Vigilant in 1893 and between the Vig-ilant and Brittannia in 1894 conclu-sively demonstrated this and convinced Lord Dunraven that to win the cup a yacht must be built especially for

American waters.

If Valkyrie III would win the cup
Lord Dunraven will try to make her
cupable of defending it. He thinks the Americans would find it equally diffi-cult, in an attempt to regain the cup, to build a boat to suit English waters, as the English have found it to build one to win it. With regard to the Defender as compared with the Vigilant, Lord Dunraven does not think that the later is in quite as good condition as she was in 1893. If she is and the reports of her sailings against the Defender are true, the Defender is a good boat. He thinks that the Valgyrie's chances are good to win the cup so far as the New York yach't club and the Defender are

fork yacht chib and the Detender are concerned, but he is afraid that the excursion boats will make trouble. They believe that the royal yacht squadron will endeavor to have everything fair and square but they criticize the manner in which steamers that watch races crowd the yachts. Lord Dunraven wanted the races to be held off Marble Head or away from New York in order to avoid this crowding. No one here places any reliance in the Eng-lish press gossip about the unfairness of Americans. Lord Dunrayen declares that he found at all the races that the Americans were honest and sportsmanlike. He makes no complaint. He ex-pects that the races will be good this year, and has no doubt of the best boat

FORESTRY AT ATLANTA.

Washington, Aug. 18.—The forestry ises to be the most complete and in-structive ever made by the government, exceeding in excellence, though not in size, the exhibit at Chicago in 1893. The exhibits are now being shipped, and the work of installation will proceed as rapidly as they arrive at Atlanta. It is the aim of Dr. B. E. Fernow, chief of the department of forestry, to make the exhibit typical of the splendid timber interests of the

wood in all phases of human life will be shown. Large panels are already hung on the pillars of the building, each representing one particular line of use; as for instance, wood in the kitchen, wood in the laundry, in sports, in the garden, in tools, etc.

The lumber exhibit will be so com-

plete that any one may trace the growth of the tree through various stages, learn its adaptability to various commercial uses, its value, durability, com-parative worth for specials uses, etc. In this exhibit, which includes a complete statistical history of southern forestry interests, Dr. Fernow has been ably seconded by the lumbermen of the south, so that a most complete exhibit of this nature will be made. The display of the United States division of forestry is rounded out and made complete by a small but comprehensive exhibit hibit of the naval-store industry, in which new and old methods of turpen-tine orcharding are illustrated.

MRS. SUTRO DECLINED.

Lack of Harmony in the Woman's Department of the Atlanta Exposition. Atlanta, Aug. 18.—The harmony which has characterized the proceedings of the woman's department of the Cotton States exposition has been dis-turbed somewhat by the disinclination of Mrs. Theodore Sutro, of New York, to play an inferior part in the proceedings. Miss Ella Powell, a society wo man of Atlanta, visited New York city several months ago to interest the ladies of the metropolis in the woman's department of the exposition.

Among those who came to her assist-ance was Mrs. Theodore Sutro, who took charge of the department of law and music. When Miss Powell re-turned to Atlanta local newspapers published her picture with articles on the New York exhibit and referring to her as having originated the scheme. wife's name from the committee by telegraph because of the slight placed upon her.

Upon the ad-vice of President Collier, I have paid no attention to the telegram. Mrs. Sut-ro is very charming. When I was in New York she showed me a huge scrap book with complimentary clippings pasted in it. I expect to entertain her during her stay here in Atlanta."
