Government Troops Break Up a Rebel Camp at Piedra.

JOSE MACEO REPORTED DEAD

The Government Is Silent on the Subject Yellow Fever Aids the Insurgents in Reducing the Spanish Army. Siege of Baracoa.

West, Fla., Sept. 27.—Official reports
Santiago de Cuba, Sept. 18, via Key
from Guantanamo say that on Monday,
Sept. 16, a Spanish column attacked the
rebel camp Piedra, between the Felicidad and Rio Sew, occupied by 800 insurgents under Leader Gill, and killed
eight of the rebels before driving them
from their position. Three Spanish soldiers were wounded. When the Spaniards took possession of the rebel camp
they found several explosive shelis they found several explosive shells buried, but they were dug up before any damage occurred. It is reported here that Antonio Macco is moving tohere that Antonio Macco is moving to-ward the villas with 6,000 cavalrymen. Another rumor is to the effect that Jose Macco is dead of heart disease, but the report is not credited. The gov-ernment is very silent in the matter whereas if the report were true it would be published officially with much retoleing.

rejoicing.

The recent recruits from Spain are not likely to be of any material benefit to the authorities. Of those who ar-rived a few days ago many have died and numerous others are in the hos-pitals. Six succumbed to yellow fever within twenty-four hours of their landing here. Those of the repruits who are yet able to move about the streets, are, because of their uncleanliness and drinking habits, likely to be in hos-pitals or graves within a short time.

Siege of Barneon. From Baracoa come reports showing that city to be in a state of slege and threatened with extinction. The insurgents do not allow anything to enter the city from the outlying districts, and if the city is not burned out its inhabitants stand a good chance of being starved out. On Sept. 14 the rebels broke the acqueduct and burned the costly elevators which were recently costly elevators which were recently built. Many business men, with their families, have left Baracoa and come

here to stay.

One of them reports a dastordiy double murder on the streets of Baracoa a few days ago. A soldier loaded his gun and without any known cause deliberately fired at a corporal, killing him instantly. Another soldier who was with the corporal was also shot

Today was the tamest session of the case. It was expected that the defense would continue in its efforts to show that Durant was at the college on the afternoon of the murder, but instead, it switched off to technical mat-ters connected with the church. This was, in consequence, a tame day of prosaic points about marks on the church tower door and the sun burners where Durant alleges he was re-pairing the electrical vibrator. This was not without its use in the case, and in that portion relating to the sun burners the defense showed that there was defective ventilation around them and that their theory as to gas having overcome Durant on the afternoon of the murder was not altogether unlikely. Together with Carpenter, a gas fitter, who examined the sun burners at the request of the defense, testified that the ventilators above them afforded no draught, and that he had found the damper in one of them closed. His investigation showed that a passent in the vestigation showed that a person in the position Durant alleges he was in fixing the apparatus connected with the

Guatemala's Minister Offended at His Utterances.

AN INTERNATIONAL DISPUTE

Senor Depuy de Lome, of Spain, Is Said to llave Been Making Statements in Which He Referred to Guatemala as an Inferior Nation.

Washington, Sept. 27 .- A sharp diplomatic correspondence is passing be-tween two distinguished members of the diplomatic corps in Washington. Senor Dupuy de Lome, of Spain, and Senor Lazo- Arriaga, of Guatemala. The latter has called on the Spanish minister for a public disavowal of certain

reflections on Guatemala. The two diplomats met at the state department, where Senor Lazo-Arriaga personally reiterated what he had alady requested in writing in the form of a public retraction.

The affair is the result of one of several interviews and statements in which Senor Depuy de Lome has apwarch senor bepuy de Lome has ap-peared of late concerning the Cuban insurrection. In these statements he arraigned the press for partiality toward the insurgents, and, in speaking of the latter said that if the Cubans gained the independence they sought they would reduce Cuba to an inferior place among the nations of the world, analogous, he said, to the low position of Hayti, San Domingo or Guatemala. The statement reached Senor Lazo-Arriaga in due time. He resented Geatemala's being held up as a type of an inferior nation. He thereupon addressed a letter to Senor de Lome, which, although couched in the smooth phrases of diplomacy, left no doubt of

Senor Arriaga's indignation. The let-ter is understood to have pointed out, among other things, the following: That Guatemala did not at present have an insurrection of her people on her hands that Guatemala had made more material progress during the last seventy-five years than Spain; that it was permissible for Senor Depuy de Lome to make such reflections as he chose on Spain or Cubs, but that his position as a diplomat made it incom-patible that he should publicly insult other countries.

What reply, if any, Senor Depuy de Lome made is not known, but the two ministers happened to come together today while seeking Secretary Olney at the state department. The ministers showed all due deference to each other, but Senor Lazo-Arriaga did not hesitate to expres decided disapproval of the Spanish minister's course.
