THE NEW FIRE LIMITS.

Will Not Be Extended Any Further for the Present

Colonel Sanderson, Hon. J. E. Roche and C. E. Chittenden, the special com-mittee of select council appointed to consider the fire limits ordinance, met last night. As the ordinance now stands the boundaries of the territory in which non-combustible material only can be used in building are as

follows: Beginning at the intersection of the center lines of Jefferson avenue and center lines of Jenerson avenue and Vine street in the Ninth ward; thence along the line of Jefferson avenue in a southerly direction to the northerly line of the right of way of the Dela-ware, Lackawanna and Western railroad main line; thence in a westerly di-rection along the said northerly line of the Delaware, Lackawanna and West-ern Railroad companys' right of way to the easterly bank of the Lackawanpa river; thence up the easterly bank of the Lackawanna river, by its sev-eral courses and distances, to a point where the same is intersected by the projection in the street line of the cen-ter line of Vine street; thence in an easterly direction along the center line of Vine street to the place of begin-

ning. The committee thought to extend these limits, but after some consulta-tion concluded that it was too impor-tant a step to take without deep delib-eration and concluded to allow the ordinance to go through in its present

dinance to go through in its present shape. The only change made in the ordi-nance was the addition of a clause, suggested by Mr. Roche, providing that buildings containing two or more residences shall be supplied with fire walls separating each residence and protruding through the roof,
