OHIO CLAIMED FOR REED

A Coalition is Hinted Between Foraker and Quay.

KURTZ'S FAVORABLE REPORT

Will Ohio Side-Track Governor McKinley in the Interest of Reed?
The Quay and Cameron Stories are Discredited.

Columbus, O., Sept. 6.—The Press publishes this evening a story in explanation of the recent visit of Charles L. Kurtz, chairman of the Ohio Republican executive committee, to Senator Quay at Pittsburg. The substance of it is that a coalition is being made between Foraker and Quay in behalf of Reed, of Maine, for the presidency, in consequence of the work of William M. Hahn, of Ohio, who has been in New York the last two weeks in the interest of Governor McKinley's presidential bid.

If the Republicans carry Ohio this fall as they expect to, Foraker will be in full control of the state, and Kurtz is said to have reported to Quay that while the Ohio delegation will be nominally for McKinley, at last two-thirds of them will be in heart for Reed, and will go to him upon the first opportunity.

Quay and Cameron Break.
Pittsburg, Sept. 6.—Lieutenant Governor Walker Lyon does not take any stock in the story from Philadelphia that Senator Quay might take up Governor Daniel Hastings again and make him a United States senator to succeed Senator Cameron in '97. He said: "I never heard anything of such a scheme either from Senator Quay or anybody else. It hardly seems to me probable that it could be true. Besides, I am not particularly anxious about it, as I have no real banking after Governor Hastings' seat."

Another Harrisburg story, says ex-Senator James S. McKim, is that he has made the head of the Quay organization in Allegheny county. Mr. McKim says his business will not allow him to take the place if offered. The latest political rumor that has gained currency is that a new political combination is to be formed in Pittsburg which will cover almost a political revolution. The six from the north are, it is said, Senator Quay, Senator William Pittman and Director J. O. Brown, have formed a political partnership to drive C. L. Magee out of politics.

SHOOTING AT SEA GIRT.
District of Columbia Team Makes the Highest Score The Washington Men Win the Boatswain Horse.

Sea Girt, N. J., Sept. 6.—The New Jersey rifle association can feel proud over the success of its fifth annual meeting, which commenced on Monday and closed tomorrow night. Several records have been broken. Tomorrow the match for the Wimbledon cup will take place.

The greatest interest was centered in the interstate team match, in which thirteen teams were entered. It was won by the District of Columbia regimental battalion and separate company organization of the National Guard of the United States or of the United States Army. The latter was represented by the Thirtieth Infantry, which is stationed at Governor's Island.

The conditions were the same as in the interstate team match, namely: Firing at the 200 and 500-yard ranges, finishing with two skirmish runs. The scores were: District of Columbia, 137; First Massachusetts, 131; Twelfth New York, 129; Third Pennsylvania, 125; Thirtieth United States Army, 123; Sixth New Jersey, 118; Third New Jersey, 115; Fourth New Jersey, 112.

The total scores made are as follows: Interstate regimental match, English corner and the District of Columbia, 137; First Massachusetts, 131; Twelfth New York, 129; Third Pennsylvania, 125; Thirtieth United States Army, 123; Sixth New Jersey, 118; Third New Jersey, 115; Fourth New Jersey, 112.

The best individual score on the skirmish run was made by Lieutenant Hutterly of the Engineer corps of the District of Columbia, who made nine bullet holes and one four out of twenty shots, a total of nineteen out of twenty hits. This beats the record by four points, and is the most remarkable rifle performance ever made in a skirmish. On the second run Hutterly scored 93. The score therefore for the two runs was 185. P. C. Wilson, of Georgia, made 98 on one of the runs. Sergeant Dietrich of the Second New Jersey, and Lieutenant P. C. Wilson, of Louisiana, were congratulated on all sides for their great shooting.

NO REACTION IN BUSINESS.

The Brightest Feature in All the Horizon Is the Certainty of an Immense Corn Crop.
New York, Sept. 6.—R. G. Dun & Co. in their weekly report of trade, commerce and business, says: "There is no reaction in business. Gains which were recognized as temporary are vanishing, but there remains a decided increase over last year at date, although prices average 25 per cent. lower than a year ago. It needs no keen observer to see that the reaction might not have advanced of prices in the market, and in these reports the general tendency to curtail purchases where prices have noticeably advanced shows clearly in boots and shoes, in woolens, and in some products of iron."
