

## ANOTHER BIG YACHT RACE

Formal Challenge from England is on Its Way Here.

## DEFENDER WILL SAIL AGAIN

Stentor Shore is the New Challenger—She Sails in the Aristocratic Royal Victoria Fleet—The Prince of Wales May Come Over.

London, Sept. 23.—J. M. Soper, the yacht designer, came to London today and had a conference with Charles Day Rose regarding the details of the yacht with which it is proposed to challenge for the America's cup. It was agreed to communicate with the secretary of the Royal Victoria club, who will cable to the New York Yacht club as follows: "Formal challenge by mail will follow and will reach the New York Yacht club, and in the name of C. D. Rose, a member, the club challenges to sail a series of matches for the America's cup against any yacht or yachts built in the United States. The following are the particulars: Challenger's owner, C. D. Rose; name of yacht, 'The Stentor'; length of lead water line, eighty-nine feet; rig, cutter. "The challenge will be absolutely unconditional."

New York, Sept. 23.—When the above cable message was shown to ex-Commodore James D. Smith, chairman of the America's cup committee, the veteran yachtsman read the news eagerly, and said: "This, indeed is a very sportsmanlike challenge, and I am very glad to hear of it. Of course, our committee has nothing to do with it, but when the direct challenge arrives, I have no doubt that a special meeting of the New York Yacht club will be called, and a new cup committee appointed."

"In his preliminary challenge, Mr. Rose said that he hoped to challenge for the America's cup next year, the race to be sailed on conditions satisfactory to the cup committee. In the cablegram just shown, Mr. Rose has changed his previous cablegram and leaves the conditions absolutely in the hands of any cup committee that may be appointed. Whether or not I can now say positively that the very fairest possible conditions will be adopted."

Defender Will Defend. "This is good news, and, in my opinion, it will not be necessary for us to build another cup defender in order to beat the Stentor. It is quite evident from the figure named—89 feet—as the limit of the lead water length, that Mr. Rose intends to build a cutter much the same in size as Valkyrie III, which measured 85.50 feet when ready to race against Defender's 88.45 feet. He may, however, build her smaller than Valkyrie III, but he must not exceed 89 feet. Yachtsmen generally appear to believe that the challenge of Mr. Rose was suggested by the Prince of Wales, and there is no reason to think that he may come over to the race. There is scarcely a doubt that there will be at least one new boat built to defend the cup. The names of George Gould and several other well-known persons are heard in connection with new yachts."

## ENGLISHMEN WIN.

Oxford-Cambridge Cricketers Defeat the Gentlemen of Philadelphia.

Philadelphia, Sept. 23.—The Oxford-Cambridge cricketers, who were defeated by the University of Pennsylvania by beating the gentlemen of Philadelphia in the match which has been in progress since Friday and which ended this afternoon.

Baltimore won an easy victory from Philadelphia yesterday and jumped two points ahead of Cleveland. The latter have two games scheduled this week with Louisville, who should be easy game for the second place team, whose percentage should jump up. Baltimore has four more games to play with Philadelphia and New York, and by losing two of them will still have a percentage of .65, two points ahead of Cleveland. The last game is to be played in New York next Monday and that game will decide the contest, provided Baltimore loses two games in the interval and provided Cleveland wins twice from Louisville. Cleveland has a postponed game with Chicago which it could play in that city on Monday, but it is said that Tebeau will pin his faith to New York rather than take chances with Chicago. Yesterday's games were quite evenly distributed among leaders and tailors, and the results do not change the position of any club.
