NO SLATE AT SYRACUSE

Democratic Convention Will Be Luridly Lively.

IT WILL BE VERY INTERESTING

Strife Between Tammany and the State Democracy Will Be Fraught with Red Fire Features-Roswell Flower Will Blossom as Chairman.

Syracuse, Sept. 23.—The great unter-rified, the Democracy of the Empire state, is here with brass bands and a Of all recent conventions, the one which will meet tomorrow promises to be the most interesting. It will be a convention run by the delegates. There is no slate with an invincible machine behind it, and no cut and dried programme. Platform and candidates and the contests will be fought out on the floor of the convention. There will be strife between Tammany and the state Democracy, and strife that will be more lurid than the glare of red fire in front of the tiger's lair to-night. Sentiment all over the state

seems to favor liberal treatment of contestants, and at least partial recogni-tion for the Grace-Fairchild people of New York city, but Tammany says: "No," and to all entreaties and appeals

Tammany again says, "No."

Senator Hill is for admitting the Grace men. Senator Murphy is for shutting them out. Boss Croker is not here, but his influence is felt, and it is all against letting in the men who halved defeat. helped defeat Tammany last year, and shared the victors' spoils with Republicans. Upon the admission of the state Democracy depends in a large measure the action to the German-Americans. as liberal treatment of the Grace-Fair-child men will mean the gain of many German votes. Another great ques-tion to be settled which will affect the German vote is that of excise and Sunday opening. From all that can be learned the Democrats will not dodge the issue, but will make the most radical utterance that has found its way into a party platform in some time. Ex-Governor Flower will be perman-ent chairman.

Platform Will Be Stippery The preliminary draft of the platform has been made. Some of the planks are being smoothed down so that no one

need trip up over them, but the ma-terial is in place. The platform will be one of the tersest that has been presented to any Dem-ocratic state convention since 1874. It will cover more ground than any platform in the past twenty years and the great variety of subjects treated will be concisely disposed of. It will declare for honest public officials and against legislative bribery. Economy in public expenditures will be dwelt upon at length, as one of the foundation stones of the Democratic party. Home rule for municipalities and equal taxation will be upheld in sparate planks. Unwill be upheld in sparate planks. Un-der the head of "personal liberty of the individual" the Democratic party will will, in effect, place the party in favor shall have to the necessities and con-

veniences of life on the Sabbath day The financial plank will, it is confidently expected, meet with the approbadently expected, meet with the approba-tion of all concerned. It will demand an agreement among foreign powers for the common use of gold and silver and at the same time declare against the unlimited coinage of silver until such an agreement can be brought about. The national administration will be endorsed as well as the opera-tions of the Wilson tariff law. United States Senator David R. Hill

United States Senator David B. Hill attended the meeting of the Democratic state convention tonight for the

first time in ten years. The committee named Hon. Perry Belmont, of New York, as temporary chairman of the convention, which is

to convene at noon tomorrow.

Oxford, Pa., Sept. 23.—The remains of a rather remarkable man were buried here yesterday. The individual was John Lowry, who had lived 81 years, and had never done a day's work in his life. Lowry became known to the majority of citizens of Southern Ches ter of and Lancaster counties, and northern Cecil county, Md. He was a familiar figure at public meetings, and his excellent memory enabled him to address almost every man by his right name. He was opposed to work, and whenever a farmer asked him to do a little job Lowry quit the place at once and remained away for months. In 1845 he walked to Washington a

few days prior to James K. Polk's in-auguration, and claimed relationship. Polk presented a handsome silver-headed cane to him, which he carried for years. Lowry died within a stone's throw of the soot where he was born, and was buried from the home of his sister, Mrs. Elizabeth Fleming.

COMEDY OF ERRORS.

Fromble Caused by a Heavy Weight Juror Who Resembled Rotund Senator Baker of Media.

Media, Pa., Sept. 23.-Senator Jesse M. Baker was called before the court today to make answer to a charge of unprofessional conduct as an attorney. It was all due to the remarkable re-semblatice one of the jurors bears to the senator. Senator Baker was counsel for Charles Dixon, charged with disturbing a religious meeting. The grand jury ignored the bill and put the costs on the prosecutors, Daniel Stew-art and Thomas Foreman. They were surprised at the jury's finding, and said that Senator Baker was the cause of it. They made an affidavit, stating that Baker had gone into the grand jury room and cross-examined the witne for the commonwealth. The senator, when called before the court, made a

very hot denial of the charge. Church Trustee Foreman said that Mr. Baker was not telling the truth, and James W. Gray, the foreman of the jury was sent for. He said Mr. Baker had not examined the witnesses in the Dixon case and was not in the jury This still did not satisfy the men

who had the costs put on them, and the entire panel of grand jurors were brought into court.
