State Championship Not Mr. Quay's Only Ambition.

GOOD GUESS OF A PRIEND

When Approached on the Gubernatorial Question the Senator Smiled a Rare Smile-He May Be Expected to Loom Up in 1898.

Philadelphia, Aug. 30.—A special to the Evening Telagraph from Harris-burg says that it is stated there on what is considered good authority that Senator Quay had more at stake in his fight this week than the state chair-manship, the control of the Pennsylvamanship, the control of the Pennsylva-nia delegation to the n-xt Republican national convention and the national chairmanship. He has his eye, it is said, upon the governor's chair and will be a candidate for that place in 1898. His term as senator does not expire until 1899, but he could resign from the senate a couple of months before his term expired and could, as governor, name his successor.

his successor. Wednesday evening after the convention adjourned a close friend put the question to Mr. Quay: "Does not this mean the governorship for you?" The senator's only reply was a smile, indicating that the friend had

#### LIBERTY BELL MAY GO. udge Thayer Rofmon to Allow an In-

Junction in the Case. Philadelphia, Aug. 30.—President Judge Thayer, of common pleas court No. 4, handed down an opinion today deciding that the city could take the liberty bell to the Atlanta exposition. The complainants appeared in the role of citizens and taxpayers, and asked for an injunction to restrain the defendants from taking the bell to the Atlanta exposition on the grounds, among other things, of the illegality of the appropriation to pay the expenses, and also because such a trip beyond

the city limits would be putting the bell to a use other than its proper and legi-timate one. Judge Thayer refused the motion for an injunction, and ordered that the bill be dismissed with costs. In his opinion Judge Thayer said that the bell was the absolute property of the city of Philadelphia and that the sending of it to Atlanta was not only lawful but laudable.

Philadelphia, Aug. 30.—The Evening Telegraph today says that the Democratic state convention, which will meet on Sept. 11 at Williamsport, will nominate six candidates for judges of the new superior court. There are, it is said, at least thirty Democratic attorneys throughout the state who are anxious to be placed upon the ticket. The Democrats in the Interior of the The Democrats in the interior of the state, it seems, do not favor the nomination of Henry J. McCarthy, of this city, who was appointed by Governor Hastings as the minority judge of the court. The interior Democrats, it is said, fear that if he should be given a place on the ticket he would receive such a large Republican vote that it would make him the highest man of the six Democratic nominees.

National Chairman Harrity was asked today what action he thought the convention would take in the mat-ter. He was disinclined to being in-terviewed, saying that he had so re-cently returned home that he did not feel that he could talk about any mat-ter having reference to the state con-vention at this time. Mr. Harrity was equally reticent as to the probable construction of the party platform.

She Will Defend the Cup Against All Comers,

VIGILANT EASILY DEPEATED

Formal Announcement of the Selection of the Victorious Yacht Is Made by the Cup Committee - The Valkyrie Out for a Spin.

New York, Aug. 30.—All hail Defender. The gallant white sloop won the third trial race today and was formally selected to defend the American cup—the "blue ribbon of the sea." In a thrash to windward of ten miles and a run home with spinakers and balloons set, the Herreshoff keel boat beat the Vigilant handsomely and could have beaten her a minute more beat the Vigilant handsomely and could have beaten her a minute more had she been fushed to her utmost.

A rattling breeze and a rough sea made the test of the abilities of the new boat one of the best that has been afforded. Yachting sharps who saw her said that she would do. She removed all doubts as to her ability to go through a head sea in a blow. She established a record as a weather boat. established a record as a weather boat, and her heavier mast and stouter rig did good service. The keel boat outpointed the center boarder and out-footed her in the windward work. She showed herself stiffer in a breeze and

easier in getting through rough water. She made less fuss and left a clean wake.

At the outer mark she had five minutes and twenty-seven seconds the best of it. On the run home, before the wind, the Vigilant picked up fifteen seconds of the time she had lost. The Defender won by five minutes and twelve seconds elapsed time over the twenty-mile course. After the race the following announcement was made. the following announcement was made

The cup hunter was too late in getting un-der way, and arrived only in time to see the finish. Less sail was carried by the Englishman, a working topsall being used instead of the club top sails of the American boats, but he seemed to heel over more and to labor harder in the sea than even the blunt-nosed Vigilant. Lord Dunraven gave the racers a wide berth and seemed to avoid akowing any one a chance to get a line on the speed of his boat compared with the Yankee

flyers.

The Defender never showed to better advantage than today. She was in the pink of perfection and well handled, although plainly not pushed to her begt, as no jib topsail was carried. #### MARKET IMPROVEMENTS.

Is Now a Question as to What Branches May Be Injured by Too Rapid Expansion in Prices.

New York, Aug. 30.-R. G. Dun & Co. in their weekly review of trade tomor-row, will say: Improvement in mar-kets and prices continues, and where a few months ago everybody was nursing the faintest hopes of recovery, it has now come to be the only question in what branches, if any, the rise in prices and in the increase of business may go too far. A strong conservative feeling is finding expression, not as yet controlling the markets or industries, but warning against too rapid expansion and rise. In some directions the advance in prices clearly checks fuadvance in prices clearly checks fu-ture business. The industries are not only doing better than anybody had expected, but are counting upon a great business for the rest of the year. The prospect for wheat has hardly improved this week, though price has fallen 1½ cents. Western receipts have decidedly increased, but are only 3,905,-905 bushels against 6,428,294 last year, and Atlantic exports are only 1,373,356 for the week, flour included, against 3,271,113 last year. In the past four weeks Atlantic exports have only been 4,368,589 bushels against 11,701,853 last year, and this alone is quite enough to explain the failure to maintain the sensational advance in prices which so ef fectively checked the outgo.
