# THE JURY OUT.

Abram Eckert's Fate Now Rests with

At the opening of court yesterday morning there was a big crowd in the court room to hear the closing argu-ments in the Eckert murder case. Mr. Thornton opened for the defense and he explained at length the definition of murder and the distinction between the

warious degrees of murder.

E. F. McGovern then closed for the defense. He went over the testimony fully and for the material he had at his command, he made an eloquent and forcible plea for the defendant. The fact of the accident to Eckert and fol-lowing the cause of defense, his tem-porary insanity, also that Eckert was afraid Bittenbender was going to harm him by kicking him and asking elem-ency for the prisoner on behalf of his family, and his previous good charac-ter, all were brought out and submitted

District Attorney Fell, in his argument, went into every detail that would bear against the prisoner. He commented on the fact that Mrs. Eckert did not take the stand to corroborate her husband's defense as to his fits of insanity. (Mr. Thornton and Mr. Dewart both jumped up and objected to Mr. Fell's comment on Mrs. Eckert mot taking the stand. Mr. Dewart said it was persecution, not prosecution, and thought Mr. Fell showed very bad taste in acting as he did. There was a warm argument after which the court decided that there was nothing before it and Mr. Fell continued, concluding his argument with the noon adjourn-

After dinner Judge Woodward made a very able charge to the jury. He said that there was no doubt that Bittenbender was shot and that Eckert did the shooting.

The judge defined murder in the first degree and in the second degree. "Mur-der in the first degree must have the intent, while second degree is all other kinds of murder. It is your duty to find whether the murder was commit-ted and to fix the degree, and you must be guided by the law fixing the differ-ent degrees of murder. Murder in the first degree must be with intent, deliberation and premeditation.
"It being established that a murder

has been committed, that a resident of our county has been shot in broad day our county has been shot in broad day light by the prisoner within the limits of this county, you are to establish

"It is contended by the common-wealth that they have shown a deliber-ate and premeditated intent to commit murder, and the prisoner should be convicted of murder in the first degree. "On the other hand, the defense claims that the deed was done during temporary aberration of mind, and that the defendant was not responsible for his action. The prisoner is the only witness for the defense, and while a prisoner may be a witness in his own behalf, you must take it together with the interest that he has in the case. There has been no expert testimony as to insanity in this case, and no evidence to show that he was liable to such attacks, or that under the influ-ence of these attacks Eckert was incapacitated from doing his ordinary work. I have not instructed in the matter of manslaughter and do not work. I have not instructed in the matter of manslaughter and do not consider it necessary under the evidence. You must either find him guilty

## THE WATER SUPPLY.

The Wilkes Barre Company Will Help the Crystal Spring Company.

At the meeting of the directors of the Wilkes-Barre Water company yesterday it was decided to lend all assist-face possible to the Crystal Spring company, to help it through the pressent emergency. The fire engine began pumping again yesterday morning, under orders from Mayor Nichols, and will keep it up until the crisis is over. The Wilkes-Barre Water company is now feeding into the mains of the Crystal Spring company, through five connections, but many of the latter's patrons are not supplied, owing to the height at which they live.

A pump is now drawing water from the river and forcing it into a reservoir on Laurel Run, near Mill Creek, the capacity of which is about 30,000,000 gallons. This pump has a capacity of 5,000,000 gallons a day. This is to be conveyed by the Crystal Spring company to a reservoir near the Black Diamond colliery and from there to the company's mains. Several car loads of pipe are on their way to the city from Emaus and Easton, and it was thought The water in the river above Mill Creek is said to be of fairly good quality, though those who use it should take no risks, but boil it. Notwith-standing the heavy drain that is being made on the Huntsville dam there is a good supply. It is said that in addition to pumping 11,000,000 gallons a day to their own consumers the Wilkes-Barre Water company is also turning into the mains of the Crystal Spring company more than 5,000,000 gallons a

Affiler told the story of his trip with Harry Howe and Al Phillips on the day and night of the robbery and clearly proved that he was not there at the time.

The only evidence offered by the prosecution was that the three men had been in Moosic that day. This was not sufficient, and Mr. Hahn discharged
